Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 23 of the 89 other AI app builders we grade

Bravo Studio turns design files into native iOS and Android apps, either in its no-code visual builder or through Bravo MCP, a beta that builds from inside Claude, Cursor or ChatGPT and produces React Native code you own. A paid concierge service, Bravo To Go, builds the app for you.

To get you started, here are **9 things to know about Bravo Studio**, taken from its own pages and our grades.

>
> **No store rating on record, and you build and connect the design yourself.**
>
> From our grade for ease of use

1 **Best for turning Figma designs into native phone apps**

Bravo Studio turns a design into a native app, with a free Starter plan for phone preview and a Solo plan at $22 a month for store builds.

2 **Paid plans start at $22 a month**

As its pricing page puts it: $22 per month, billed monthly.

3 **There is a free plan**

Starter plan: free forever, with phone preview and basic API connections but no App Store builds.

4 **It runs on Web**

Web.

5 Design to native app

Designs become native iOS and Android apps, which can be previewed on a phone and built for the App Store and Google Play on Solo.

6 Bravo MCP (beta)

Build from inside Claude, Cursor or ChatGPT on your existing AI subscription, with no screen limit and React Native code you own. It is on every plan.

7 Integrations in Studio

Solo unlocks every integration, including Stripe, OAuth and Firebase; the free Starter plan has basic API connections only.

8 A 2.2 GPA, above 23 of 89

That is against the other AI app builders we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Bravo Studio you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for turning Figma designs into native phone apps

Bravo Studio turns a design into a native app, with a free Starter plan for phone preview and a Solo plan at $22 a month for store builds. Solo caps Studio apps at 30 screens, and several Studio features are still only listed as coming to its AI route.

TOOLGPA REPORT CARD — **Bravo Studio** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Solo is $22 a month, a little over the category's $20 middle. Bravo To Go is $999.
Free plan and trial	C	Starter is free forever with phone preview and basic API links, but no App Store builds. A free trial of Solo features is offered with no card.
Features	C	Design to native app, an MCP route in beta, integrations and imports. Stripe payments and push notifications are listed as coming to the MCP route, and Solo stops at 30 screens.
Ease of use	C	No store rating on record, and you build and connect the design yourself.
Platforms and integrations	B	Web, with seven integrations listed. Output is native apps, but no phone or desktop editor.

Grade point average — Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Bravo Studio is for

- ✓ Fits if you design in Figma and want a native app without code
- ✓ Works for small apps that fit inside 30 screens

Who it is not for

- ✕ Tight if you stay on Starter: no App Store builds
- ✕ Watch out: Solo caps Studio apps at 30 screens
- ✕ Watch out: Stripe payments and push notifications are listed as coming to Bravo MCP
- ✕ Watch out: the pricing page shows an annual option, but only monthly prices could be read
- ✕ Pricey if you want a service: Bravo To Go is $999

Good to know

Good for

- ✓ Designers who already have Figma designs and want a real app
- ✓ Founders who want a store-ready native app without hiring developers
- ✓ Teams that prefer building from an AI client such as Claude or Cursor

Worth knowing

- ⓘ The free Starter plan has no App Store builds; the store builds start on Solo.
- ⓘ Studio apps are capped at 30 screens on Solo, while the MCP route has no screen limit.
- ⓘ Several Studio features, such as Stripe payments and push notifications, are listed as coming to Bravo MCP.
- ⓘ The pricing page shows an annual option and a USD selector, but only monthly prices could be read.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

23/89

Other AI app builders it is graded above

Bravo Studio's GPA of 2.2 is higher than 23 of the 89 other AI app builders we grade, and level with 27.

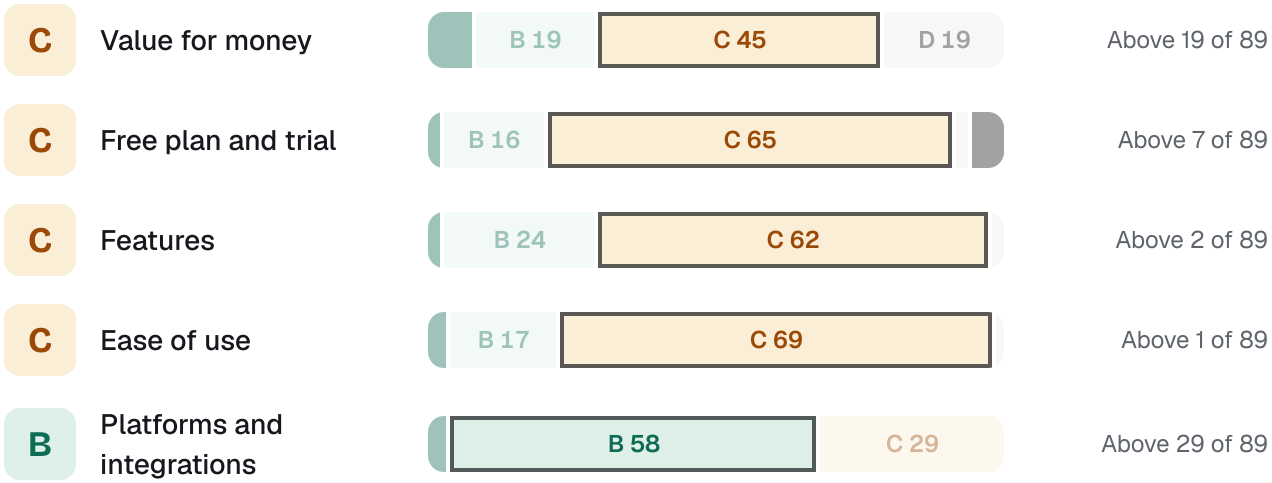

It stands best on platforms and integrations (B, above 29 of 89) and worst on ease of use (C, above 1).

Its paid plans start at $22 a month, against a middle price of $20 for the category: 53 of the 82 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 19 tools score higher and cost less.

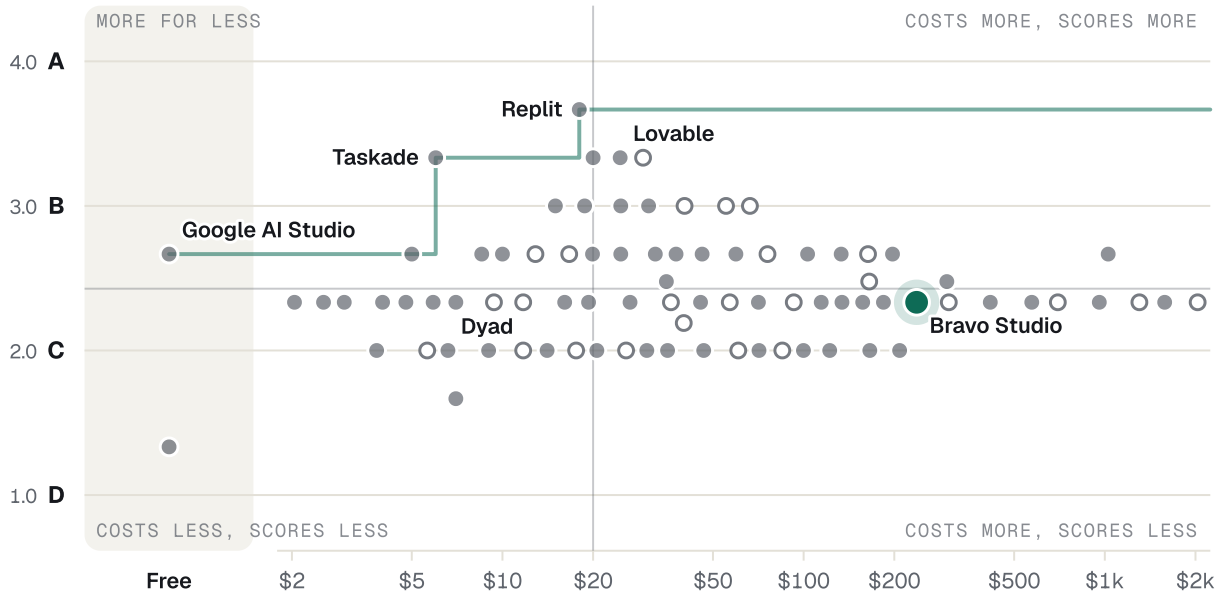

Each grade against the category

Every bar is all 90 AI app builders we grade, cut by the letter each got. Bravo Studio's own letter is outlined.

Price against what you get

Each dot is one of 85 AI app builders. Further left costs less; higher up scores better on features, ease of use and platforms. Bravo Studio is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Bravo Studio you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 39 of the 89 other AI app builders grade higher. It costs $264 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- A tool that builds and hosts other apps.

- A builder that other people can use without writing code.
- It plugs into other products, Figma, Claude and Cursor among them.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Bravo Studio's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
