07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from AVCLabs's own pages, its app-store listings and our grades. Every fact in it is on AVCLabs's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 63 of the 168 other AI image and video generators we grade

AVCLabs sells a family of AI media tools: desktop apps for Windows and Mac that upscale video and restore photos, a cloud video enhancer, a browser-based online editor with image and video generation, and an MCP service for AI agents. Each product is priced separately, mostly by subscription.

To get you started, here are **9 things to know about AVCLabs**, taken from its own pages and our grades.

> **The desktop apps install and run, but you choose between several products and models.**
>
> From our grade for ease of use

1 **Best for upscaling and restoring video and photos on a desktop**

The refund policy mentions a trial whose terms aren't stated.

2 **Paid plans start at $9.95 a month**

As its pricing page puts it: $9.95 per month (Video Enhancer Cloud).

3 **You can try it first**

Free trial version of the desktop software, per the refund policy; terms not stated.

4 **It runs on 3 platforms**

Web, Windows and macOS.

5 Video upscaling and enhancement

Video Enhancer AI upscales low-resolution video, reduces noise and blur, and restores faces, with 4K and 8K upscaling named on the site.

6 Photo enhancement and restoration

Photo Enhancer AI handles upscaling, denoising, colorizing and face restoration, and works on photos in batches.

7 Object, watermark and blur tools

Video Blur AI detects and blurs faces, plates and backgrounds; the online tools remove objects and watermarks from video and photos.

8 A 2.2 GPA, above 63 of 168

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace AVCLabs you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for upscaling and restoring video and photos on a desktop

AVCLabs sells separate AI tools: desktop apps for Windows and Mac that upscale video and restore photos, a cloud video enhancer, and a browser editor. Each product is priced on its own, from $9.95 for the cloud tool to $39.95 for the desktop video app. The refund policy mentions a trial whose terms aren't stated.

TOOLGPA REPORT CARD — **AVCLabs** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$9.95 a month for the cloud enhancer is about the middle of AI image tools, while the desktop video app is $39.95 and the photo app $19.95. Each is billed apart.
Free plan and trial	C	A free trial of the desktop software is mentioned in the refund policy, with no terms stated.
Features	C	Video and photo upscaling, restoration, object and blur tools, an online editor and MCP. Several tools are billed apart, and some showed no price.
Ease of use	C	No rating on record. The desktop apps install and run, but you choose between several products and models.
Platforms and integrations	B	Windows and Mac desktop apps, a web editor and an MCP service. No Linux build, no phone app.

Grade point average — Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who AVCLabs is for

- ✓ Fits if you restore old video or photos on a Windows or Mac computer
- ✓ Works for people who want video upscaling without renting a GPU

Who it is not for

- ✗ Pricey if you want both desktop apps: the bundle is $49.95 a month
- ✗ Watch out: each product is priced separately, and some showed no price
- ✗ Watch out: the refund policy is 5 days on subscriptions, 30 on the perpetual plan
- ✗ Skip it if you use Linux or a phone, as neither is listed

Good to know

Good for

- ✓ Upscaling or restoring old footage and family photos
- ✓ People who prefer desktop apps with batch processing
- ✓ Light users who want a low-cost cloud or browser option

Worth knowing

- ⓘ Products are priced separately; Video Blur AI, PhotoPro AI and Any Video Converter showed no price on the purchase page.
- ⓘ Only monthly prices were read; the refund policy also mentions one-year and perpetual plans whose prices were not shown.
- ⓘ The refund policy gives a 5-day money-back guarantee on one-month and one-year subscriptions and 30 days on the perpetual plan, with exclusions.
- ⓘ The desktop apps run on Windows and Mac only, with no Linux build listed.

PART 02 · PRICING

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$9.95

A month to start

AVCLabs is a paid product with a free trial, starting at $9.95 per month (Video Enhancer Cloud).

> **A free trial of the desktop software is mentioned in the refund policy, with no terms stated.**
>
> From our grade for free plan and trial

OTHER SAVINGS

Bundle saves $10 a month

The Video Enhancer AI plus Photo Enhancer AI bundle is $49.95 a month, against $39.95 and $19.95 bought separately.

Stated on avclabs.com

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: Web, macOS and Windows

AI video and photo enhancers for desktop, cloud and browser. Here is what it does, as its own site describes it, and what it covers: AI features, video editing, image generation, video generation.

> **Video and photo upscaling, restoration, object and blur tools, an online editor and MCP.**
>
> From our grade for features

Video upscaling and enhancement

Video Enhancer AI upscales low-resolution video, reduces noise and blur, and restores faces, with 4K and 8K upscaling named on the site.

Photo enhancement and restoration

Photo Enhancer AI handles upscaling, denoising, colorizing and face restoration, and works on photos in batches.

Object, watermark and blur tools

Video Blur AI detects and blurs faces, plates and backgrounds; the online tools remove objects and watermarks from video and photos.

Online image and video generation

The browser editor includes an AI image generator and an image-to-video generator that the site says uses Seedance 2.0.

MCP access for agents

AVCLabs Media MCP lets AI agents call the video enhancement and image segmentation tools.

Where it runs

Web · macOS · Windows

What it works with

MCP

AVCLabs is made by AVCLabs Inc.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

63/168

Other AI image and video generators it is graded above

AVCLabs's GPA of 2.2 is higher than 63 of the 168 other AI image and video generators we grade, and level with 42.

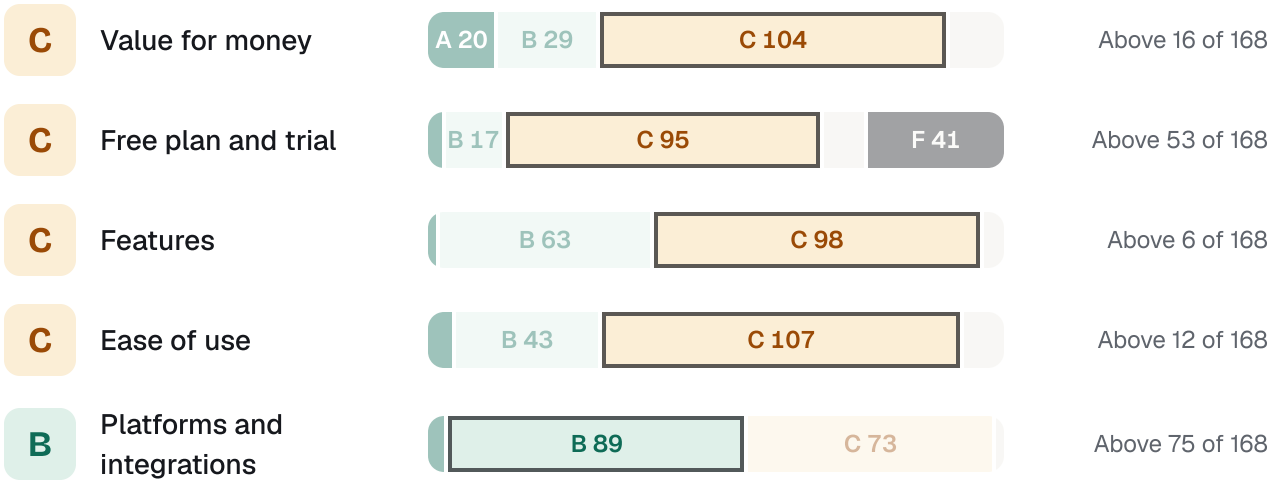

It stands best on platforms and integrations (B, above 75 of 168) and worst on features (C, above 6).

Its paid plans start at $9.95 a month, against a middle price of $11.88 for the category: 46 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 20 tools score higher and cost less.

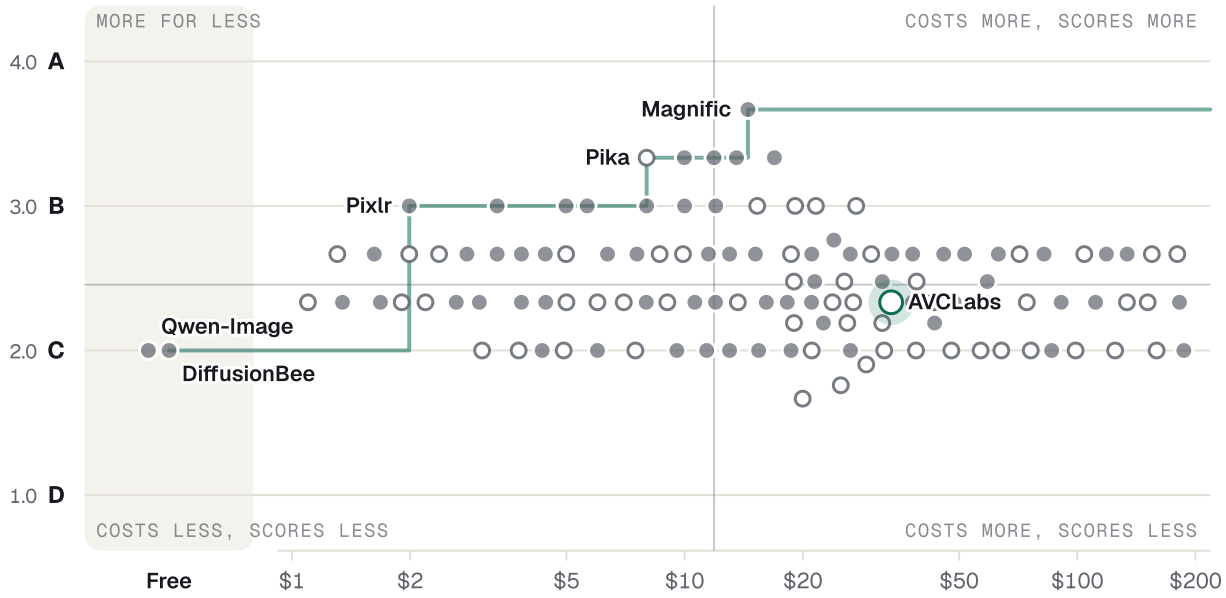

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. AVCLabs's own letter is outlined.

Price against what you get

Each dot is one of 123 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. AVCLabs is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace AVCLabs you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

It costs $119.40 a year.

What you could not

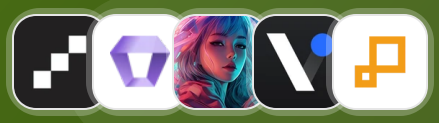

- ✕ An image model, which you can rent by the picture but not make.
- ✕ A video model, which you can rent by the second but not make.

- ✕ A video editor.
- ✕ A real app for macOS and Windows. Something home-made would be a web page.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. AVCLabs's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Topaz Labs, Aiarty, HitPaw, VanceAI and Pixop

The 5 tools AVCLabs is most often weighed against, with where each one differs from it.

2.0 GPA

Topaz Labs

From $19/mo

AI upscaling and enhancement apps for photos and video.

- Only Topaz Labs lists an iOS app.
- AVCLabs also covers video generation.

AVCLabs and Topaz Labs compared in full

2.6 GPA

Aiarty

Free trial · from $75 one-time

Desktop AI image enhancer, video enhancer and background matting.

- Only AVCLabs lists a web app.
- Aiarty can be bought with a one-time purchase.
- AVCLabs also covers image generation and video generation.

AVCLabs and Aiarty compared in full

2.0
GPA

HitPaw

Free plan · from $9.99

AI photo, video and audio tools online and on desktop.

- HitPaw has a free plan. AVCLabs does not, though it has a free trial.
- Only HitPaw lists iOS and Android apps.
- AVCLabs also covers video editing.

AVCLabs and HitPaw compared in full

2.4
GPA

VanceAI

Free trial · from $15/mo

Credit-based image and video enhancer with a Windows desktop app.

- Only AVCLabs lists a macOS app.
- AVCLabs also covers video editing, image generation and video generation.

AVCLabs and VanceAI compared in full

1.8
GPA

Pixop

Paid

ML video upscaling and restoration for broadcasters and archives.

- Only AVCLabs lists Windows and macOS apps.
- AVCLabs also covers image generation and video generation.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

13

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is AVCLabs free?

No, AVCLabs is a paid product, but you can try it first. Free trial version of the desktop software, per the refund policy; terms not stated.

How much does AVCLabs cost?

AVCLabs lists 5 plans. Video Enhancer Cloud: $9.95 per month.

What platforms does AVCLabs work on?

AVCLabs is available on Web, Windows and macOS.

Does AVCLabs offer any discounts?

AVCLabs publicly lists the following: Bundle saves $10 a month.

Does AVCLabs have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. AVCLabs is listed for Web, Windows and macOS.

Does AVCLabs have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. AVCLabs is listed for Web, Windows and macOS.

Is AVCLabs open source?

AVCLabs is not described as open source on its own site, as read on Nov 13, 2026.

What does AVCLabs integrate with?

AVCLabs's listing names MCP. A listing names up to eight integrations, so it may connect to more.

Who makes AVCLabs?

AVCLabs is made by AVCLabs Inc.

What are the alternatives to AVCLabs?

The closest alternatives to AVCLabs in our directory are Topaz Labs, Aiarty, HitPaw, VanceAI and Pixop.

How does AVCLabs compare with other AI image and video generators?

AVCLabs's GPA of 2.2 is higher than 63 of the 168 other AI image and video generators we grade, and level with 42.

Is AVCLabs good value for money?

ToolGPA grades AVCLabs C for value for money. Its paid plans start at $9.95 a month, against a middle price of $11.88 for the category: 46 of the 120 others that charge start lower.

Could I make my own version of AVCLabs?

To replace AVCLabs you would be making an image model, which you can rent by the picture but not make.

Where this guide comes from

The prices, plans, platforms and features were read from AVCLabs's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from AVCLabs's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by AVCLabs Inc. Prices change, so check avclabs.com before you buy.
