### Who ClubWise is for

- ✓ Fits if you run a gym in the UK or Ireland and want direct debit built in
- ✓ Works for clubs that use Polar or Tanita equipment

### Who it is not for

- ✗ Skip it if you want a posted price, as buyers book a demo
- ✗ Watch out: the API is read-only and a paid add-on
- ✗ Watch out: in-house direct debit is for the UK and Ireland, other regions use other routes
- ✗ Skip it if you want a trial, as none is listed
- ✗ Not for you if you want a plug-and-play third-party setup, as the API is closed to that

## Good to know

- ✓ Unstaffed 24/7 gyms using QR-code entry
- ✓ Multi-site operators needing one system for bookings, billing and access

### Worth knowing

PART 04 · STANDING

# Where it stands

Its grades against its category, and whether to keep it or make your own

**32/85**

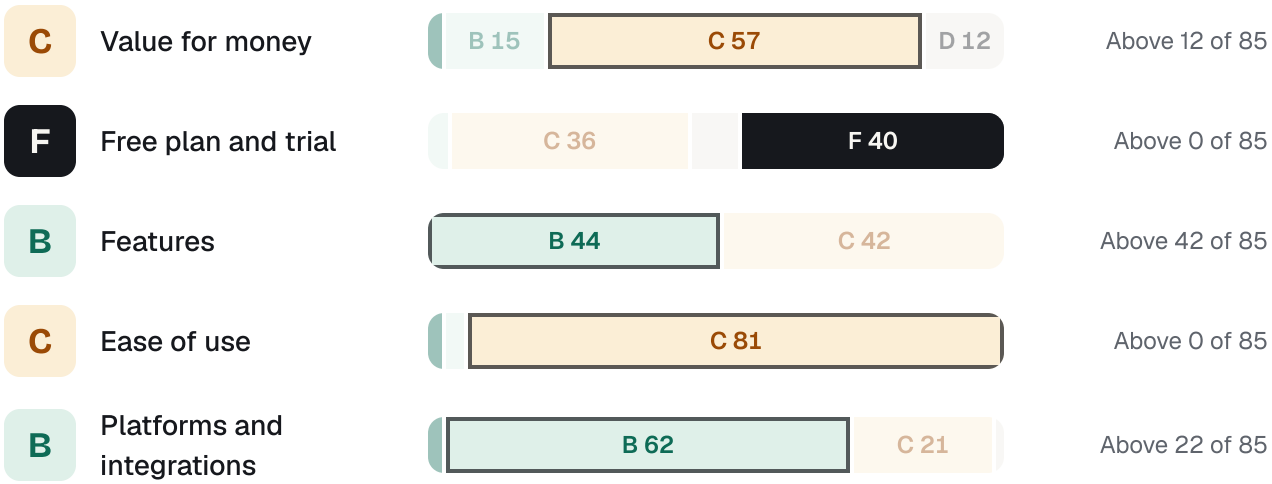

Other salon, spa and studio booking apps it is graded above

ClubWise's GPA of 2.0 is higher than 32 of the 85 other salon, spa and studio booking apps we grade, and level with 15.

It stands best on features (B, above 42 of 85) and worst on free plan and trial (F, above 0).

## Each grade against the category

Every bar is all 86 salon, spa and studio booking apps we grade, cut by the letter each got. ClubWise's own letter is outlined.

## Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

## Keep it

To replace ClubWise you would be making email sent in volume that still reaches the inbox. That is not a weekend's work, with an AI app builder or without one.

### What you could make

- Class booking, appointment booking, reports and sales pipeline: an app builder makes these well.

### What you could not

- Email sent in volume that still reaches the inbox.
- It plugs into other products, Stripe, Global Payments and Alright Now among them.
- The depth: we grade its features B, which means it covers the whole job.

**What this rests on.** ClubWise's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
