07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Apporto's own pages, its app-store listings and our grades. Every fact in it is on Apporto's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 1 of the 85 other remote desktop apps we grade

Apporto delivers virtual desktops through a browser for businesses and for schools and universities. Its pages describe digital workspaces for remote work, virtual computer labs and cybersecurity labs, and separate AI tools for grading, tutoring and academic integrity. Pricing is not published; buyers request a demo or a pilot.

To get you started, here are **7 things to know about Apporto**, taken from its own pages and our grades.

> **Prices, trials and plans are all behind a demo or contact form, and the AI grading and tutoring tools are separate products.**
>
> From our report card of Apporto

1 **Best for browser-based virtual labs for schools**

Apporto delivers virtual desktops and computer labs in a browser, aimed at universities and companies.

2 **It runs on Web**

Web.

3 Digital workspaces

Browser-based desktops for remote and hybrid staff, which the vendor positions as an alternative to VDI that avoids locking down every device.

4 Virtual computer labs

Lab desktops that students and faculty reach from anywhere, aimed at cutting support tickets for campus IT.

5 Cybersecurity labs

A hands-on sandbox with pre-built courses and 24/7 remote access for security training.

6 A 1.6 GPA, above 1 of 85

That is against the other remote desktop apps we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Apporto you would be making a fast, secure link to another computer through any network. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for browser-based virtual labs for schools

Apporto delivers virtual desktops and computer labs in a browser, aimed at universities and companies. Prices, trials and plans are all behind a demo or contact form, and the AI grading and tutoring tools are separate products.

TOOLGPA REPORT CARD

Apporto

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; the site offers demos, a contact form and pilot programs, so cost can't be set against the category.
Free plan and trial	F	No free plan and no trial on record. A pilot program is arranged through sales.
Features	C	Virtual desktops, computer labs and cybersecurity labs with exam tools. The AI grading and tutoring parts are separate products, so the desktop job stands on its own.
Ease of use	C	No store rating on record. An organization has to set up labs and users before anyone starts.
Platforms and integrations	C	Web only: users open it in a browser, and the listing names no desktop or phone app.

Grade point average — Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Apporto is for

- ✓ Fits if you run a university lab and want desktops students open from any device
- ✓ Works for a company wanting a browser desktop without running VDI itself

Who it is not for

- ✗ Not for you if you are an individual buyer, as the pages target organizations
- ✗ Skip it if you want a price list, because none is published
- ✗ Too light for self-serve trials: only demos and pilots arranged through sales
- ✗ Watch out: AI grading, tutoring and integrity tools are separate from the virtual desktops

Good to know

Good for

- ✓ Universities that want virtual computer labs reachable from any device
- ✓ Companies looking for a browser-delivered desktop without running VDI themselves

Worth knowing

- ⓘ No prices are published; the site offers demos, a contact form and pilot programs.
- ⓘ The AI grading, tutoring and integrity tools are separate products from the virtual desktops.
- ⓘ The pages read target organizations, so there is no plan for individual buyers.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Apporto's current pricing could not be confirmed from its own site.

> **No price is published; the site offers demos, a contact form and pilot programs, so cost can't be set against the category.**
>
> From our grade for value for money

We could not confirm Apporto's current prices from its own site, so this guide lists no plans. apporto.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Browser-based virtual desktops and computer labs for work and schools. Here is what it does, as its own site describes it, and what it covers: AI features, remote desktop.

"

Virtual desktops, computer labs and cybersecurity labs with exam tools.

From our grade for features

Digital workspaces

Browser-based desktops for remote and hybrid staff, which the vendor positions as an alternative to VDI that avoids locking down every device.

Virtual computer labs

Lab desktops that students and faculty reach from anywhere, aimed at cutting support tickets for campus IT.

Cybersecurity labs

A hands-on sandbox with pre-built courses and 24/7 remote access for security training.

Exam and integrity tools

ExamSpace is a browser-based exam workspace and TrustEd is an analytics product that looks for anomalies in student work.

AI grading and tutoring

AI PowerGrader gives feedback against rubrics, and CoTutor offers in-context AI guidance for students.

Where it runs

Web

What it works with

Its own pages name no integrations.

Apporto is made by Apporto.

Where it stands

Its grades against its category, and whether to keep it or make your own

1/85

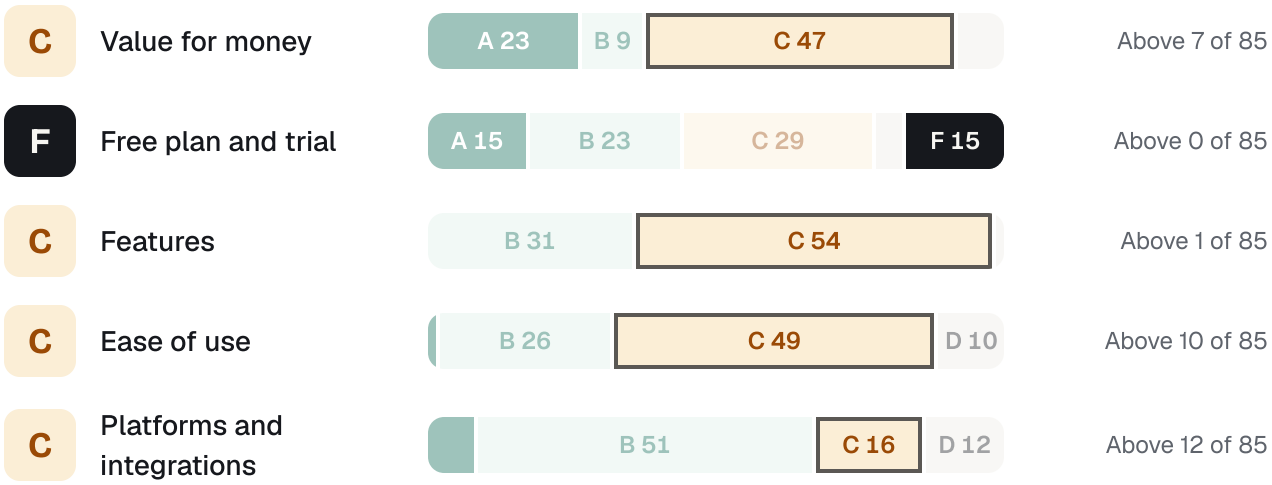

Other remote desktop apps it is graded above

Apporto's GPA of 1.6 is higher than 1 of the 85 other remote desktop apps we grade, and level with 4.

It stands best on platforms and integrations (C, above 12 of 85) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 86 remote desktop apps we grade, cut by the letter each got. Apporto's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Apporto you would be making a fast, secure link to another computer through any network. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 80 of the 85 other remote desktop apps grade higher.

What you could not

- ✕ A fast, secure link to another computer through any network.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Apporto's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Cameyo, Dizzion, Workspot, Citrix DaaS and Omnissa Horizon

The 5 tools Apporto is most often weighed against, with where each one differs from it.

1.6 GPA

Cameyo

Paid

Virtual app delivery that serves Windows apps as web apps.

- Cameyo also covers file sharing.

Apporto and Cameyo compared in full

1.6 GPA

Dizzion

Paid

Managed cloud desktops, app streaming and DaaS for businesses.

- Dizzion also covers workflow automation.

Apporto and Dizzion compared in full

1.6 GPA

Workspot

Paid

Cloud-hosted virtual desktops and apps managed from one console.

- Workspot also covers dashboards.

Apporto and Workspot compared in full

1.6
GPA

Citrix DaaS

Paid

Virtual apps and desktops delivered from cloud or on-premises.

- Only Citrix DaaS lists Windows, macOS, Linux and Android apps.
- Citrix DaaS also covers workflow automation.

Apporto and Citrix DaaS compared in full

1.8
GPA

Omnissa Horizon

Paid

Virtual desktops and apps on-premises, in the cloud or hybrid.

- Only Apporto lists a web app.
- Only Omnissa Horizon lists Windows, macOS, Linux, iOS and Android apps.
- Omnissa Horizon also covers workflow automation.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at toolgpa.com.
