Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 12 of the 85 other salon, spa and studio booking apps we grade

bsport is management software for boutique fitness studios such as yoga, Pilates, cycling, barre, boxing and dance, including multi-location brands. It handles class booking, memberships, online payments, staff and payroll, email and SMS marketing and a branded member app. Plans are tiered, and prices are given by quote after a demo.

To get you started, here are **7 things to know about bsport**, taken from its own pages and our grades.

> **Every tier is a quote after a demo, there's no free plan or standard trial, and some outside integrations cost extra.**
>
> From our report card of bsport

3 Class scheduling and booking

Unlimited bookings with a website booking widget, plus Choose Your Spot and automated instructor substitution on the higher tiers.

4 Payments and memberships

Online payments and flexible memberships, with fast payouts listed from the Engage tier up.

5 Marketing tools

A marketing suite with an AI-assisted email builder in every tier, SMS and push notifications from Build, and behavior-based Audience tools from Elevate.

6 A 1.8 GPA, above 12 of 85

That is against the other salon, spa and studio booking apps we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace bsport you would be making texts to thousands of numbers, registered with the carriers. That is not a weekend's work, with an AI app builder or without one.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

12/85

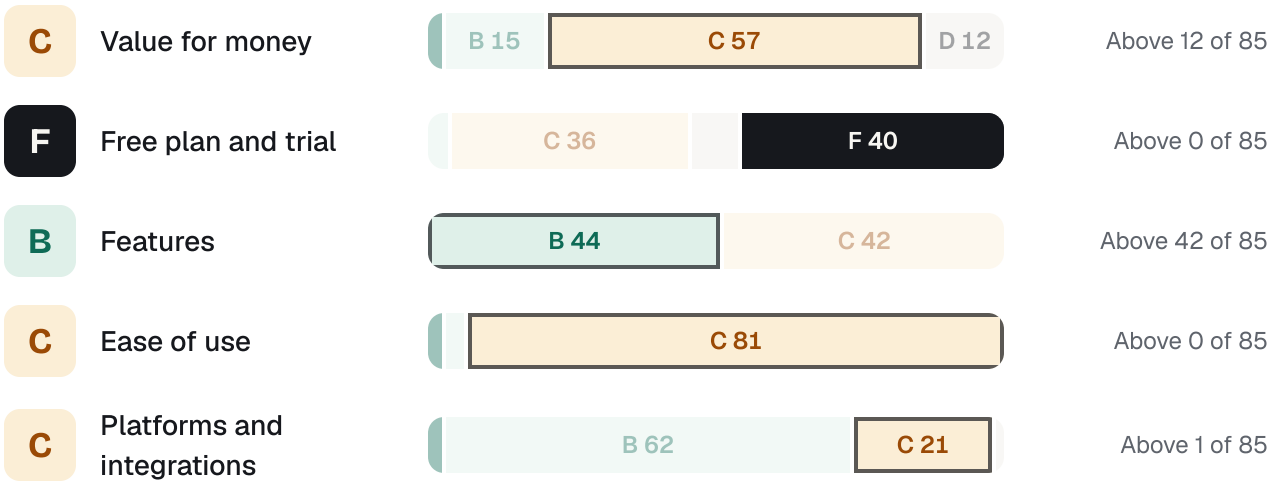

Other salon, spa and studio booking apps it is graded above

bsport's GPA of 1.8 is higher than 12 of the 85 other salon, spa and studio booking apps we grade, and level with 19.

It stands best on features (B, above 42 of 85) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 86 salon, spa and studio booking apps we grade, cut by the letter each got. bsport's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace bsport you would be making texts to thousands of numbers, registered with the carriers. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 54 of the 85 other salon, spa and studio booking apps grade higher.

What you could make

- Class booking, appointment booking and reports: an app builder makes these well.

What you could not

- Texts to thousands of numbers, registered with the carriers.
- Email sent in volume that still reaches the inbox.
- Hooks into the device itself: widgets.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. bsport's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
