Affilka is an affiliate management platform for iGaming operators. It covers affiliate account management, a commission constructor, multi-level sub-affiliates, media management, detailed reports and built-in payout processing. The site publishes no prices and sends buyers to a demo request.

5 **Commission constructor**

Operators build their own commission plans from criteria such as first deposit amount or wager amount, rather than choosing fixed templates.

6 **A 1.8 GPA, above 22 of 89**

That is against the other affiliate and referral tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Affilka you would be making payouts to partners in many countries, with their tax forms. That is not a weekend's work, with an AI app builder or without one.

Who Affilka is for

- ✓ Works for operators that want multi-level sub-affiliate deals

Who it is not for

Where it stands

Its grades against its category, and whether to keep it or make your own

22/89

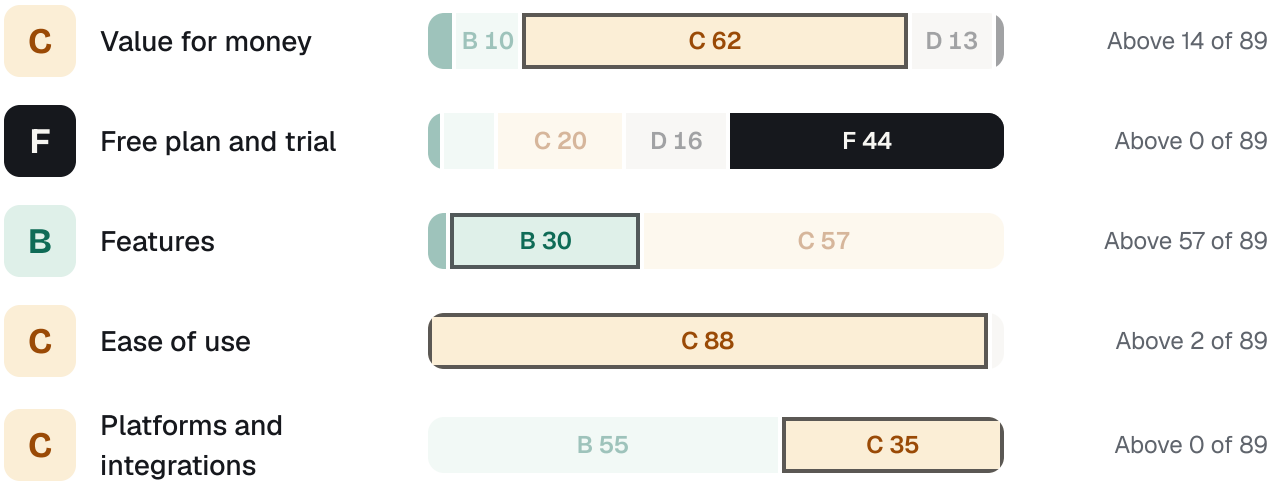

Other affiliate and referral tools it is graded above

Affilka's GPA of 1.8 is higher than 22 of the 89 other affiliate and referral tools we grade, and level with 22.

It stands best on features (B, above 57 of 89) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 90 affiliate and referral tools we grade, cut by the letter each got. Affilka's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Affilka you would be making payouts to partners in many countries, with their tax forms. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 45 of the 89 other affiliate and referral tools grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- Payouts to partners in many countries, with their tax forms.
- Every click and sale traced back to the right partner.
- Sharing with other people, which means accounts and invitations.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Affilka's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
