PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

20/45

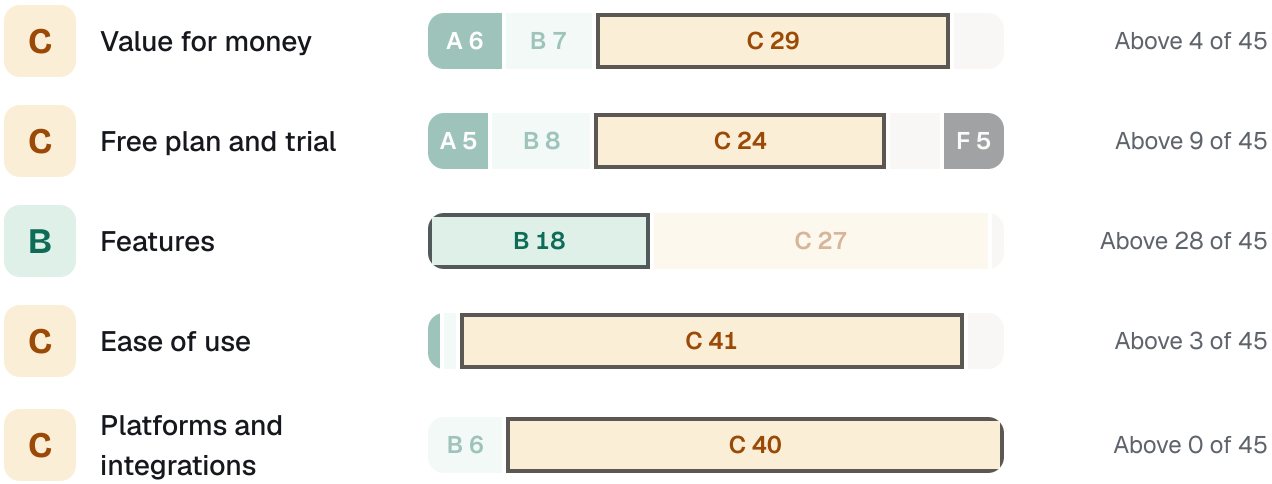

Other resume builders it is graded above

AIApply's GPA of 2.2 is higher than 20 of the 45 other resume builders we grade, and level with 13.

It stands best on features (B, above 28 of 45) and worst on platforms and integrations (C, above 0).

Each grade against the category

Every bar is all 46 resume builders we grade, cut by the letter each got. AIApply's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace AIApply you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

What you could make

- Resume builder: an app builder makes this well.

What you could not

- An AI agent, with the models and the safeguards behind it.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. AIApply's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
