Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 0 of the 78 other e-signature and proposal tools we grade

Authentisign is an electronic signature product for real estate, made by Lone Wolf Technologies. It handles listing agreements through closing documents, with automatic signature block placement, pre-filled fields and signing on any device. It connects to Lone Wolf Transactions, and is offered to agents, teams, brokers, and MLS and association members.

To get you started, here are **7 things to know about Authentisign**, taken from its own pages and our grades.

> **No price is published, the site gave no plan table, and it is aimed at real estate.**
>
> From our report card of Authentisign

1 **Best for agents on Lone Wolf Transactions**

Authentisign is Lone Wolf's real estate e-signature tool, with automatic field placement and a link into Lone Wolf Transactions.

2 **It runs on Web**

Web.

3 Automatic field placement

Signature blocks are placed automatically and fields are pre-filled to reduce errors when preparing a document.

4 Signing on any device

Clients follow an invitation link and are walked through signing; the vendor says documents can be prepared, sent and signed from a phone.

5 Tracking and certificate

Reminders, progress tracking and a signing certificate show when a document was signed, by whom and where, with an audit trail on every transaction.

6 A 1.6 GPA, above 0 of 78

That is against the other e-signature and proposal tools we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Authentisign you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

TOOLGPA REPORT CARD

Authentisign

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published on the pages read, so there is nothing to put against the category's $10 to $29 spread.
Free plan and trial	F	No free plan and no trial on record anywhere on its pages.
Features	C	Automatic field placement, tracking, certificate and team permissions. The listing could not confirm plan limits.
Ease of use	C	No store rating on record. It is a web product tied to Lone Wolf accounts.
Platforms and integrations	C	Web only, with a link to Lone Wolf Transactions and no other integrations listed.

Grade point average — Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Authentisign is for

- ✓ Fits if you already pay for Lone Wolf Transactions
- ✓ Works for real estate agents who need signing that matches their forms

Who it is not for

- ✕ Skip it if you want a price before talking to anyone, because none is published
- ✕ Not for you if you are outside real estate, as the site frames it for that market
- ✕ Too light for a general signing need, since it ties into Lone Wolf
- ✕ Watch out: agents outside the Transactions editions are sent to a separate sign-up path

Good to know

Good for

- ✓ Agents already using Lone Wolf zipForm or TransactionDesk
- ✓ Brokerages and MLS associations offering signing to members
- ✓ North American real estate teams that need English, French or Spanish signing

Worth knowing

- ⓘ No price is published on the pages read; pricing here is unverified and handled through Lone Wolf sales or the Transactions edition purchase.
- ⓘ The vendor says it complies with ESIGN and UETA and is approved by Fannie Mae and FHA; the site frames it for real estate.
- ⓘ Agents outside the Transactions editions are pointed to a separate sign-up path.
- ⓘ The site is rendered with JavaScript and gave no plan table to confirm limits.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Authentisign's current pricing could not be confirmed from its own site.

"

No free plan and no trial on record anywhere on its pages.

From our grade for free plan and trial

We could not confirm Authentisign's current prices from its own site, so this guide lists no plans. authentisign.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

Real estate e-signatures from Lone Wolf Technologies. Here is what it does, as its own site describes it, and what it covers: templates, workflow automation, documents.

> **Automatic field placement, tracking, certificate and team permissions.**

From our grade for features

Automatic field placement

Signature blocks are placed automatically and fields are pre-filled to reduce errors when preparing a document.

Signing on any device

Clients follow an invitation link and are walked through signing; the vendor says documents can be prepared, sent and signed from a phone.

Tracking and certificate

Reminders, progress tracking and a signing certificate show when a document was signed, by whom and where, with an audit trail on every transaction.

Lone Wolf Transactions link

It is built into Lone Wolf Transactions, the zipForm and TransactionDesk editions, so documents move from a deal file to signing.

Team permissions

Teams and brokers can share documents, assign permissions and reuse workflows for high volumes.

File types and languages

PDF, Word, Excel and common image formats are supported, with full functionality in English, French and Spanish.

Where it stands

Its grades against its category, and whether to keep it or make your own

0/78

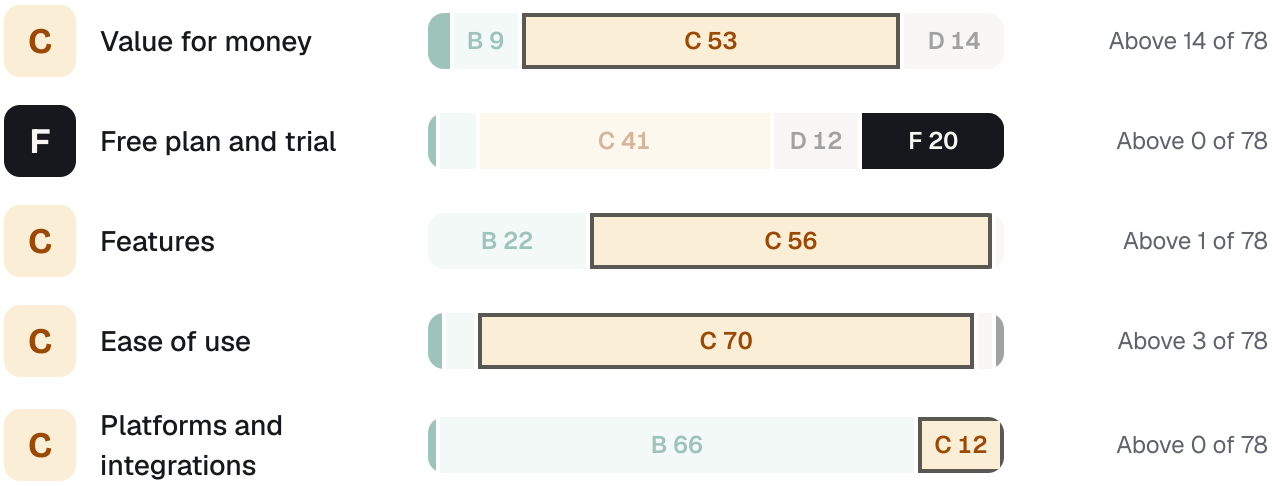

Other e-signature and proposal tools it is graded above

Authentisign's GPA of 1.6 is higher than 0 of the 78 other e-signature and proposal tools we grade, and level with 6.

It stands best on value for money (C, above 14 of 78) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 79 e-signature and proposal tools we grade, cut by the letter each got. Authentisign's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Authentisign you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 72 of the 78 other e-signature and proposal tools grade higher.

What you could make

- Templates and documents: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- What a company asks for before it lets staff use something: roles and permissions.

What this rests on. Authentisign's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

Where this guide comes from

The prices, plans, platforms and features were read from Authentisign's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Lone Wolf's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews. Its home page needed JavaScript and gave no readable text, so the pricing check rests on the listing.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Lone Wolf Technologies. Prices change, so check authentisign.com before you buy.
