Where it stands

Its grades against its category, and whether to keep it or make your own

142/148

Other form and survey tools it is graded above

Bit Form's GPA of 3.0 is higher than 142 of the 148 other form and survey tools we grade, and level with 3.

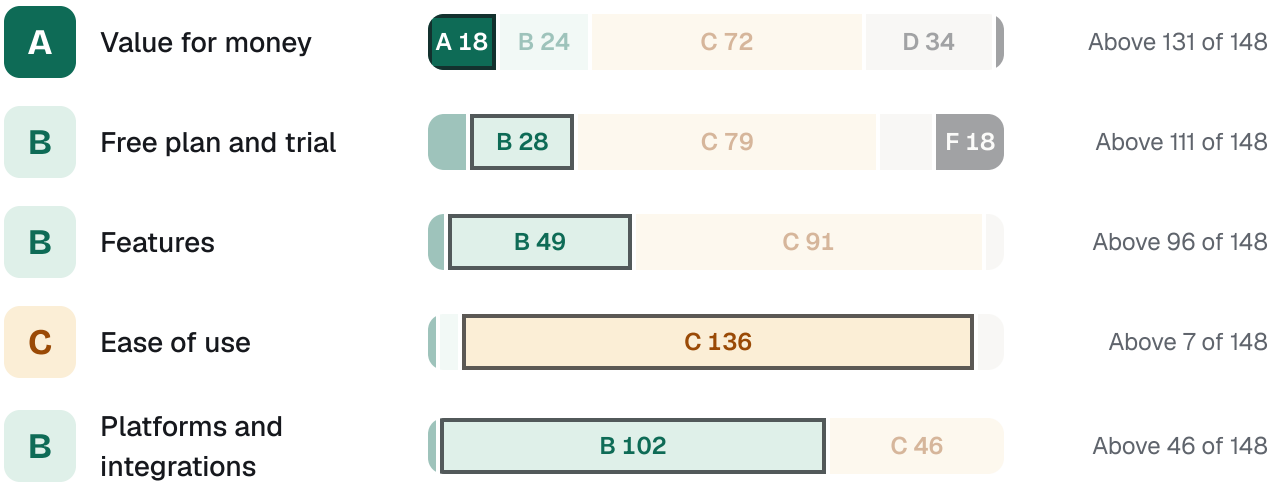

It stands best on value for money (A, above 131 of 148) and worst on ease of use (C, above 7).

Its paid plans start at $2.08 a month when paid by the year, against a middle price of $20 for the category: 0 of the 114 others that charge start lower.

On features, ease of use and platforms it scores 2.7 out of 4, and no tool on the category's chart scores higher without costing more.

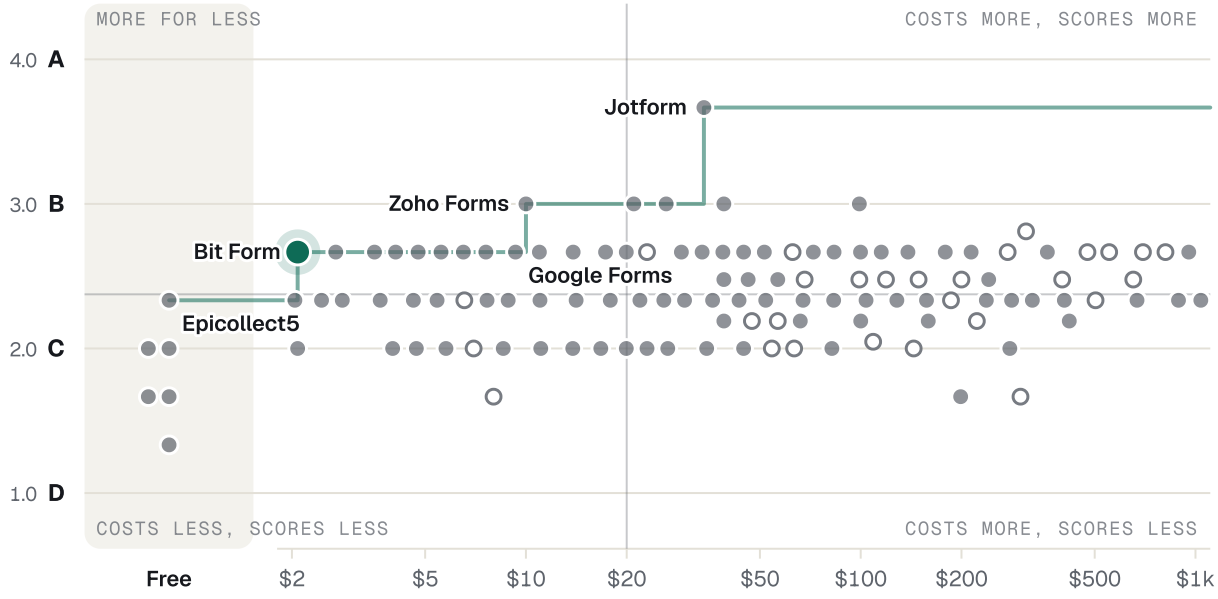

Each grade against the category

Every bar is all 149 form and survey tools we grade, cut by the letter each got. Bit Form's own letter is outlined.

Price against what you get

Each dot is one of 121 form and survey tools. Further left costs less; higher up scores better on features, ease of use and platforms. Bit Form is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Bit Form you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 3.0 is higher than 142 of the 148 other form and survey tools we grade. It costs $25 a year.

What you could make

- Forms and templates: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Bit Form's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
