Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 1 of the 134 other automation tools we grade

Axway sells enterprise integration software covering API management, managed file transfer, and B2B or EDI integration, with some specialized products for healthcare and finance. Products can run self-managed on premises or in the cloud, or as services Axway operates. It is part of 74Software. Pricing is by subscription package and quote.

To get you started, here are **7 things to know about Axway**, taken from its own pages and our grades.

> **But no dollar prices are published, nothing is free, and it is a portfolio of products rather than one tool.**
>
> From our report card of Axway

1 **Best for enterprise file transfer, API and EDI integration**

Axway sells enterprise software for file transfer, APIs and EDI.

2 **It runs on Web**

Web.

3 Managed file transfer

SecureTransport, Transfer CFT and cloud MFT services move business files between partners and systems, with Automator for orchestrating transfer workflows.

4 B2B and EDI integration

B2Bi, a cloud B2B service, a business network and a web EDI supplier portal handle partner communication and EDI processes.

5 API management

The Amplify platform includes API management to secure and govern APIs across internal, partner and third-party use.

6 A 1.6 GPA, above 1 of 134

That is against the other automation tools we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Axway you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for enterprise file transfer, API and EDI integration

Axway sells enterprise software for file transfer, APIs and EDI. But no dollar prices are published, nothing is free, and it is a portfolio of products rather than one tool.

TOOLGPA REPORT CARD	Axway	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No dollar price is published. The pricing page lists tiers by product and sends you to a quote form.
Free plan and trial	F	No free plan and no trial on the pages read.
Features	C	Managed file transfer, B2B and EDI, and API management. It covers a broad enterprise job, but the package depends on the product line bought.
Ease of use	C	No store rating on record. Enterprise products need setup and learning.
Platforms and integrations	C	Web, and the products run on premises or in the cloud. No integrations list or app on record.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Axway is for

- ✓ Fits if you run file transfer or EDI for a larger company
- ✓ Works for IT teams that buy by quote

Who it is not for

- ✗ Skip it if you want a price on the page, as there are none in dollars
- ✗ Not for you if you are an individual or small team
- ✗ Watch out: the right package depends on which product line you buy
- ✗ Watch out: nothing is free and no trial is listed

Good to know

Good for

- ✓ Large organizations exchanging files and EDI documents with partners
- ✓ Regulated industries such as healthcare and finance

Worth knowing

- ⓘ No dollar prices are published; the pricing page lists subscription tiers by product and sends buyers to a quote form.
- ⓘ A broad product portfolio, not one tool; the right package depends on which product line is bought.
- ⓘ Aimed at enterprise IT teams rather than individuals or small teams.

What it costs

From our grade for features

Managed file transfer

SecureTransport, Transfer CFT and cloud MFT services move business files between partners and systems, with Automator for orchestrating transfer workflows.

B2B and EDI integration

B2Bi, a cloud B2B service, a business network and a web EDI supplier portal handle partner communication and EDI processes.

API management

The Amplify platform includes API management to secure and govern APIs across internal, partner and third-party use.

AI control plane

An AI gateway is described as controlling how agents, models and applications reach enterprise services and sensitive data.

Integration Fabric

Connects applications, data, files and events and orchestrates workflows across hybrid environments.

Managed cloud services

Several products can be run in Axway-operated cloud environments, with the vendor handling deployment, upgrades and monitoring.

Where it stands

Its grades against its category, and whether to keep it or make your own

1/134

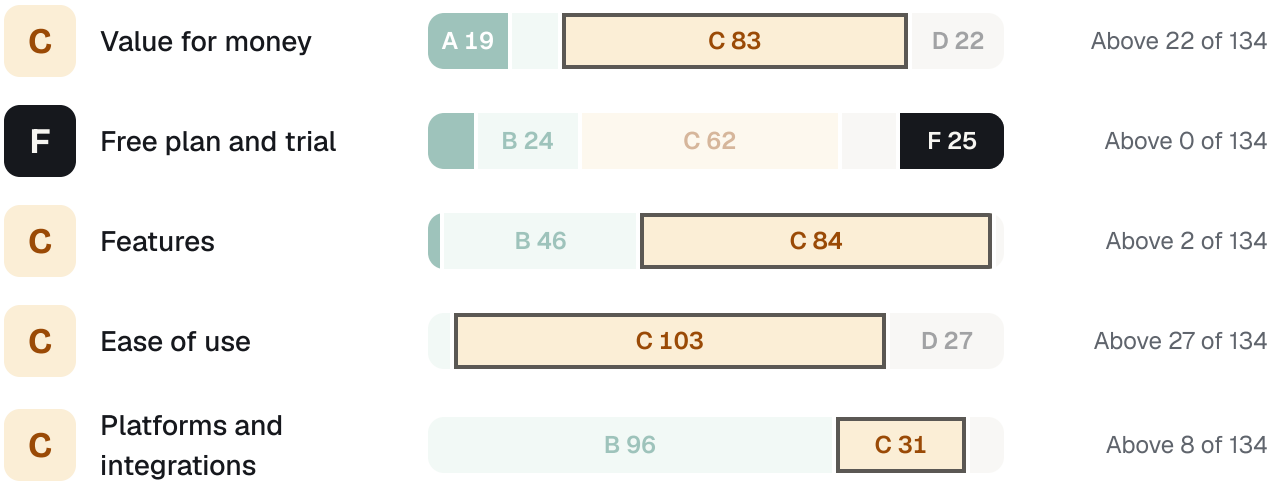

Other automation tools it is graded above

Axway's GPA of 1.6 is higher than 1 of the 134 other automation tools we grade, and level with 8.

It stands best on ease of use (C, above 27 of 134) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 135 automation tools we grade, cut by the letter each got. Axway's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Axway you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 125 of the 134 other automation tools grade higher.

What you could not

- ✕ Connections to other products, each kept working as those products change.
- ✕ Storing and serving files for other people.

What this rests on. Axway's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
