PART 04 · STANDING

# Where it stands

Its grades against its category, and whether to keep it or make your own

**56/101**

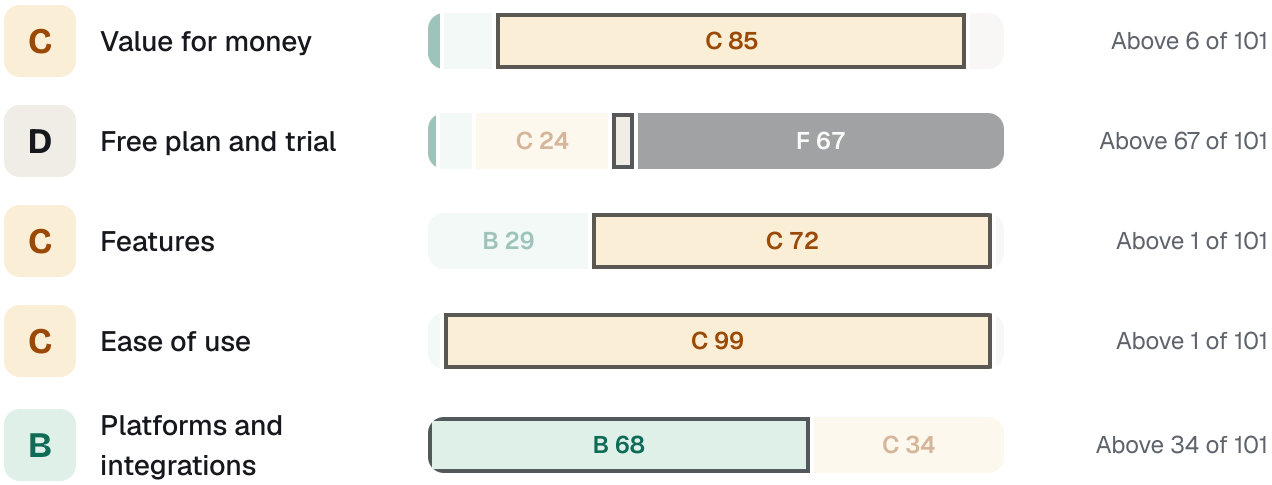

Other HR software it is graded above

Bizneo HR's GPA of 2.0 is higher than 56 of the 101 other HR software we grade, and level with 15.

It stands best on platforms and integrations (B, above 34 of 101) and worst on free plan and trial (D, above 67).

## Each grade against the category

Every bar is all 102 HR software we grade, cut by the letter each got. Bizneo HR's own letter is outlined.

## Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

## Keep it

The plain part of Bizneo HR you could make: time off, applicant tracking, employee records and reports. What surrounds it you could not. The 4 things listed below take a company, not a weekend.

### What you could make

- Time off, applicant tracking, employee records and reports: an app builder makes these well.

### What you could not

- Clocking in from a phone, checked against where and when.
- A rota the whole staff sees on their phones, with swaps and alerts.
- A real app for iOS and Android. Something home-made would be a web page.
- AI features, unless you pay a model provider for each request yourself.

**What this rests on.** Bizneo HR's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
