Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Allegrow's own pages, its app-store listings and our grades. Every fact in it is on Allegrow's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 8 of the 61 other email verification and deliverability tools we grade

Allegrow verifies email addresses for outbound sales teams and gives catch-all contacts a Valid or Invalid status instead of an unknown one. It also flags spam traps, disposable addresses and inactive mailboxes, and detects each contact's primary email. Paid plans connect mailboxes to track domain health, with hourly SPF, DKIM and DMARC monitoring.

To get you started, here are **9 things to know about Allegrow**, taken from its own pages and our grades.

> **You upload CSVs and connect a mailbox for domain tracking, so there is some setting up.**
>
> From our grade for ease of use

1 **Best for verifying B2B emails with catch-all results**

Allegrow verifies B2B email lists and reports on catch-all addresses and mailbox health.

2 **Paid plans start at $99 a month**

As its pricing page puts it: $99 per month for 5,000 contacts a month.

3 **You can try it first**

14-day free trial that verifies up to 1,000 addresses, without integrations, API access or mailbox connection.

4 **It runs on Web**

Web.

5 **Catch-all verification**

Gives catch-all addresses a Valid or Invalid status rather than leaving them as unknown.

6 **Risk flags**

Identifies spam traps, disposable addresses and inactive mailboxes, and detects each contact's primary email.

7 **Domain health tracking**

Starter connects 1 mailbox to track domain health and reputation, with automated positive email interactions.

8 **A 2.0 GPA, above 8 of 61**

That is against the other email verification and deliverability tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Allegrow you would be making a network of real inboxes that open and answer your emails. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for verifying B2B emails with catch-all results

Allegrow verifies B2B email lists and reports on catch-all addresses and mailbox health. Starter is $99 a month for 5,000 contacts, the free trial leaves out integrations and the API, and the unlimited plan with native HubSpot and Outreach connections is $1,340 a month.

TOOLGPA REPORT CARD — **Allegrow** — Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	Starter is $99 a month for 5,000 contacts, which is where the dearest tenth of deliverability tools starts. Extra credits are $8 per 1,000, and unlimited verification is $1,340 a month.
Free plan and trial	C	14-day trial that verifies up to 1,000 addresses, without integrations, API access or mailbox connection. There is no free plan, and the listing does not say if a card is needed.
Features	C	Catch-all verification, risk flags, domain health and DNS monitoring. Starter has no native integrations and API access is on request.
Ease of use	C	No store rating on record. You upload CSVs and connect a mailbox for domain tracking, so there is some setting up.
Platforms and integrations	B	Web, with native HubSpot, Outreach and Salesloft only on the top plan and a Clay link through an API key.

Grade point average Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Allegrow is for

- ✓ Fits if you send B2B outreach and want catch-all addresses sorted out
- ✓ Works for sales teams that want list cleaning and mailbox health in one place

Who it is not for

- ✕ Pricey if you are one person: Starter is $99 a month for 5,000 contacts
- ✕ Pricey if you want native CRM links, as they sit on $1,340 a month billed annually
- ✕ Watch out: the trial leaves out integrations, API access and mailbox connection
- ✕ Watch out: extra users cost $40 a mailbox or user, and the Starter page gives no billing period

Good to know

Good for

- ✓ Outbound sales teams with many catch-all addresses
- ✓ RevOps teams cleaning CRM data before sequences
- ✓ Data builders who embed verification in their own product

Worth knowing

- ⓘ The free trial excludes integrations, API access and mailbox connection.
- ⓘ Starter has no native integrations and runs on credits; extra users cost $40 per mailbox or user.
- ⓘ Unlimited verification and native integrations need Scale Plus Unlimited at $1,340 a month billed annually.
- ⓘ The Starter price carries no billing period on the page.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$99

A month to start

Allegrow is a paid product with a free trial, starting at $99 per month for 5,000 contacts a month.

> **There is no free plan, and the listing does not say if a card is needed.**

From our grade for free plan and trial

STARTER

$99

per month for 5,000 contacts a month

CSV list cleaning, API access on request, a Clay integration through an API key, and 1 connected mailbox for domain health tracking. Extra credits cost $8 per 1,000 contacts.

SCALE PLUS UNLIMITED

$1,340

per month, billed annually

Unlimited verification, native HubSpot, Outreach and Salesloft integrations, API capped at 1M requests a month, and a customer success manager. Sold by demo request.

API PLAN

Custom

Priced for millions of API requests a month, with unlimited API keys and custom sync and async speeds.

Trying it first

14-day free trial that verifies up to 1,000 addresses, without integrations, API access or mailbox connection.

Read from allegrow.co on Nov 12, 2026.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

B2B email verification with catch-all results and mailbox health. Here is what it does, as its own site describes it, and what it covers: email verification, inbox warm-up, dMARC.

> **Catch-all verification, risk flags, domain health and DNS monitoring.**

From our grade for features

Catch-all verification

Gives catch-all addresses a Valid or Invalid status rather than leaving them as unknown.

Risk flags

Identifies spam traps, disposable addresses and inactive mailboxes, and detects each contact's primary email.

Domain health tracking

Starter connects 1 mailbox to track domain health and reputation, with automated positive email interactions.

DNS monitoring

Paid plans check SPF, DKIM and DMARC records every hour.

CRM and sales tool integrations

Scale Plus adds native integrations for HubSpot, Outreach and Salesloft and automated workflow rules.

Clay

Allegrow is made by Allegrow.

Where it stands

Its grades against its category, and whether to keep it or make your own

8/61

Other email verification and deliverability tools it is graded above

Allegrow's GPA of 2.0 is higher than 8 of the 61 other email verification and deliverability tools we grade, and level with 14.

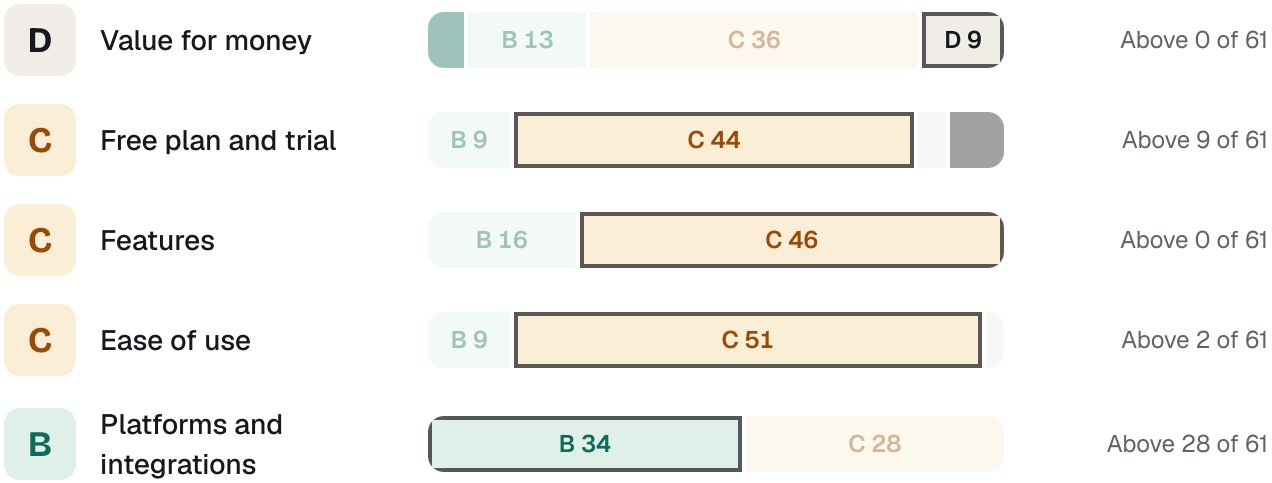

It stands best on platforms and integrations (B, above 28 of 61) and worst on value for money (D, above 0).

Its paid plans start at $99 a month, against a middle price of $21.50 for the category: 38 of the 43 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 8 tools score higher and cost less.

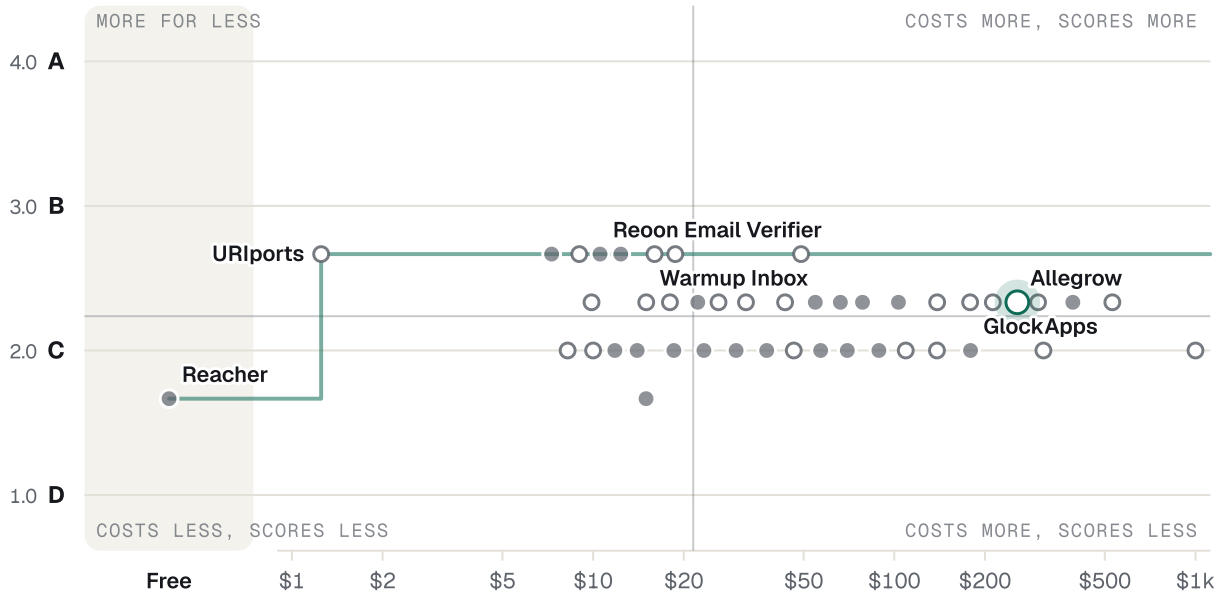

Each grade against the category

Every bar is all 62 email verification and deliverability tools we grade, cut by the letter each got. Allegrow's own letter is outlined.

Price against what you get

Each dot is one of 45 email verification and deliverability tools. Further left costs less; higher up scores better on features, ease of use and platforms. Allegrow is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Allegrow you would be making a network of real inboxes that open and answer your emails. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 39 of the 61 other email verification and deliverability tools grade higher. It costs $1,188 a year.

What you could not

- ✕ A network of real inboxes that open and answer your emails.

- ✕ Checking that an address exists without writing to it.
- ✕ Reading the reports inbox providers send about your domain.

What this rests on. Allegrow's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

ZeroBounce, Bouncer, NeverBounce, Kickbox and MailReach

The 5 tools Allegrow is most often weighed against, with where each one differs from it.

2.4 GPA

ZeroBounce
