SUBJECT	GRADE	COMMENT
Features	C	Attribution, AI traffic detection, AI scans and crawler tracking. The API, exports and multi-site agency features are listed as coming soon.

Keep it

The plain part of Attrifast you could make: reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

It costs $119.88 a year.

What you could make

- Reports: an app builder makes this well.

What you could not

- The same prompts asked of ChatGPT, Perplexity, Gemini and Google's AI answers every day, and the answers kept.
- A tracking script and a database that counts every visit.
