Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 31 of the 168 other AI image and video generators we grade

Avatarify is an iPhone app that turns a still photo into a short animated clip. Faces can sing, talk and lip-sync to a chosen song or audio, and clips are shared to social apps. The app is free to download with subscriptions sold in-app.

To get you started, here are **9 things to know about Avatarify**, taken from its own pages and our grades.

> "
>
> **It is an app you install and start using with nothing to set up.**
>
> From our grade for ease of use

1 **Best for making photos sing or talk on an iPhone**

Avatarify animates a photo so it sings or talks, on iPhone only.

2 **Paid plans start at $10.79 a month**

As its pricing page puts it: $2.49 per week.

3 **You can try it first**

Some in-app subscription options include a 3-day trial.

4 **It runs on iOS**

iOS.

5 **Singing portraits**

A photo can be set to a chosen song.

6 **Talking photos**

Photos can lip-sync to recorded audio or a short video.

7 **Face animation**

The App Store listing describes realistic facial motion for portraits, pets and characters.

8 **A 2.0 GPA, above 31 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Avatarify you would be making a video model, which you can rent by the second but not make. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for making photos sing or talk on an iPhone

Avatarify animates a photo so it sings or talks, on iPhone only. The listing shows weekly prices from $2.49 to $5.49, a $3.99 monthly plan and a $34.99 yearly one, and which one you see depends on the offer the app shows.

TOOLGPA REPORT CARD

Avatarify

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	$3.99 a month and $34.99 a year are cheap against the category's $11.88 middle, but the weekly options at $2.49 to $5.49 come to far more a month.
Free plan and trial	D	Only some subscription options carry a 3-day trial, and there is no free plan. A 3-day trial is shorter than a week.
Features	D	One narrow function: animating a face in a photo to sing or talk, plus sharing.
Ease of use	B	No store rating is on record. It is an app you install and start using with nothing to set up.
Platforms and integrations	C	iPhone only. The site says it will email people when an Android app is ready.

Grade point average Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Avatarify is for

- ✓ Fits if you want to make a short singing or talking clip from a photo on an iPhone
- ✓ Works for people who will cancel before the 3-day trial ends

Who it is not for

- ✗ Skip it if you use Android, as there is no Android app yet
- ✗ Watch out: many subscription price points appear, so the price depends on the offer shown
- ✗ Pricey if the app shows a weekly plan, which can run $5.49 a week
- ✗ Too light for anything beyond animating a face from a photo

Good to know

Good for

- ✓ Making short novelty clips from photos on an iPhone
- ✓ Turning family photos into singing or talking portraits

Worth knowing

- ⓘ The App Store listing says the app is for iPhone only; the site says it will email people when an Android app is ready.
- ⓘ The listing shows many subscription price points, so the price depends on which offer the app presents.
- ⓘ Billing periods are inferred from the product names in the listing.

Where it stands

Its grades against its category, and whether to keep it or make your own

31/168

Other AI image and video generators it is graded above

Avatarify's GPA of 2.0 is higher than 31 of the 168 other AI image and video generators we grade, and level with 31.

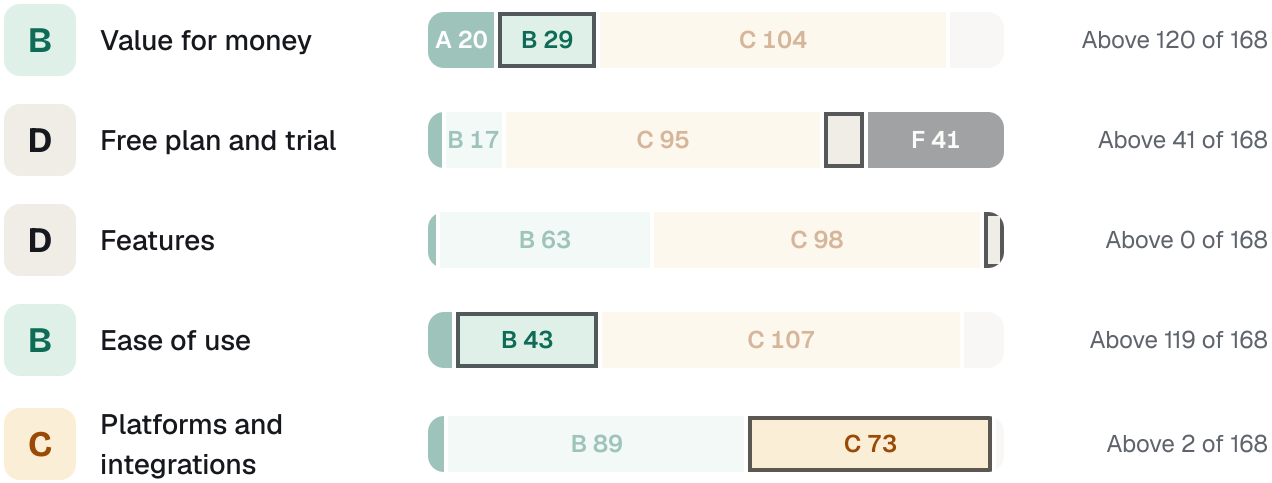

It stands best on value for money (B, above 120 of 168) and worst on features (D, above 0).

Its paid plans start at $10.79 a month, against a middle price of $11.88 for the category: 59 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 47 tools score higher and cost less.

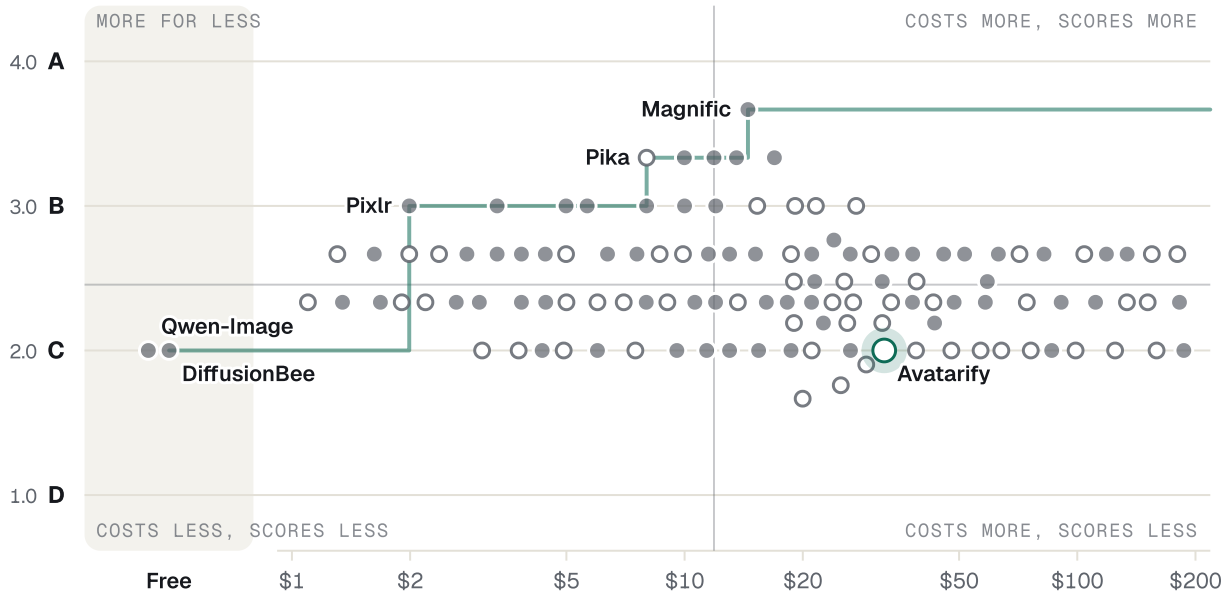

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Avatarify's own letter is outlined.

Price against what you get

Each dot is one of 123 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. Avatarify is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Avatarify you would be making a video model, which you can rent by the second but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 106 of the 168 other AI image and video generators grade higher. It costs $129.48 a year.

What you could not

- ✕ A video model, which you can rent by the second but not make.
- ✕ A real app for iOS. Something home-made would be a web page.

- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ Sharing with other people, which means accounts and invitations.

What this rests on. Avatarify's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
