07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Bunny Stream's own pages, its app-store listings and our grades. Every fact in it is on Bunny Stream's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 66 of the 133 other screen recording and video tools we grade

Bunny Stream is a video hosting and delivery service from bunny.net that handles upload, transcoding, storage and playback through a web video manager or an API. It includes a customizable player and charges for storage and traffic only, with no separate encoding fee.

To get you started, here are **9 things to know about Bunny Stream**, taken from its own pages and our grades.

> "
>
> **You work in a web video manager or the API and wire the player into your own site.**
>
> From our grade for ease of use

1 **Best for paying only for the video you store and stream**

There is no free plan, multi-DRM and some AI tools are priced elsewhere, and it is a dashboard and API, not an app.

2 **Paid plans start at $1 a month**

As its pricing page puts it: $1 per month minimum, plus usage.

3 **You can try it first**

14-day free trial, no credit card required

4 **It runs on Web**

Web.

5 **Upload and transcoding**

Upload through the API or the web video manager; videos are transcoded into several resolutions with no transcoding fee.

6 **Replicated storage**

Choose up to 8 storage regions to balance speed and cost, with files replicated across the network and served through a global load balancer.

7 **Customizable player**

The included player lets you change controls, colors and language or apply your own CSS, and you can use a third-party player instead.

8 **A 2.4 GPA, above 66 of 133**

That is against the other screen recording and video tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

Nothing Bunny Stream does is plain enough to make in a weekend. The 3 things listed below take a company.

The report card

Best for paying only for the video you store and stream

Bunny Stream hosts and delivers video with a built-in player and no encoding fee, billed by storage and traffic with a $1 monthly minimum. There is no free

plan, multi-DRM and some AI tools are priced elsewhere, and it is a dashboard and API, not an app.

TOOLGPA REPORT CARD	Bunny Stream	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	A	$1 a month minimum, then storage from $0.01 per GB and delivery from $0.005 per GB. That starts well under the $5 mark for the cheapest tools, though the bill grows with your traffic.
Free plan and trial	C	14-day free trial, no card needed, and no free plan after it.
Features	C	Upload, transcoding, a customisable player, hotlink and token protection and AI captions. Multi-DRM, Premium Encoding and Transcribe AI are separate products with prices not on this page.
Ease of use	C	No store rating on record. You work in a web video manager or the API and wire the player into your own site.
Platforms and integrations	C	Web dashboard and API only. No desktop or phone apps and no integrations list.
Grade point average		Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Bunny Stream is for

- ✓ Fits if you host video on your own site and want pay-as-you-use pricing
- ✓ Works for developers who upload through an API

Who it is not for

- ✕ Skip it if you want a free plan, because it has only a 14-day trial
- ✕ Tight if you need DRM or premium encoding: they are priced separately
- ✕ Not for you if you want a finished marketing video tool, as this is hosting and a player
- ✕ Watch out: the bill moves with storage and traffic, so a viral video raises it

Good to know

Good for

- ✓ Developers adding video playback to a site or app through an API
- ✓ Sites that want to pay for storage and traffic only
- ✓ Teams that need to restrict where and how videos are played

Worth knowing

- ⓘ Billing is usage-based: the page shows a $1 monthly minimum, then per-GB storage and traffic prices.
- ⓘ Multi-DRM, Premium Encoding and Transcribe AI are listed as separate products and their prices are not on the Stream pricing page.
- ⓘ There is no separate free plan; the page offers a 14-day trial.
- ⓘ A web dashboard and API only; the page lists no desktop or mobile apps.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$1
A month to start

Bunny Stream is a paid product with a free trial, starting at $1 per month minimum, plus usage.

PAY AS YOU GO

$1

per month minimum, plus storage and traffic used

Storage from $0.01/GB and delivery from $0.005/GB. Encoding, the player and security features carry no extra fee.

Trying it first

14-day free trial, no credit card required

Read from bunny.net on Nov 13, 2026.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Pay-as-you-go video hosting, encoding and delivery. Here is what it does, as its own site describes it, and what it covers: public API, AI features, transcription.

> **Upload, transcoding, a customisable player, hotlink and token protection and AI captions.**
>
> From our grade for features

Upload and transcoding

Upload through the API or the web video manager; videos are transcoded into several resolutions with no transcoding fee.

Replicated storage

Choose up to 8 storage regions to balance speed and cost, with files replicated across the network and served through a global load balancer.

Customizable player

The included player lets you change controls, colors and language or apply your own CSS, and you can use a third-party player instead.

Content protection

Hotlinking protection, token authentication and watermarking are listed, and an enterprise multi-DRM option targets downloads and screen recording.

AI captions and tagging

Transcribe AI generates captions, and the feature list also names AI content tagging.

Where it runs

Web

What it works with

Its own pages name no integrations.

Bunny Stream is made by bunny.net, and has been around since 2014.

Where it stands

Its grades against its category, and whether to keep it or make your own

66/133

Other screen recording and video tools it is graded above

Bunny Stream's GPA of 2.4 is higher than 66 of the 133 other screen recording and video tools we grade, and level with 22.

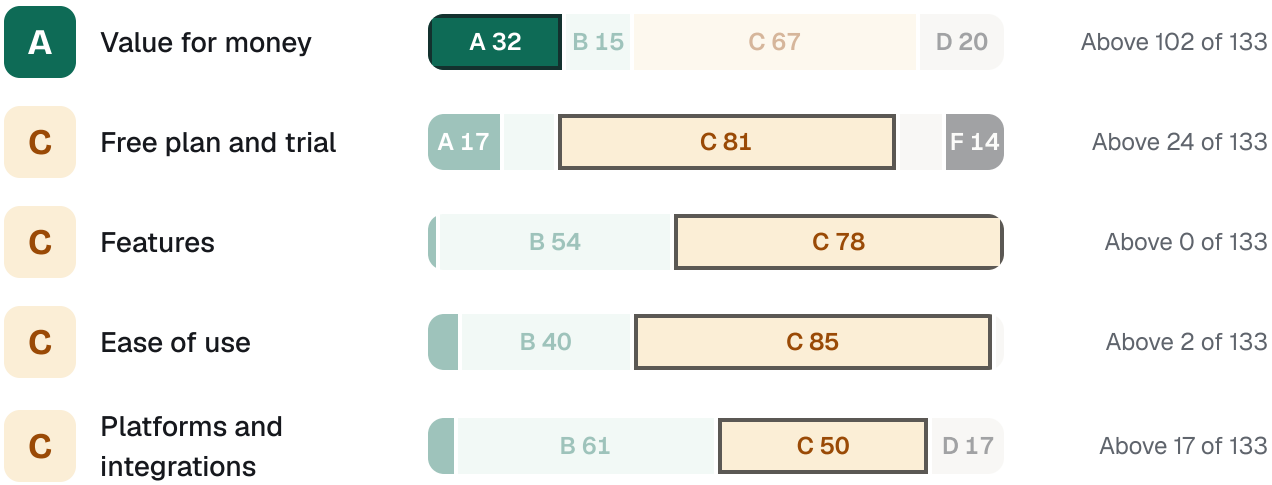

It stands best on value for money (A, above 102 of 133) and worst on features (C, above 0).

Its paid plans start at $1 a month, against a middle price of $12.25 for the category: 0 of the 88 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 5 tools score higher and cost less.

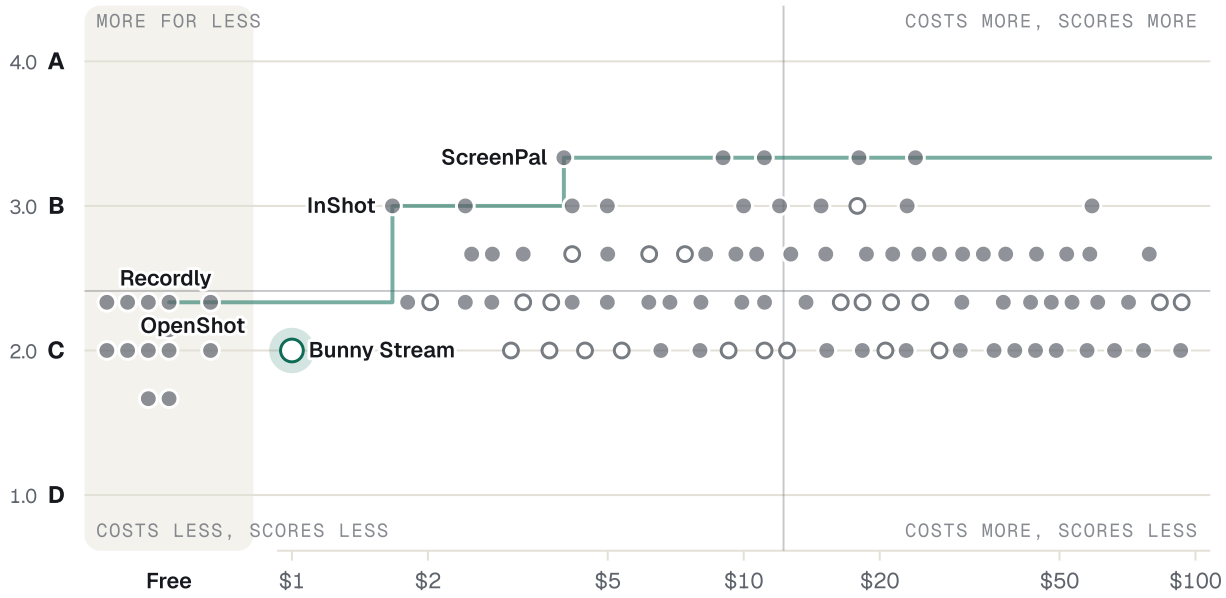

Each grade against the category

Every bar is all 134 screen recording and video tools we grade, cut by the letter each got. Bunny Stream's own letter is outlined.

Price against what you get

Each dot is one of 102 screen recording and video tools. Further left costs less; higher up scores better on features, ease of use and platforms. Bunny Stream is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Nothing Bunny Stream does is plain enough to make in a weekend. The 3 things listed below take a company.

It costs $12 a year.

What you could not

- ✕ Speech turned into text you can trust.
- ✕ An API that other software can build on.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Bunny Stream's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Mux, api.video, Vimeo, Wistia and JWX (JW Player)

The 5 tools Bunny Stream is most often weighed against, with where each one differs from it.

2.2 GPA

Mux

Free plan · from $20/mo

Video API for storing, streaming and analyzing video in apps.

- Mux has a free plan. Bunny Stream does not, though it has a free trial.
- Mux also covers web analytics.

Bunny Stream and Mux compared in full

2.0 GPA

api.video

Free plan

Video hosting, live streaming and analytics API for developers.

- api.video has a free plan. Bunny Stream does not, though it has a free trial.
- api.video also covers multistreaming.

Bunny Stream and api.video compared in full

Vimeo

2.6 GPA

Free plan · from $12/mo

Ad-free video hosting with a customizable player and review tools.

- Vimeo has a free plan. Bunny Stream does not, though it has a free trial.
- Only Vimeo lists macOS, iOS and Android apps.
- Vimeo also covers templates, screen recording and video editing.

Bunny Stream and Vimeo compared in full

Wistia

2.4 GPA

Free plan · from $79/mo

Video hosting, recording and webinars for marketing teams.

- Wistia has a free plan. Bunny Stream does not, though it has a free trial.
- Wistia also covers noise cancellation, screen recording and video editing.

Bunny Stream and Wistia compared in full

JWX (JW Player)

1.8 GPA

Paid

Video streaming, delivery and ad monetization platform.

- Bunny Stream also covers transcription.

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
