Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Acronis Cyber Protect Home Office's own pages, its app-store listings and our grades. Every fact in it is on Acronis Cyber Protect Home Office's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 6 of the 56 other antivirus apps we grade

Now sold as Acronis True Image, this is a home backup product that images whole machines or chosen files to local drives or the Acronis cloud. The Advanced and Premium plans add malware and ransomware protection to the backups, and both include identity protection for U.S. customers.

> **If you only want an antivirus, this is more than you need.**
>
> From our report card of Acronis Cyber Protect Home Office

To get you started, here are **8 things to know about Acronis Cyber Protect Home Office**, taken from its own pages and our grades.

1 **Best for backup with malware protection folded in**

Acronis sells disk backup and cloning with anti-malware attached, and the product is now called True Image on the page.

2 **Paid plans start at $4.17 a month when paid by the year**

As its pricing page puts it: $49.99 per year for 1 computer.

3 **It runs on 4 platforms**

Windows, macOS, iOS and Android.

4 **Full-image and file backup**

Backs up a whole machine, a disk or chosen files and folders to a local drive, a network share or the Acronis cloud, on a schedule.

5 **Disk cloning and universal restore**

Copies one drive to another when you move to new hardware, and restores an image onto a different machine. Both are in every plan.

6 **Anti-malware and ransomware detection**

The page describes behavior-based ransomware detection and real-time blocking of malicious processes, with one-click recovery of affected files. It is not in the Essentials plan.

7 **A 1.8 GPA, above 6 of 56**

That is against the other antivirus apps we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Acronis Cyber Protect Home Office you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for backup with malware protection folded in

Acronis sells disk backup and cloning with anti-malware attached, and the product is now called True Image on the page. Malware protection and cloud

storage start at the $57.99-a-year Advanced plan, and there is no free plan or trial on record. If you only want an antivirus, this is more than you need.

TOOLGPA REPORT CARD

Graded Nov 13, 2026

Acronis Cyber Protect Home Office

SUBJECT	GRADE	COMMENT
Value for money	C	$57.99 a year for 1 computer on Advanced, about $4.83 a month, which is the middle of this category. That is the cheapest plan with malware protection, and it includes backup too.
Free plan and trial	F	No free plan and no trial is listed. The only way in is paying from $49.99 a year, and even that Essentials plan has no malware protection.
Features	C	Backup, cloning and ransomware detection, but Essentials has no malware protection and no cloud storage, and identity protection is limited to US customers.
Ease of use	C	No store rating on record, and the listing shows backups, schedules and a web console to set up, so it sits at the ordinary grade.
Platforms and integrations	B	Windows, Mac, iPhone and Android with a web console, but only Microsoft 365 is listed as an integration and there is no Linux.

Grade point average Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Acronis Cyber Protect Home Office is for

- ✓ Fits if you want backup and cloning on the same bill as your malware protection
- ✓ Works for people moving to new hardware who need an image restored onto a different machine

Who it is not for

- ✗ Skip it if you only need an antivirus, as the backup half is what you are paying for
- ✗ Tight if you want no cloud storage costs: 50 GB is in Advanced and larger sizes cost extra
- ✗ Pricey if you want Premium at $124.99 a year for 1 computer, which adds signatures and 1 TB
- ✗ Not for you if you buy Essentials expecting malware protection, because it has none
- ✗ Watch out: the prices were read from a Singapore edition of the page and the product name has changed

Good to know

Good for

- ✓ Home users who want one product for backup and basic malware protection
- ✓ People migrating to a new PC or larger drive by cloning
- ✓ Households backing up several computers and phones to one account

Worth knowing

- ⓘ The product is now called Acronis True Image; the Cyber Protect Home Office name no longer appears on the page.
- ⓘ The Essentials plan has no malware protection and no cloud storage; both start at Advanced.
- ⓘ Identity protection is limited to U.S. customers on the Advanced and Premium plans, according to the product page.
- ⓘ The prices read here came from a page set to a Singapore edition, in U.S. dollars; the U.S. page could not be read separately.

What it does

Its main features, where it runs, what it works with and who makes it

4

Places it runs: macOS, Windows, iOS and Android

Backup and cloning software with anti-malware built in. Here is what it does, as its own site describes it, and what it covers: AI features, malware protection.

Full-image and file backup

Backs up a whole machine, a disk or chosen files and folders to a local drive, a network share or the Acronis cloud, on a schedule.

Disk cloning and universal restore

Copies one drive to another when you move to new hardware, and restores an image onto a different machine. Both are in every plan.

Anti-malware and ransomware detection

The page describes behavior-based ransomware detection and real-time blocking of malicious processes, with one-click recovery of affected files. It is not in the Essentials plan.

Microsoft 365 and mobile backup

Advanced and Premium include Microsoft 365 backup, and an iOS and Android app backs up a phone's photos, videos and contacts to the cloud.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

6/56

Other antivirus apps it is graded above

Acronis Cyber Protect Home Office's GPA of 1.8 is higher than 6 of the 56 other antivirus apps we grade, and level with 7.

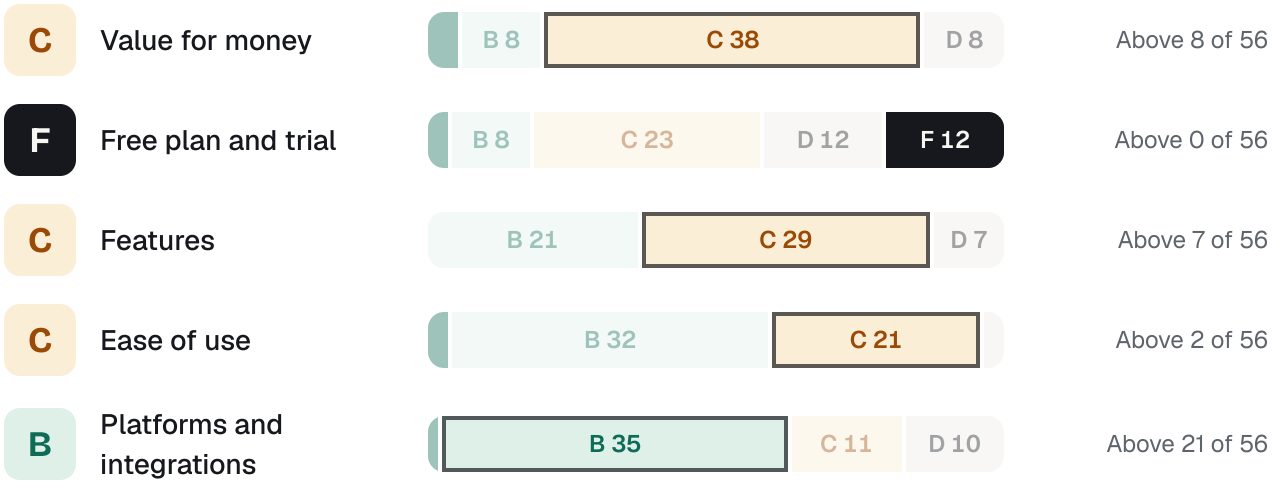

It stands best on platforms and integrations (B, above 21 of 56) and worst on free plan and trial (F, above 0).

Its paid plans start at $4.17 a month when paid by the year, against a middle price of $4.17 for the category: 15 of the 34 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 10 tools score higher and cost less.

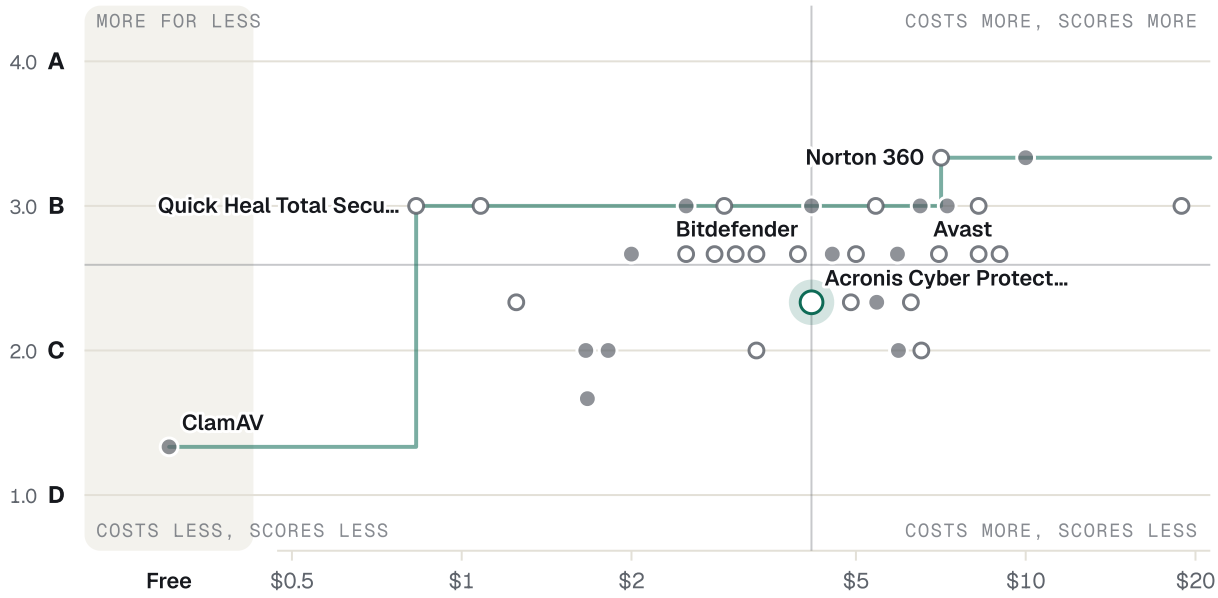

Each grade against the category

Every bar is all 57 antivirus apps we grade, cut by the letter each got. Acronis Cyber Protect Home Office's own letter is outlined.

Price against what you get

Each dot is one of 36 antivirus apps. Further left costs less; higher up scores better on features, ease of use and platforms. Acronis Cyber Protect Home Office is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Acronis Cyber Protect Home Office you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 43 of the 56 other antivirus apps grade higher. It costs $49.99 a year.

What you could not

- ✕ An engine that recognises new malware as it appears.
- ✕ Apps for macOS, Windows, iOS and Android that stay in step with each other.

- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Acronis Cyber Protect Home Office's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
