Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 7 of the 149 other project management tools we grade

Asta Powerproject is a planning and scheduling application from Eleco, built mainly for construction and infrastructure projects. It offers Gantt scheduling with critical path analysis, resource and cost management, scenario planning and 4D BIM integration. A multi-user Enterprise edition shares programmes across teams and portfolios.

To get you started, here are **9 things to know about Asta Powerproject**, taken from its own pages and our grades.

1 **Best for construction planners who need Gantt programmes**

Asta Powerproject is Gantt-based planning software for construction, with 4D BIM, resource and cost management.

2 **Paid plans start at about $170.84 a month for each person**

As its pricing page puts it: £1,530 per licence / year, VAT included, UK shop price.

3 **You can try it first**

14-day free trial download

4 **It runs on 3 platforms**

Windows, iOS and Android.

5 **Gantt scheduling**

Tasks are drawn and linked inside the Gantt chart for critical path analysis, with codes, calendars, resources and costs assigned there too.

6 **4D BIM integration**

The product page lists 4D BIM integration, which ties the schedule to a building model for visual planning.

7 **Resource and cost management**

Resources are allocated across projects, and planned spend is compared with actual spend to forecast costs.

8 **A 1.8 GPA, above 7 of 149**

That is against the other project management tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

The plain part of Asta Powerproject you could make: Gantt & timelines and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

The report card

Best for construction planners who need Gantt programmes

Asta Powerproject is Gantt-based planning software for construction, with 4D BIM, resource and cost management. It costs £1,530 per licence a year including VAT, runs on Windows, and the phone app is licensed separately.

TOOLGPA REPORT CARD

Asta Powerproject

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	£1,530 per licence a year with UK VAT, about £128 a month, far above the dearest tenth of the category. It is a specialist tool, but the figure is the UK shop price.
Free plan and trial	D	14-day free trial download, no free plan, and card terms are not stated.
Features	C	Gantt scheduling, 4D BIM, resources, costs and scenario planning. It does the construction planning job fully, which is a narrower job than general project management.
Ease of use	C	No store rating on record. Construction scheduling software takes training.
Platforms and integrations	B	Windows desktop with iOS and Android apps, which are licensed separately. Mac use needs the SaaS edition.

Grade point average Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Asta Powerproject is for

- ✓ Fits if you plan construction programmes and need 4D BIM links
- ✓ Works for contractors who want a free viewer for colleagues

Who it is not for

- ✕ Pricey if you are a small team, as one licence is £1,530 a year with VAT
- ✕ Not for you if you use a Mac, as the desktop software is Windows only and Mac needs the SaaS edition
- ✕ Watch out: the iOS and Android app is licensed separately
- ✕ Watch out: the price read is the UK shop's in pounds, and Enterprise has no published price
- ✕ Skip it if you want a free plan, as only a 14-day trial is listed

Good to know

Good for

- ✓ Construction planners and schedulers who work in Gantt charts
- ✓ Contractors that want 4D BIM linked to the programme
- ✓ Organizations choosing single-user, concurrent or cloud licensing

Worth knowing

- ⓘ The desktop software runs on Windows PC; Mac use needs the SaaS edition.
- ⓘ The iOS and Android companion app is licensed separately.
- ⓘ The price read is the UK shop's GBP figure with VAT; US and other-country prices were not seen.
- ⓘ Enterprise has no published price, and licences are single-user, concurrent or SaaS.

Where it stands

Its grades against its category, and whether to keep it or make your own

7 /149

Other project management tools it is graded above

Asta Powerproject's GPA of 1.8 is higher than 7 of the 149 other project management tools we grade, and level with 6.

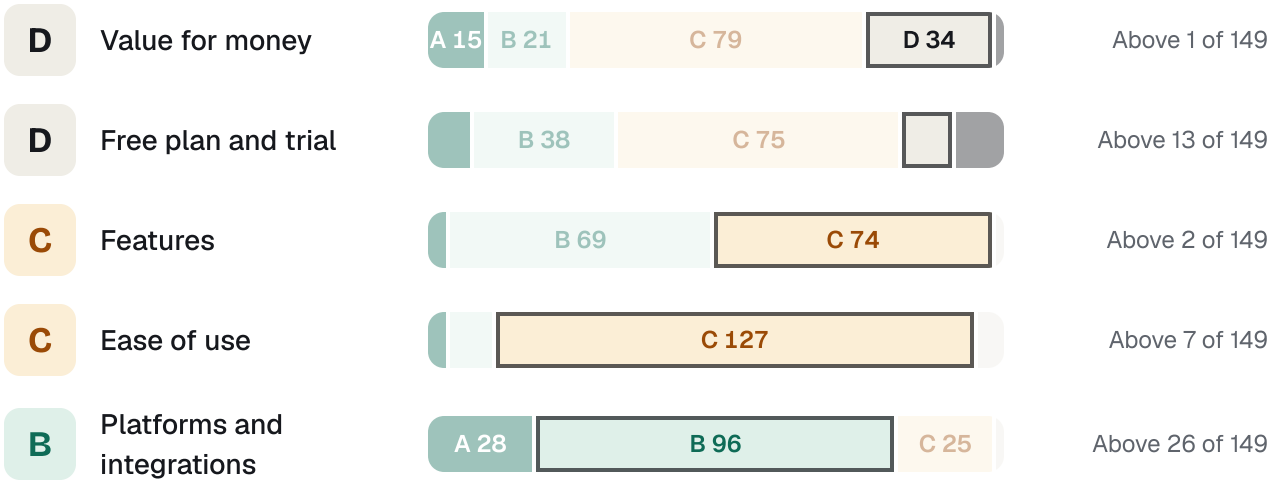

It stands best on platforms and integrations (B, above 26 of 149) and worst on value for money (D, above 1).

Its paid plans start at about $170.84 a month for each person, against a middle price of $9 for the category: 120 of the 121 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 65 tools score higher and cost less.

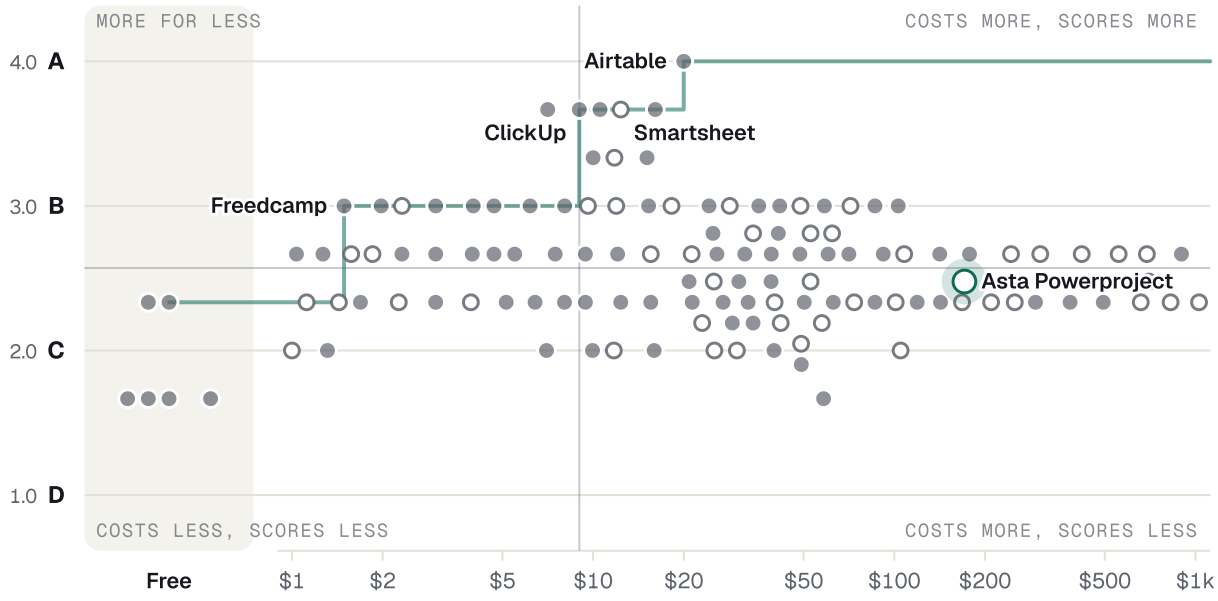

Each grade against the category

Every bar is all 150 project management tools we grade, cut by the letter each got. Asta Powerproject's own letter is outlined.

Price against what you get

Each dot is one of 128 project management tools. Further left costs less; higher up scores better on features, ease of use and platforms. Asta Powerproject is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Asta Powerproject you could make: Gantt & timelines and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 136 of the 149 other project management tools grade higher. It costs $2,050.03 a year.

What you could make

- Gantt & timelines and reports: an app builder makes these well.

What you could not

- Connections that pull numbers from dozens of other services.

- Apps for Windows, iOS and Android that stay in step with each other.
- It is priced for each person, which means accounts and billing for a team.

What this rests on. Asta Powerproject's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
