16/104

Other website and landing page builders it is graded above

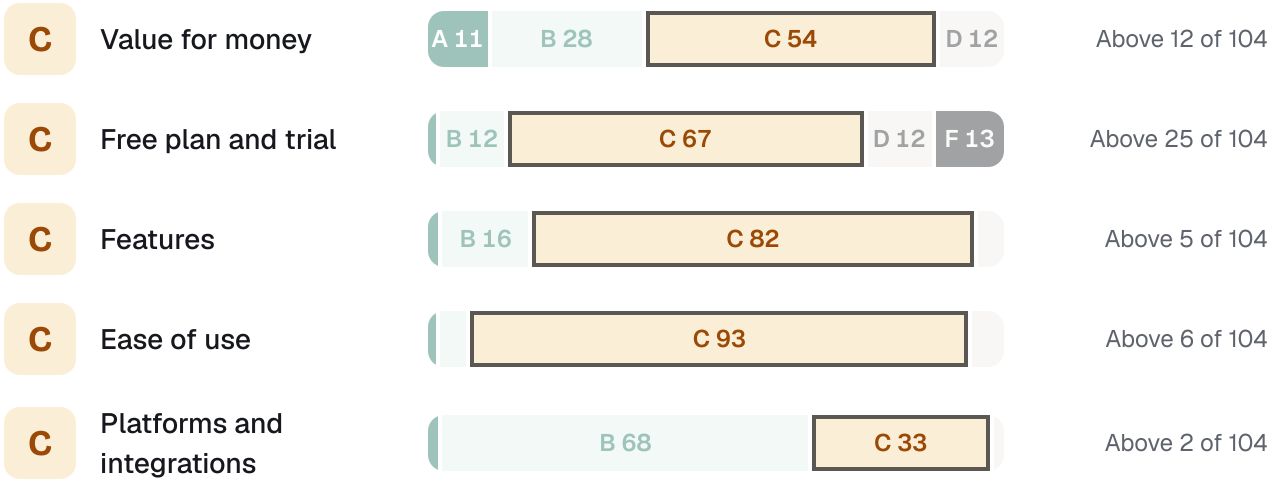

Bandzoogle's GPA of 2.0 is higher than 16 of the 104 other website and landing page builders we grade, and level with 23.

Its paid plans start at $6.37 a month, against a middle price of $11.50 for the category: 21 of the 89 others that charge start lower.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Bandzoogle you would be making checkout, card payments and sales tax handled for you. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 65 of the 104 other website and landing page builders grade higher. It costs $76.44 a year.

What you could make

- Digital downloads and templates: an app builder makes these well.

What you could not

- Checkout, card payments and sales tax handled for you.
- Printers that make and ship each order.
- Selling tickets and checking them at the door.

What this rests on. Bandzoogle's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
