Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 1 of the 60 other therapy and clinic software we grade

Benchmark Solutions, a division of Harris, sells cloud-based EHR and practice management software plus revenue cycle services to independent medical practices and medical billing companies. It lists speech and hearing among its customers, but the product is a general medical suite. Prices are not published.

To get you started, here are **7 things to know about Benchmark Systems**, taken from its own pages and our grades.

> **It is a general medical suite rather than a therapy product, and it publishes no price and no trial.**
>
> From our report card of Benchmark Systems

1 **Best for EHR and billing for independent practices**

Benchmark Systems sells cloud EHR, practice management and revenue cycle services for independent practices.

2 **It runs on Web**

Web.

3 **Practice management**

Patient scheduling, medical billing, coding, clinical documentation and accounting sit in one platform.

4 **Cloud EHR**

A HIPAA-compliant electronic health record with provider and patient portals, secure messaging and connections to pharmacies and labs.

5 **Built-in AI**

BenchmarkAI works inside the EHR to draft clinical documentation and cut routine administrative steps.

6 **A 1.6 GPA, above 1 of 60**

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Benchmark Systems you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

TOOLGPA REPORT CARD

Benchmark Systems

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; a demo request is the way to a quote, so it sits in the middle.
Free plan and trial	F	No free plan and no self-serve trial is advertised.
Features	C	EHR, practice management, built-in AI and revenue cycle management. The listing says it is not built for therapy practices.
Ease of use	C	Bought through a demo and set up with the vendor; no store rating on record.
Platforms and integrations	C	Web only on the listing, with no integrations named.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Benchmark Systems is for

- ✓ Fits if you run a small medical practice and want EHR and billing from one vendor
- ✓ Works for practices that also want outsourced revenue cycle management

Who it is not for

- ✗ Skip it if you want to see a price before booking a demo
- ✗ Not for you if you want a product built for therapy, as this is a general medical suite
- ✗ Tight if you want a free plan or trial, as neither is advertised
- ✗ Watch out: IT services and AI are listed as parts of the offer, with nothing said on what they cost

Good to know

Good for

- ✓ Independent practices that want EHR, practice management and billing from one vendor
- ✓ Medical billing companies that need a practice management system
- ✓ Practices that want to hand claims work to an outside billing team

Worth knowing

- ⓘ No prices are published; a demo request is the way to get a quote.
- ⓘ No free plan or self-serve trial is advertised.
- ⓘ It is a general medical suite rather than a product built for therapy practices.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Benchmark Systems's current pricing could not be confirmed from its own site.

> **No price is published; a demo request is the way to a quote, so it sits in the middle.**

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Cloud EHR, practice management and billing for independent practices. Here is what it does, as its own site describes it, and what it covers: AI features, clinical notes, insurance billing.

"

EHR, practice management, built-in AI and revenue cycle management.

From our grade for features

Practice management

Patient scheduling, medical billing, coding, clinical documentation and accounting sit in one platform.

Cloud EHR

A HIPAA-compliant electronic health record with provider and patient portals, secure messaging and connections to pharmacies and labs.

Built-in AI

BenchmarkAI works inside the EHR to draft clinical documentation and cut routine administrative steps.

Revenue cycle management

A billing service covers insurance verification, claim submission, denial follow-up and payment posting.

IT services

Benchmark ProTech sells hardware, IT support and managed services to practices.

Where it runs

What it works with

Its own pages name no integrations.

Benchmark Systems is made by Benchmark Solutions, a division of Harris.

Where it stands

Its grades against its category, and whether to keep it or make your own

1/60

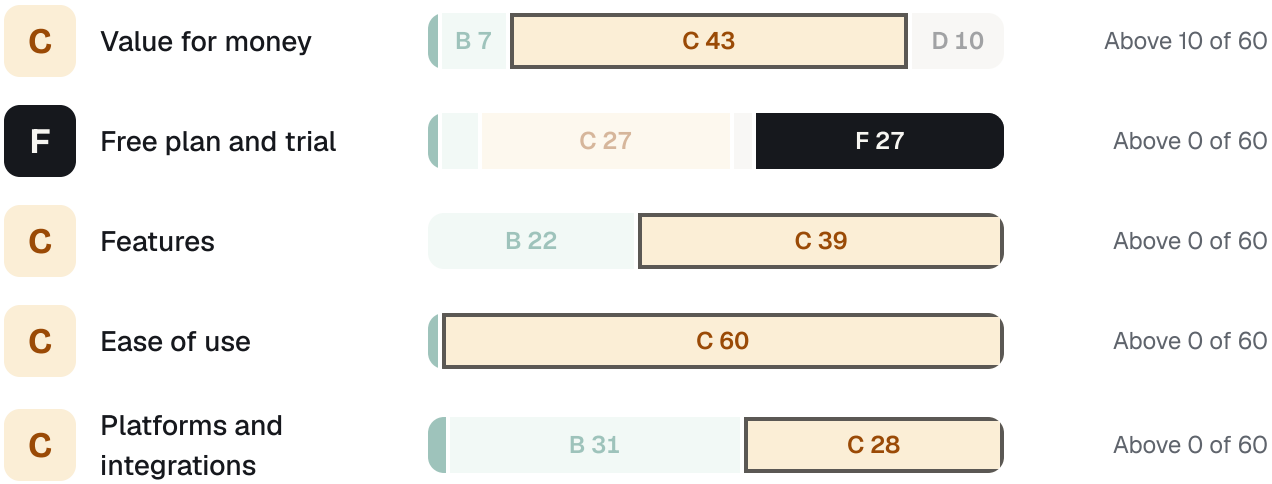

Other therapy and clinic software it is graded above

Benchmark Systems's GPA of 1.6 is higher than 1 of the 60 other therapy and clinic software we grade, and level with 13.

It stands best on value for money (C, above 10 of 60) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 61 therapy and clinic software we grade, cut by the letter each got. Benchmark Systems's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Benchmark Systems you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 46 of the 60 other therapy and clinic software grade higher.

What you could make

- Clinical notes: an app builder makes this well.

What you could not

- Insurance claims sent to payers through a clearinghouse.
- AI features, unless you pay a model provider for each request yourself.
- What a company asks for before it lets staff use something: HIPAA.

What this rests on. Benchmark Systems's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
