07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Check Point Harmony Endpoint's own pages, its app-store listings and our grades. Every fact in it is on Check Point Harmony Endpoint's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 14 of the 56 other antivirus apps we grade

Check Point's endpoint product, now titled Check Point Endpoint Security on its page, puts endpoint protection, EDR and XDR in one client and one management console. It covers laptops, desktops and servers, and can be managed from the cloud, on premises or by a managed security provider.

To get you started, here are **8 things to know about Check Point Harmony Endpoint**, taken from its own pages and our grades.

1 **Best for one agent for protection, detection and encryption**

No price is published and you buy through channel partners.

2 **You can try it first**

Free trial offered; its length is not stated on the page read

3 **It runs on 3 platforms**

Windows, macOS and Linux.

4 **EPP, EDR and XDR in one client**

One agent and one console cover prevention, detection and response, with cloud, on-premises or MSSP management.

5 **Anti-ransomware and anti-malware**

Layered defenses include anti-ransomware, anti-malware and a Behavioral Guard that targets fileless attacks.

6 **Zero-phishing and browser protection**

Blocks known and unknown phishing sites as a user browses.

7 **A 2.0 GPA, above 14 of 56**

That is against the other antivirus apps we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Check Point Harmony Endpoint you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for one agent for protection, detection and encryption

Harmony Endpoint puts protection, detection and response, phishing blocking, data loss prevention and disk encryption into one agent for Windows, Mac and Linux. No price is published and you buy through channel partners. The trial length is not stated either.

TOOLGPA REPORT CARD
Graded Nov 13, 2026

Check Point Harmony Endpoint

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so there is nothing to set against this category's $2.58 to $6.50 a month; the listing says it is by quote. The page names channel partners as the way to buy.
Free plan and trial	D	A free trial is offered but its length is not stated on the page read, and a trial of unknown terms cannot be graded higher.
Features	B	Anti-ransomware, anti-malware, EDR, XDR, zero-phishing, patching, DLP and disk encryption from one agent. The listing names no gap in the core job.
Ease of use	C	Business product with a console and agents to roll out; no store rating is on record and the listing shows setup work, so it sits at the ordinary grade.
Platforms and integrations	C	Windows, Mac and Linux only, with Check Point's own ThreatCloud AI as the one integration listed. No phone apps.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Check Point Harmony Endpoint is for

- ✓ Fits if you want one agent for prevention, response and full-disk encryption
- ✓ Works for companies that already buy from Check Point partners

Who it is not for

- ✕ Not for you if you want a published price, as the page offers a trial and a demo request only
- ✕ Skip it if you are an individual, since it is sold to businesses through partners
- ✕ Watch out: the trial length is not stated on the page read
- ✕ Too light for phones: no iPhone or Android client is listed
- ✕ Tight if you want to buy online by yourself, as buying runs through Check Point's channel partners

Good to know

Good for

- ✓ Organizations that already use Check Point network or cloud security
- ✓ Teams that want EPP, EDR and XDR from one agent

Worth knowing

- ⓘ No prices are published on the product page; it offers a free trial and a demo request.
- ⓘ The page says the agent can run without constant cloud connectivity, with cloud management as an option.
- ⓘ It is sold to businesses, and the page names Check Point's channel partners as the way to buy.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Check Point Harmony Endpoint's current pricing could not be confirmed from its own site.

> **The page names channel partners as the way to buy.**
>
> From our grade for value for money

We could not confirm Check Point Harmony Endpoint’s current prices from its own site, so this guide lists no plans. checkpoint.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: macOS, Windows and Linux

Single-agent endpoint protection, EDR and XDR from Check Point. Here is what it does, as its own site describes it, and what it covers: AI features, malware protection.

> **Anti-ransomware, anti-malware, EDR, XDR, zero-phishing, patching, DLP and disk encryption from one agent.**
>
> From our grade for features

EPP, EDR and XDR in one client

One agent and one console cover prevention, detection and response, with cloud, on-premises or MSSP management.

Anti-ransomware and anti-malware

Layered defenses include anti-ransomware, anti-malware and a Behavioral Guard that targets fileless attacks.

Zero-phishing and browser protection

Blocks known and unknown phishing sites as a user browses.

Posture management

Finds vulnerabilities and applies patches automatically to reduce the attack surface.

Data loss prevention and disk encryption

Includes DLP, full-disk encryption and a view of which generative AI tools staff use, with a risk level for each.

Where it runs

macOS · Windows · Linux

What it works with

Check Point ThreatCloud AI

Check Point Harmony Endpoint is made by Check Point Software Technologies.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

14/56

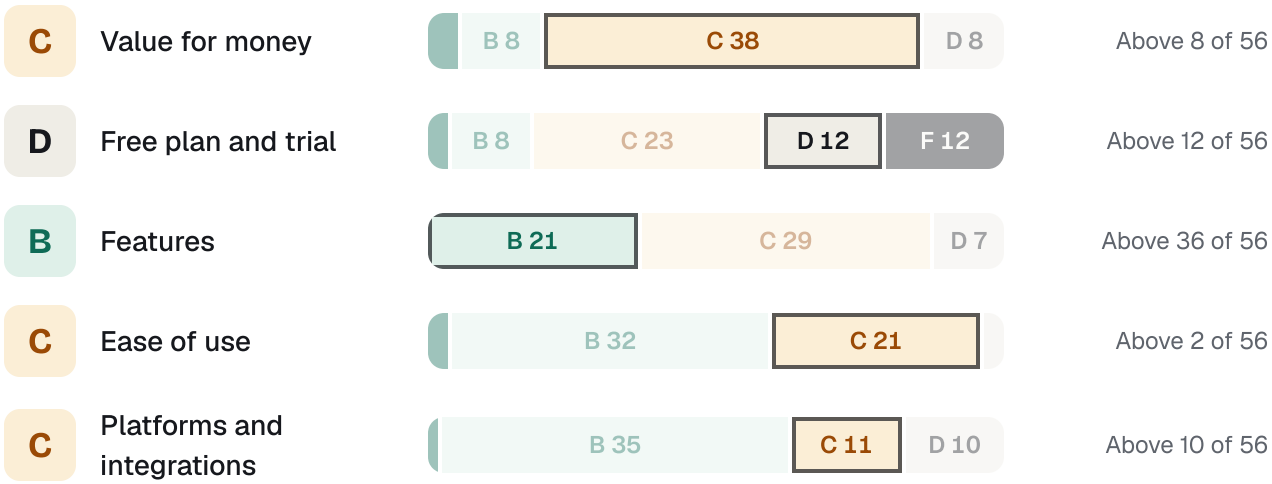

Other antivirus apps it is graded above

Check Point Harmony Endpoint's GPA of 2.0 is higher than 14 of the 56 other antivirus apps we grade, and level with 11.

It stands best on features (B, above 36 of 56) and worst on free plan and trial (D, above 12).

Each grade against the category

Every bar is all 57 antivirus apps we grade, cut by the letter each got. Check Point Harmony Endpoint's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Check Point Harmony Endpoint you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 31 of the 56 other antivirus apps grade higher.

What you could not

- ✕ An engine that recognises new malware as it appears.
- ✕ Apps for macOS, Windows and Linux that stay in step with each other.
- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. Check Point Harmony Endpoint's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

CrowdStrike Falcon Go, Cynet and Huntress

The 3 tools Check Point Harmony Endpoint is most often weighed against, with where each one differs from it.

2.2 GPA

CrowdStrike Falcon Go

Free trial · from $59.99/yr

Small-business antivirus with USB device control and mobile protection.

- Only CrowdStrike Falcon Go lists iOS and Android apps.

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Check Point Harmony Endpoint free?

No, Check Point Harmony Endpoint is a paid product, but you can try it first.

What platforms does Check Point Harmony Endpoint work on?

Check Point Harmony Endpoint is available on Windows, macOS and Linux.

Does Check Point Harmony Endpoint have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Check Point Harmony Endpoint is listed for Windows, macOS and Linux.

Does Check Point Harmony Endpoint have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Check Point Harmony Endpoint is listed for Windows, macOS and Linux.

Is Check Point Harmony Endpoint open source?

Check Point Harmony Endpoint is not described as open source on its own site, as read on Nov 13, 2026.

What does Check Point Harmony Endpoint integrate with?

Check Point Harmony Endpoint's listing names Check Point ThreatCloud AI.

Who makes Check Point Harmony Endpoint?

Check Point Harmony Endpoint is made by Check Point Software Technologies.

What are the alternatives to Check Point Harmony Endpoint?

The closest alternatives to Check Point Harmony Endpoint in our directory are CrowdStrike Falcon Go, Cynet and Huntress.

How does Check Point Harmony Endpoint compare with other antivirus apps?

Check Point Harmony Endpoint's GPA of 2.0 is higher than 14 of the 56 other antivirus apps we grade, and level with 11.

Could I make my own version of Check Point Harmony Endpoint?

To replace Check Point Harmony Endpoint you would be making an engine that recognises new malware as it appears.

Where this guide comes from

The prices, plans, platforms and features were read from Check Point Harmony Endpoint's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Check Point Software Technologies's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Check Point Software Technologies. Prices change, so check checkpoint.com before you buy.
