07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from CentralReach's own pages, its app-store listings and our grades. Every fact in it is on CentralReach's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 15 of the 60 other therapy and clinic software we grade

CentralReach is a platform for applied behavior analysis (ABA), multidisciplinary therapy practices and PreK-12 special education. It combines an EMR, practice management, scheduling, mobile data collection, billing and AI note and claim tools. Prices are not published.

To get you started, here are **7 things to know about CentralReach**, taken from its own pages and our grades.

> **No store rating on record, and a platform this size comes with a demo, set-up and training before anyone is productive.**
>
> From our grade for ease of use

1 **Best for ABA practices wanting notes and billing together**

CentralReach covers records, scheduling, session notes and billing for ABA and similar care in one platform.

2 **It runs on 3 platforms**

Web, iOS and Android.

3 **EMR and practice management**

Client records, data collection and operations in one system, with reporting and analytics.

4 **AI scheduling**

ScheduleAI drafts and adjusts ABA schedules and shows authorized hours to avoid over- or under-use.

5 **Session notes**

CR Mobile collects trials and observations in session, and NoteDraftAI turns them into a structured draft note.

6 **A 1.8 GPA, above 15 of 60**

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace CentralReach you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

CentralReach at a glance

PRICING Paid	FREE PLAN No
FREE TRIAL None stated	RUNS ON Web, iOS, Android
MADE BY CentralReach, LLC	CATEGORY Therapy & Clinic Software
OUR GRADE 1.8 GPA, weak	

The report card

Best for ABA practices wanting notes and billing together

CentralReach covers records, scheduling, session notes and billing for ABA and similar care in one platform. No price is published, nothing is free, and it

is built around ABA rather than general talk therapy, so a small practice has to book a demo just to learn the cost.

TOOLGPA REPORT CARD **CentralReach** Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; every product goes through a demo, so it sits in the middle for want of a figure to compare.
Free plan and trial	F	No free plan and no trial on record, only a demo request.
Features	C	EMR, scheduling, mobile data collection and billing, but the AI note, scheduling and claim tools are listed as separate products and it is built for ABA and IDD care, not general therapy.
Ease of use	C	No store rating on record, and a platform this size comes with a demo, set-up and training before anyone is productive.
Platforms and integrations	B	Web plus iOS and Android, with a short list of integrations such as Nuvei and LeadSquared. No desktop app.

Grade point average Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who CentralReach is for

- ✓ Fits if you run an ABA practice and want scheduling, session notes and billing under one roof
- ✓ Works for multidisciplinary therapy providers or schools collecting special education data

Who it is not for

- ✕ Skip it if you want to see a price before talking to anyone, as every product is reached through a demo
- ✕ Not for you if you run general talk therapy, as the platform is built around ABA and IDD care
- ✕ Watch out: the AI scheduling, note and claim tools are listed as separate products, so what a quote includes isn't stated
- ✕ Tight if you are a solo clinician, as nothing here is free and there is no trial on record

Good to know

Good for

- ✓ ABA organizations that want scheduling, notes and billing in one system
- ✓ Multidisciplinary therapy providers such as speech and occupational therapy
- ✓ Schools running special education data collection

Worth knowing

- ⓘ No prices are published; every product is reached through a demo or consultation.
- ⓘ The AI note, scheduling and claim tools are listed as separate products, so what a given quote includes is not stated.
- ⓘ The platform is built around ABA and IDD care, not general talk therapy.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

CentralReach's current pricing could not be confirmed from its own site.

> **No price is published; every product goes through a demo, so it sits in the middle for want of a figure to compare.**
>
> From our grade for value for money

We could not confirm CentralReach's current prices from its own site, so this guide lists no plans. centralreach.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: Web, iOS and Android

ABA and autism care platform for practice management and billing. Here is what it does, as its own site describes it, and what it covers: AI features, auto-scheduling, reports, clinical notes, insurance billing.

> **Web plus iOS and Android, with a short list of integrations such as Nuvei and LeadSquared.**
>
> From our grade for platforms and integrations

EMR and practice management

Client records, data collection and operations in one system, with reporting and analytics.

AI scheduling

ScheduleAI drafts and adjusts ABA schedules and shows authorized hours to avoid over- or under-use.

Session notes

CR Mobile collects trials and observations in session, and NoteDraftAI turns them into a structured draft note.

Claims and billing

Session notes convert to billing entries; ClaimCheckAI, claim acceleration and managed billing are listed.

Training and certification

Learning management with CEUs, plus RBT and BCBA test prep.

Security

The vendor says it is HIPAA and SOC 2 compliant and offers PCI-compliant card processing.

Where it runs

Web · iOS · Android

What it works with

LeadSquared · Nuvei · Apploi · Viventium · Collectly · Rain · Simple Fractal

CentralReach is made by CentralReach, LLC.

Where it stands

Its grades against its category, and whether to keep it or make your own

15/60

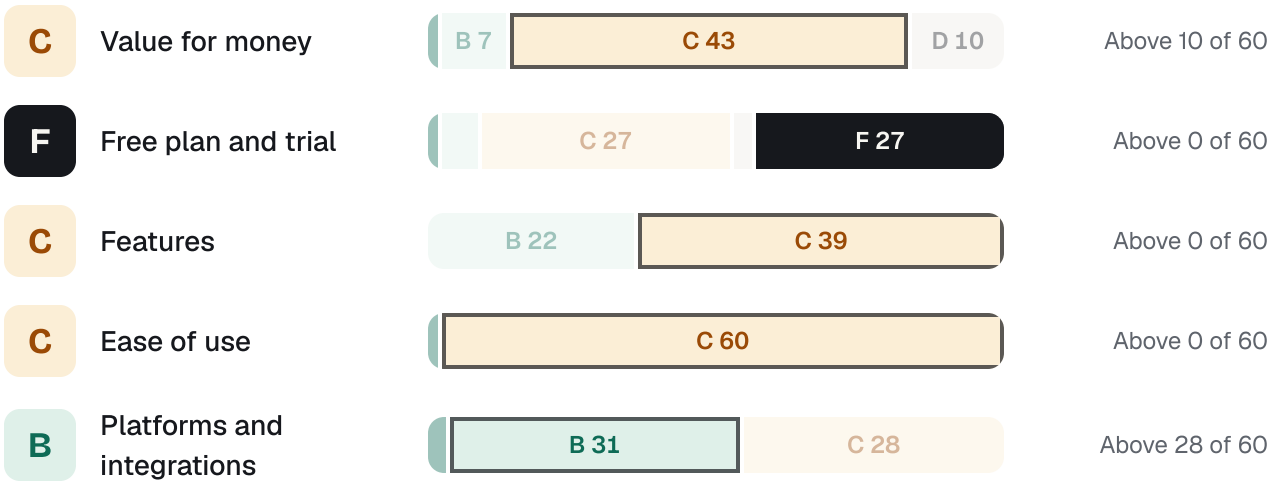

Other therapy and clinic software it is graded above

CentralReach's GPA of 1.8 is higher than 15 of the 60 other therapy and clinic software we grade, and level with 11.

It stands best on platforms and integrations (B, above 28 of 60) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 61 therapy and clinic software we grade, cut by the letter each got. CentralReach's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace CentralReach you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 34 of the 60 other therapy and clinic software grade higher.

What you could make

- Clinical notes and reports: an app builder makes these well.

What you could not

- Insurance claims sent to payers through a clearinghouse.
- A scheduler that rearranges your day as things move.
- A real app for iOS and Android. Something home-made would be a web page.
- It plugs into other products, LeadSquared, Nuvei and Apploi among them.
- AI features, unless you pay a model provider for each request yourself.
- What a company asks for before it lets staff use something: SOC 2 and HIPAA.

What this rests on. CentralReach's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

RethinkBH, AlohaABA, Qualifacts CareLogic and Welligent

The 4 tools CentralReach is most often weighed against, with where each one differs from it.

1.8 GPA

RethinkBH

Paid

ABA practice management with data collection, scheduling and billing.

- CentralReach also covers auto-scheduling.
