Welcome

What it is, who it suits, its grades and the ten things to know first

3.0

GPA, above 154 of the 186 other desktop utilities we grade

ClipboardFusion is a Windows clipboard manager from Binary Fortress Software. It strips formatting, replaces clipboard text, and runs triggers or C# macros on what you copy. It can also sync the clipboard to other computers and to companion apps on mobile devices. A free version exists, and Pro is a one-time license.

To get you started, here are **9 things to know about ClipboardFusion**, taken from its own pages and our grades.

1 **Best for a Windows clipboard manager with macros**

ClipboardFusion cleans up and replaces clipboard text on Windows, with macros, triggers and sync to other devices.

2 **What it costs**

Paid plans start at $19 per machine, one-time.

3 **There is a free plan**

After the 30-day Pro trial you can keep using the free version; Pro adds features such as custom-code macros and ignoring chosen apps.

4 **It runs on 4 platforms**

Windows, macOS, iOS and Android.

5 **Remove formatting**

Scrubs copied text so it pastes without formatting, automatically or with a customizable hotkey.

6 **Replace clipboard text**

Swaps defined strings in copied text for others, such as turning ampersands into their HTML form.

7 **Macros**

Write C# macros in the built-in editor to transform clipboard contents, or reuse macros shared by the community.

8 **A 3.0 GPA, above 154 of 186**

That is against the other desktop utilities we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace ClipboardFusion you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

What you could not

- ✕ Connections to other products, each kept working as those products change.
- ✕ A clipboard history running in the background of your computer.
- ✕ Text expansion that works in every app.
- ✕ Apps for macOS, Windows, iOS and Android that stay in step with each other.
- ✕ Sharing with other people, which means accounts and invitations.
- ✕ The depth: we grade its features B, which means it covers the whole job.
