Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 3 of the 95 other SEO content tools we grade

ClickRank connects to Google Search Console and a small JavaScript snippet on your site, then rewrites title tags, meta descriptions, image alt text, schema markup and internal links using your top search queries. It also includes tools that check content against AI models and track mentions in Google AI Overviews.

To get you started, here are **8 things to know about ClickRank**, taken from its own pages and our grades.

> **It does not write articles, there is no free plan or trial, and the fixes disappear if the script comes off.**
>
> From our report card of ClickRank

1 **Best for fixing titles, meta descriptions and alt text across a site**

ClickRank rewrites page titles, meta descriptions, alt text and schema on existing pages through a script you add to your site.

2 **Paid plans start at $59 a month**

As its pricing page puts it: $59 per month for 1 website, billed monthly.

3 **It runs on Web**

Web.

4 **Title and meta description optimization**

Rewrites titles and descriptions using the top queries from Google Search Console, and forecasts clicks and impressions for title suggestions.

5 **Image alt text**

A vision model describes each image and writes alt text and title tags that reflect the queries people use to find the page.

6 **Schema markup**

Generates structured data for pages, blog posts and services that can be applied with one click.

7 **A 1.6 GPA, above 3 of 95**

That is against the other SEO content tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

The plain part of ClickRank you could make: schema markup and internal linking. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

The report card

Best for fixing titles, meta descriptions and alt text across a site

ClickRank rewrites page titles, meta descriptions, alt text and schema on existing pages through a script you add to your site. It does not write articles, there is no free plan or trial, and the fixes disappear if the script comes off.

TOOLGPA REPORT CARD	ClickRank	Graded Nov 12, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	$59 a month for one site, $79 for three, inside the middle of this category, where the cheaper quarter starts at $19.99 and the dearer quarter at $97.
Free plan and trial	F	No free plan and no trial on the pricing page.
Features	C	Handles titles, meta descriptions, alt text, schema, internal links and AI Overview checks. It does that smaller job fully, but it edits existing pages only and writes no long-form content.
Ease of use	C	No store rating on record. You connect Google Search Console and paste a JavaScript snippet into your site header.
Platforms and integrations	C	Web only, with Google Search Console and WordPress as the named connections.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who ClickRank is for

- ✓ Fits if you have many pages with weak titles and meta descriptions
- ✓ Works for agencies that want one tool across 10 client sites

Who it is not for

- ✗ Not for you if you want articles written, because it only edits existing page elements
- ✗ Skip it if you cannot add a script to your site header, since the fixes only stay live while it is installed
- ✗ Tight if you watch the budget: no free plan or trial, and 2,000 pages crawled a month on the cheapest plan
- ✗ Watch out: each website can sit on only one ClickRank account, and the Agency crawl limit is 60,000 pages in one place and 30,000 in another

Good to know

Good for

- ✓ Site owners who want on-page fixes applied without editing each page
- ✓ Agencies managing several client sites from Search Console data

Worth knowing

- ⓘ Needs a Google Search Console connection and a JavaScript snippet in the site header; optimizations stay live only while the snippet is installed.
- ⓘ The Agency plan lists 60,000 crawled pages in the plan card but 30,000 in the comparison table.
- ⓘ Each website can be registered on only one ClickRank account.
- ⓘ It edits existing page elements; it does not write long-form articles.

Where it stands

Its grades against its category, and whether to keep it or make your own

3/95

Other SEO content tools it is graded above

ClickRank's GPA of 1.6 is higher than 3 of the 95 other SEO content tools we grade, and level with 4.

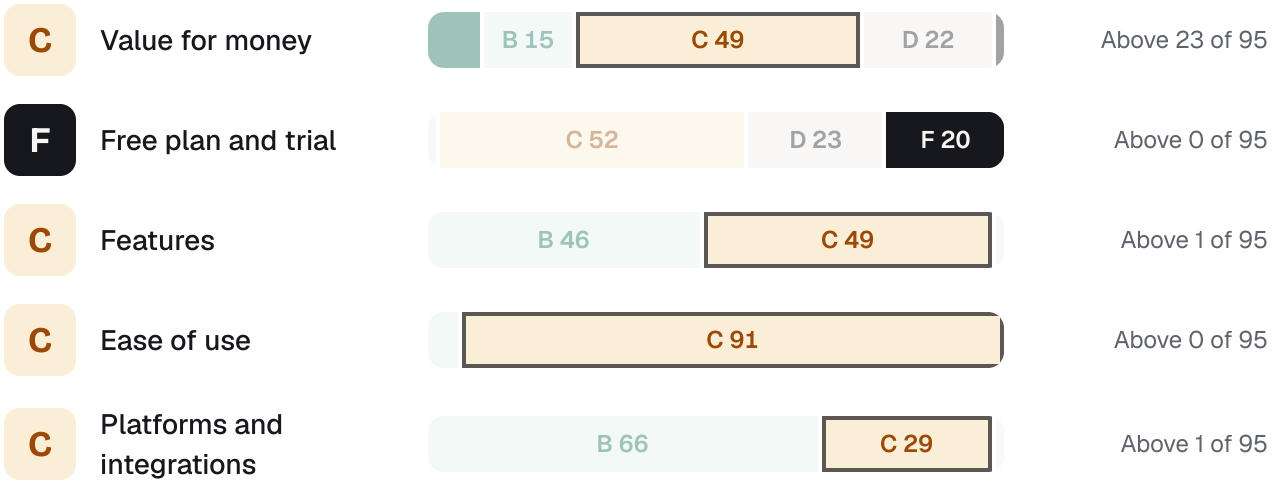

It stands best on value for money (C, above 23 of 95) and worst on free plan and trial (F, above 0).

Its paid plans start at $59 a month, against a middle price of $47 for the category: 56 of the 88 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 41 tools score higher and cost less.

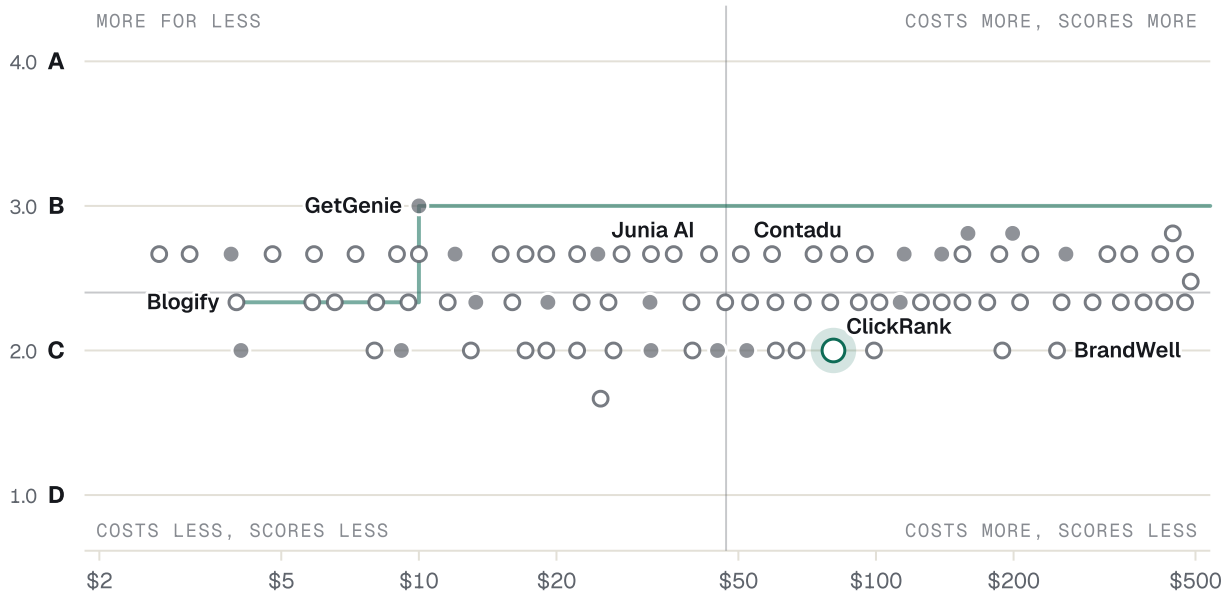

Each grade against the category

Every bar is all 96 SEO content tools we grade, cut by the letter each got. ClickRank's own letter is outlined.

Price against what you get

Each dot is one of 89 SEO content tools. Further left costs less; higher up scores better on features, ease of use and platforms. ClickRank is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of ClickRank you could make: schema markup and internal linking. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 88 of the 95 other SEO content tools grade higher. It costs $708 a year.

What you could make

- Schema markup and internal linking: an app builder makes these well.

What you could not

- A score built from what the top results for each keyword cover.

- The same prompts asked of ChatGPT, Perplexity, Gemini and Google's AI answers every day, and the answers kept.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. ClickRank's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
