Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Blackpoint Cyber's own pages, its app-store listings and our grades. Every fact in it is on Blackpoint Cyber's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 6 of the 56 other antivirus apps we grade

Blackpoint Cyber runs the CompassOne platform and a 24/7/365 managed detection and response service sold mainly through MSP partners. It covers endpoint and cloud MDR, identity threat detection for Microsoft 365, Google Workspace and Cisco Duo, and application control. Prices are not published.

To get you started, here are **8 things to know about Blackpoint Cyber**, taken from its own pages and our grades.

> "
>
> **Supported operating systems are not listed.**
>
> From our report card of Blackpoint Cyber

1 **Best for MSPs that want 24/7 managed detection**

A free trial and a demo are offered but no prices or trial length.

2 **You can try it first**

Free trial offered; its length is not stated on the pages read

3 **It runs on Web**

Web.

4 **Endpoint MDR**

A 24/7/365 team of threat hunters and remediators responds to endpoint threats.

5 **Cloud MDR**

Monitoring and response for cloud environments within the CompassOne platform.

6 **Identity threat detection**

ITDR protects Microsoft 365, Google Workspace and Cisco Duo accounts from identity threats.

7 **A 1.8 GPA, above 6 of 56**

That is against the other antivirus apps we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Blackpoint Cyber you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for MSPs that want 24/7 managed detection

Blackpoint Cyber sells 24/7 managed detection and response, mainly through MSP partners. A free trial and a demo are offered but no prices or trial length. Supported operating systems are not listed.

TOOLGPA REPORT CARD	Blackpoint Cyber	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so there is nothing to set against this category's $2.58 to $6.50 a month; the listing says it is by quote. The site offers a demo and a trial instead.
Free plan and trial	D	A free trial is offered but its length is not stated on the pages read, so it earns a D.
Features	D	A managed detection service that watches your environment, so it needs endpoint tools beneath it to do the whole job.
Ease of use	C	Business product with a console and agents to roll out; no store rating is on record and the listing shows setup work, so it sits at the ordinary grade.
Platforms and integrations	B	A web console with Microsoft 365, Google Workspace and Cisco Duo integrations. No operating systems or phone apps are listed.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Blackpoint Cyber is for

- ✓ Fits if you are an MSP that wants managed detection for customers
- ✓ Works for teams on Microsoft 365 or Google Workspace

Who it is not for

- ✗ Not for you if you want a published price, as none is shown
- ✗ Skip it if you want to buy direct, since it is sold mainly through MSP partners
- ✗ Watch out: trial length is not stated on the pages read
- ✗ Watch out: supported operating systems are not listed

Good to know

Good for

- ✓ MSPs adding managed security to their service line
- ✓ Small IT teams that want a 24/7 SOC

Worth knowing

- ⓘ No prices are published; the site offers a demo and a free trial instead.
- ⓘ Sold mainly through MSP partners, as the site's partner pages show.
- ⓘ The pages read do not list supported operating systems.
- ⓘ The site names pricing as a comparison point against rivals but publishes no price list of its own.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Blackpoint Cyber's current pricing could not be confirmed from its own site.

> **The site offers a demo and a trial instead.**
>
> From our grade for value for money

We could not confirm Blackpoint Cyber’s current prices from its own site, so this guide lists no plans. blackpointcyber.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

24/7 managed detection and response for MSPs. Here is what it does, as its own site describes it, and what it covers: AI features, malware protection.

> **A managed detection service that watches your environment, so it needs endpoint tools beneath it to do the whole job.**
>
> From our grade for features

Endpoint MDR

A 24/7/365 team of threat hunters and remediators responds to endpoint threats.

Cloud MDR

Monitoring and response for cloud environments within the CompassOne platform.

Identity threat detection

ITDR protects Microsoft 365, Google Workspace and Cisco Duo accounts from identity threats.

Application control

Allow-listing style prevention offered alongside detection.

Partner program

Built for MSPs, with a multi-tenant platform for managing many clients.

Where it runs

What it works with

- Microsoft 365
- Google Workspace
- Cisco Duo

Blackpoint Cyber is made by Blackpoint Cyber.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

6/56

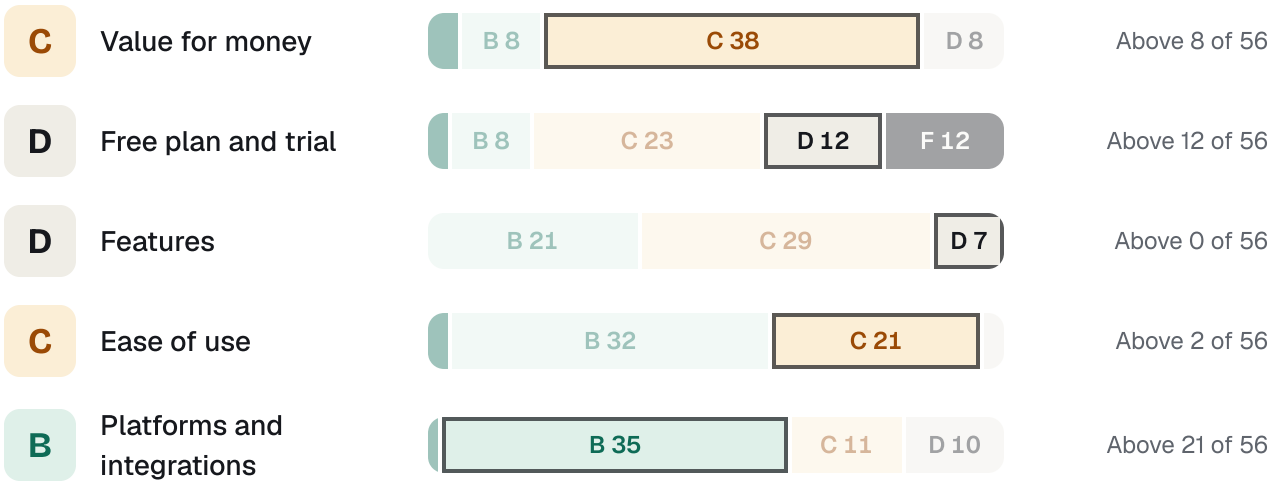

Other antivirus apps it is graded above

Blackpoint Cyber's GPA of 1.8 is higher than 6 of the 56 other antivirus apps we grade, and level with 7.

It stands best on platforms and integrations (B, above 21 of 56) and worst on features (D, above 0).

Each grade against the category

Every bar is all 57 antivirus apps we grade, cut by the letter each got. Blackpoint Cyber's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Blackpoint Cyber you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 43 of the 56 other antivirus apps grade higher.

What you could not

- ✕ An engine that recognises new malware as it appears.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Blackpoint Cyber's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Huntress, Arctic Wolf, ThreatLocker and Heimdal

The 4 tools Blackpoint Cyber is most often weighed against, with where each one differs from it.

2.0 GPA

Huntress

Free trial · from $8.99/mo

Managed endpoint detection and response with a 24/7 human SOC.

- Only Huntress lists Windows, macOS and Linux apps.
- Huntress also covers reports.

Blackpoint Cyber and Huntress compared in full

1.4 GPA

Arctic Wolf

Paid

Managed detection and response with a 24x7 security team.

Blackpoint Cyber and Arctic Wolf compared in full

1.8 GPA

ThreatLocker

Free trial

Zero trust endpoint control: allowlisting and ringfencing.

Blackpoint Cyber and ThreatLocker compared in full

2.0
GPA

Heimdal

Paid

Unified security platform with antivirus, DNS filtering and SOC.

- Heimdal also covers reports.
