Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 8 of the 63 other spreadsheet and database tools we grade

Ajelix is an AI assistant that works on spreadsheets, slide decks and documents, available as a web app plus a Google Sheets add-on and an Excel add-in. Its pricing page sells per-user plans that differ by model tier, usage level, file size and compute, and a 10-requests-a-month free tier is described in its FAQ.

To get you started, here are **9 things to know about Ajelix**, taken from its own pages and our grades.

> **You sign up, install the add-on in Sheets or Excel and learn what to ask it, so there is some setting up.**
>
> From our grade for ease of use

1 **Best for AI help inside Excel and Google Sheets**

Ajelix is an AI assistant that writes formulas, reports and slides from your spreadsheets, as a web app plus Sheets and Excel add-ons.

2 **Paid plans start at $32 a month for each person**

As its pricing page puts it: $32 per user / month, billed yearly ($39 billed monthly).

3 There is a free plan

The pricing-page FAQ describes a free plan with 10 requests a month and access to all tools, plus the Excel add-in and Google Sheets add-on. The plan cards themselves list only paid tiers.

4 It runs on Web

Web.

5 Agentic AI chat

A chat interface where the assistant carries out multi-step work on files, such as building charts, reports or presentations from a spreadsheet.

6 Google Sheets add-on and Excel add-in

The pricing FAQ says the tools also come as an add-on for Google Sheets and an add-in for Excel.

7 Formula and template generators

The FAQ names an Excel formula generator and an Excel template generator as the most used of its 17 AI tools.

8 A 2.0 GPA, above 8 of 63

That is against the other spreadsheet and database tools we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Ajelix you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for AI help inside Excel and Google Sheets

Ajelix is an AI assistant that writes formulas, reports and slides from your spreadsheets, as a web app plus Sheets and Excel add-ons. Paid plans start at $32 per user a month, the free tier is described only in the FAQ, and it is an AI layer rather than a spreadsheet of its own.

TOOLGPA REPORT CARD — **Ajelix** — Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	Lite is $32 per user a month on yearly billing, against $6 for the cheaper quarter of spreadsheet tools and $12 in the middle. Pro, with the larger models, is $82.
Free plan and trial	C	The FAQ describes a free plan of 10 requests a month, and you would burn through that in an afternoon. The plan cards themselves list no free tier, and no trial is stated.

SUBJECT	GRADE	COMMENT
Features	C	Chat agents, formula and template generators, and add-ons for Sheets, Excel, Docs, Slides and Forms. It works on files rather than being a spreadsheet, so it needs one of those apps next to it.
Ease of use	C	No store rating on record. You sign up, install the add-on in Sheets or Excel and learn what to ask it, so there is some setting up.
Platforms and integrations	B	A web app with Google Sheets, Docs, Slides, Forms and Excel add-ons. No desktop or phone app is listed.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Ajelix is for

- ✓ Fits if you already live in Excel or Google Sheets and want help writing formulas
- ✓ Works for teams that want one AI helper across sheets, slides and docs

Who it is not for

- ✗ Pricey if you are one person, as Lite is $32 a month yearly and $39 monthly
- ✗ Tight if you stay on the free plan, since it allows 10 requests a month
- ✗ Skip it if you want a spreadsheet editor, as this sits on top of Excel or Sheets
- ✗ Watch out: subscriptions are non-refundable and the plan cards show no free tier
- ✗ Watch out: the Enterprise card shows a per-user price on the page but is listed here as custom, so check it before you ask

Good to know

Good for

- ✓ People who want an AI assistant for Excel and Google Sheets formulas and reports
- ✓ Teams that need an AI helper across sheets, slides and docs

Worth knowing

- ⓘ The plan cards show no free tier; the free plan appears only in the FAQ, so confirm it at sign-up.
- ⓘ Subscriptions are non-refundable according to the pricing FAQ, and cancellation takes effect at the end of the billing cycle.
- ⓘ It is an AI layer on top of spreadsheets rather than a spreadsheet editor of its own.
- ⓘ The Enterprise card is sold through a contact form with no published price.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

8/63

Other spreadsheet and database tools it is graded above

Ajelix's GPA of 2.0 is higher than 8 of the 63 other spreadsheet and database tools we grade, and level with 8.

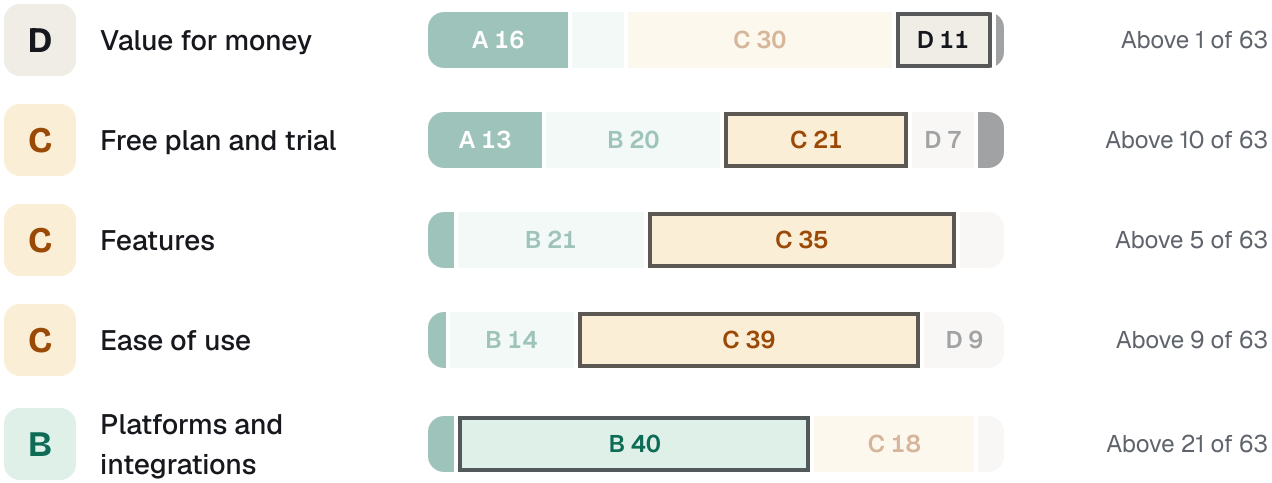

It stands best on platforms and integrations (B, above 21 of 63) and worst on value for money (D, above 1).

Its paid plans start at $32 a month for each person, against a middle price of $12 for the category: 37 of the 47 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 23 tools score higher and cost less.

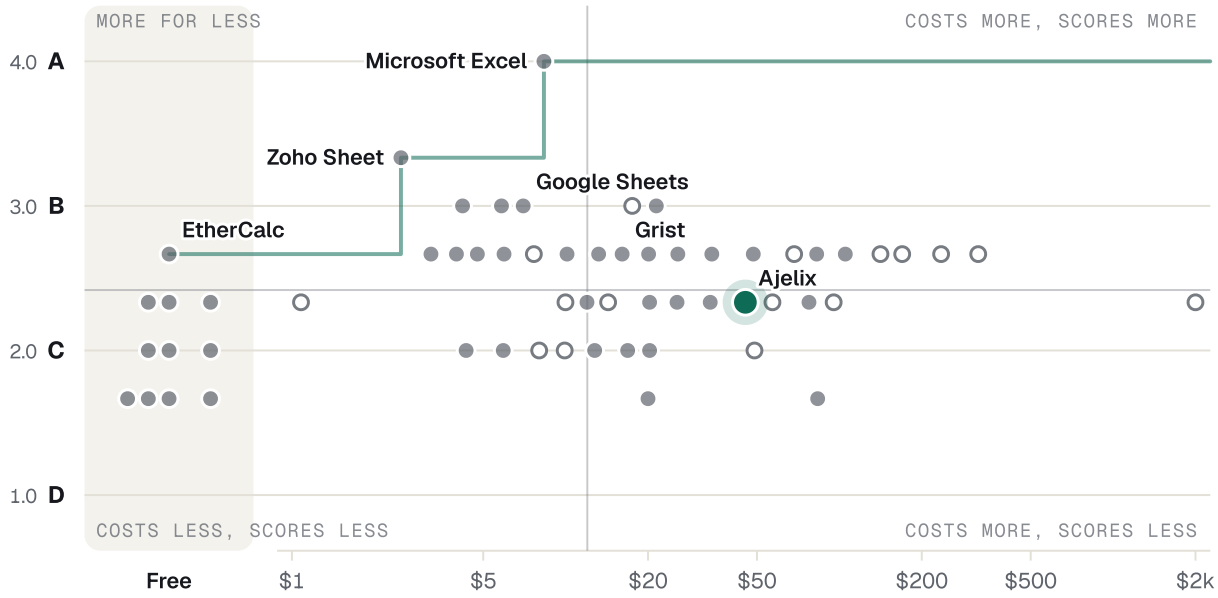

Each grade against the category

Every bar is all 64 spreadsheet and database tools we grade, cut by the letter each got. Ajelix's own letter is outlined.

Price against what you get

Each dot is one of 59 spreadsheet and database tools. Further left costs less; higher up scores better on features, ease of use and platforms. Ajelix is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Ajelix you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 47 of the 63 other spreadsheet and database tools grade higher. It costs $384 a year.

What you could not

- ✕ An AI agent, with the models and the safeguards behind it.
- ✕ An AI model, which you can rent by the request but not make.

- ✕ A spreadsheet engine with its formulas.
- ✕ It is priced for each person, which means accounts and billing for a team.
- ✕ It plugs into other products, Google Sheets, Google Docs and Google Slides among them.

What this rests on. Ajelix's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
