Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 4 of the 89 other AI image and video generators we grade

Astria generates images from text and from pictures you upload. Its site is aimed at e-commerce and fashion brands making product shots and lookbooks from templates, and it also offers headshots and an API for fine-tuning image models on a customer's own photos. It runs in the browser, with a Photoshop plugin and connections to ChatGPT and Claude.

To get you started, here are **7 things to know about Astria**, taken from its own pages and our grades.

> **Templates, references and fine-tuning all have to be learned, and credits need working out.**
>
> From our grade for ease of use

1 **Best for AI product photos and lookbooks**

We could not read its prices because the pricing page sits behind a bot check, and its fine-tunes are deleted after a month.

2 **It runs on Web**

Web.

3 **Product photoshoots and lookbooks**

Upload product photos and pick a template to generate on-model images, campaign banners and lookbook pages.

4 **Templates**

The site lists ready-made templates for fashion, beauty and jewelry, among others, plus a prompt-based generator.

5 **Headshots**

A headshot workflow trains on uploaded photos; the documentation also links an open-source headshots app.

6 **A 1.8 GPA, above 4 of 89**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Astria you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for AI product photos and lookbooks

Astria makes AI product photos and fashion lookbooks from your own pictures, and offers a fine-tuning API plus Photoshop, ChatGPT and Claude connections. We could not read its prices because the pricing page sits behind a bot check, and its fine-tunes are deleted after a month.

TOOLGPA REPORT CARD

Astria

Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is on record because the pricing page was behind a bot check, so there is nothing to set against the $10 middle for image tools. Credits expire after one year.
Free plan and trial	F	No free plan or trial is on record; the pricing page was behind a bot check, so one may exist that we could not see.
Features	C	Product photoshoots, lookbook templates, a headshot workflow, a fine-tuning API and a Photoshop plugin. A fine-tune and its images are deleted after a month unless you delete them first.
Ease of use	C	No store rating on record. Templates, references and fine-tuning all have to be learned, and credits need working out.
Platforms and integrations	B	Web app with a Photoshop plugin, CLI, MCP, an API and connections to ChatGPT and Claude. No phone or desktop app is listed.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Astria is for

- ✓ Fits if you sell fashion, beauty or jewelry and want on-model product images
- ✓ Works for developers who would fine-tune on a set of pictures through an API

Who it is not for

- ✕ Skip it if you need to see prices first, since none were readable
- ✕ Watch out: credits must be used within one year of purchase or they expire
- ✕ Watch out: a fine-tune and its images are deleted after 1 month unless you delete them sooner
- ✕ Watch out: the terms let Astria train and evaluate its models on inputs and outputs, with conditions

Good to know

Good for

- ✓ Fashion and e-commerce brands producing many product images
- ✓ Developers adding image fine-tuning to an app through an API

Worth knowing

- ⓘ The pricing page is behind a bot check, so no prices were read and none are shown here.
- ⓘ The terms say credits must be used within one year of purchase or they expire.
- ⓘ The documentation says a fine-tune and its images are deleted after 1 month unless you delete them sooner.
- ⓘ The terms let Astria train and evaluate its models on inputs and outputs, subject to conditions described there.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Astria's current pricing could not be confirmed from its own site.

> **No free plan or trial is on record; the pricing page was behind a bot check, so one may exist that we could not see.**
>
> From our grade for free plan and trial

We could not confirm Astria's current prices from its own site, so this guide lists no plans. astria.ai has them.

What it does

Its main features, where it runs, what it works with and who makes it

Where it stands

Its grades against its category, and whether to keep it or make your own

4/89

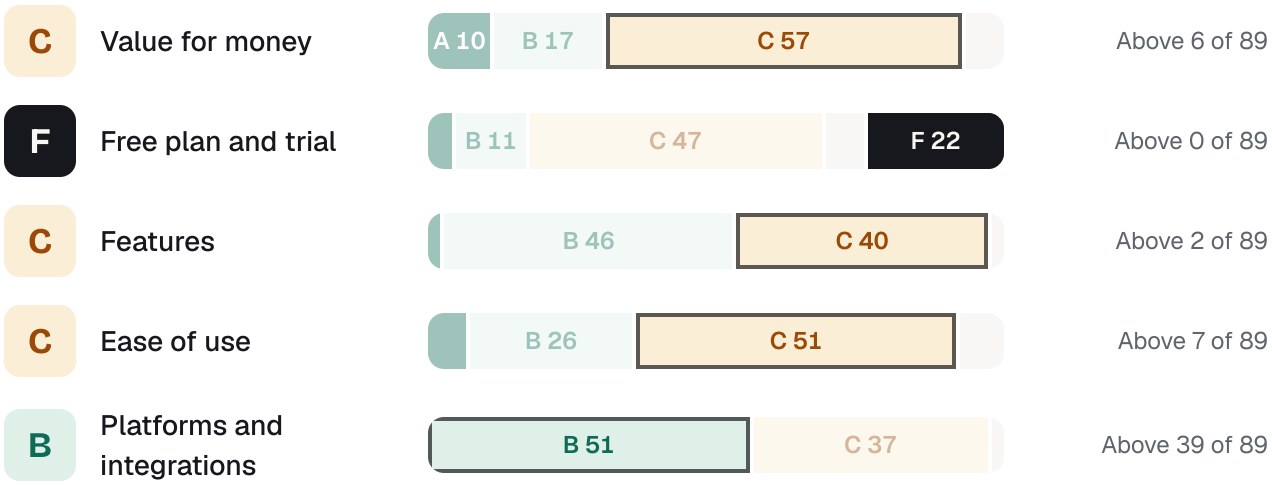

Other AI image and video generators it is graded above

Astria's GPA of 1.8 is higher than 4 of the 89 other AI image and video generators we grade, and level with 11.

It stands best on platforms and integrations (B, above 39 of 89) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 90 AI image and video generators we grade, cut by the letter each got. Astria's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Astria you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 74 of the 89 other AI image and video generators grade higher.

What you could make

- Templates: an app builder makes this well.

What you could not

- An image model, which you can rent by the picture but not make.
- It plugs into other products, Photoshop, ChatGPT and Claude among them, and has an API.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Astria's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

Where this guide comes from

The prices, plans, platforms and features were read from Astria's own pages on Nov 12, 2026, and the grades were given on Nov 12, 2026. Graded from this listing, whose facts were read from Astria's own pages on 12 November 2026. Not based on using the product, and shorter than our full reviews. The pricing page sat behind a bot check, so no prices were read.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Astria, Inc. Prices change, so check astria.ai before you buy.
