Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 54 of the 122 other email apps we grade

Compose AI is a Chrome extension that suggests text as you type and can generate drafts for emails, documents and chat messages. It says it learns the user's writing style to personalize suggestions. Its site describes a free version and a premium version, but the pricing page could not be read.

To get you started, here are **7 things to know about Compose AI**, taken from its own pages and our grades.

> **Install the extension and start typing, with nothing to set up.**
>
> From our grade for ease of use

1 **Best for autocomplete while you type in Chrome**

Compose AI is a Chrome extension that finishes your sentences in any text box.

2 **There is a free plan**

The site says the Chrome plugin is free to use, with a premium version that adds advanced features.

3 **Autocomplete in any text field**

Suggests the rest of a sentence where you type, across the sites and tools the extension is allowed to run on.

4 **Text generation**

Generates text from a prompt, with emails, documents and chat messages named as example uses.

5 **Writing-style personalization**

The vendor says it learns the user's voice and suggests phrases in that style; the FAQ ties some personalization features to the premium version.

6 **A 2.4 GPA, above 54 of 122**

That is against the other email apps we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

The plain part of Compose AI you could make: long-form writing. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

The report card

Best for autocomplete while you type in Chrome

Compose AI is a Chrome extension that finishes your sentences in any text box. The site says it is free forever, but the premium price couldn't be read, the site footer shows 2024, and it is Chrome only with no inbox of its own.

TOOLGPA REPORT CARD	Compose AI	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	The extension is free, and a premium version exists, but its price sits behind a pricing page that wouldn't load. We can't say where it lands against the $8 email middle.
Free plan and trial	B	The site says the plugin is free to use forever, with a premium version adding personalization features. No card or time limit is mentioned.
Features	C	Autocomplete, text generation and style personalization. It is a general writing helper, not an email client, so there is no inbox, folders or sending.
Ease of use	B	No store rating on record. Install the extension and start typing, with nothing to set up.
Platforms and integrations	C	Chrome only, according to the site. It names LinkedIn, Facebook and Instagram, and no API.
Grade point average		Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Compose AI is for

- ✓ Fits if you write in Chrome all day and want sentences finished for you
- ✓ Works for people who want a free trial of AI autocomplete before paying anything

Who it is not for

- ✗ Skip it if you want an email app, because it has no inbox and works only as a Chrome add-on
- ✗ Not for you if you use Safari, Firefox or a phone, as no other browser or app is mentioned
- ✗ Watch out: the premium price isn't on the page we could read, so you can't tell what upgrading costs
- ✗ Watch out: the site footer shows 2024 and the homepage mentions no recent updates

Good to know

Good for

- ✓ Chrome users who type a lot of email and chat text
- ✓ People who want drafting help across several web apps

Worth knowing

- ⓘ The pricing page loads its plans with JavaScript and could not be read, so no premium price is listed.
- ⓘ It is a Chrome plugin; the site mentions no other browsers or standalone apps.
- ⓘ The site footer shows a 2024 copyright, and the homepage mentions no recent updates.
- ⓘ It is a general writing tool, not an email client: it has no inbox of its own.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

54/122

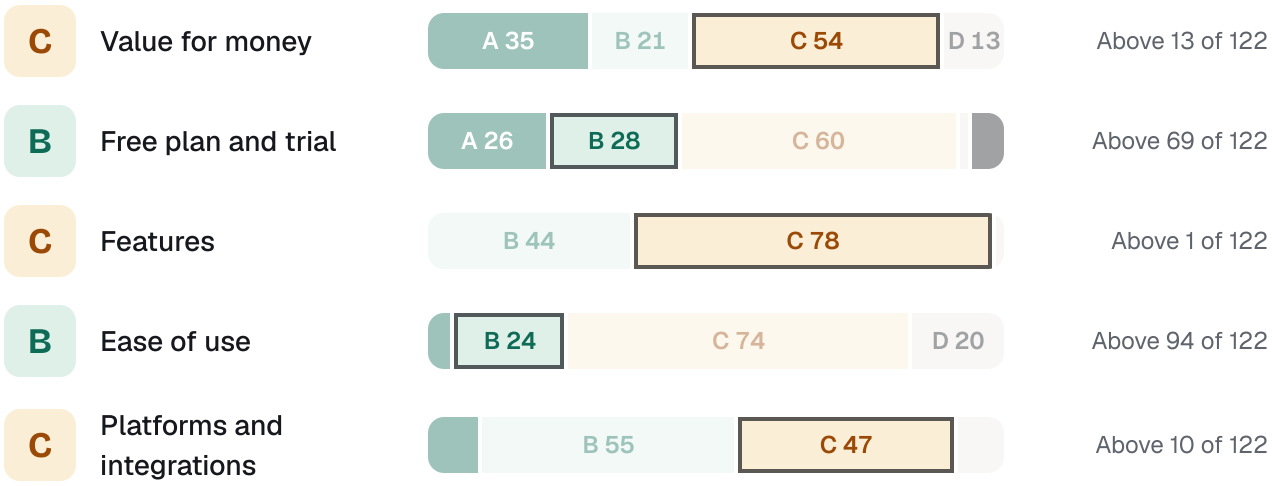

Other email apps it is graded above

Compose AI's GPA of 2.4 is higher than 54 of the 122 other email apps we grade, and level with 19.

It stands best on ease of use (B, above 94 of 122) and worst on features (C, above 1).

Each grade against the category

Every bar is all 123 email apps we grade, cut by the letter each got. Compose AI's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Compose AI you could make: long-form writing. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

What you could make

- Long-form writing: an app builder makes this well.

What you could not

- Text expansion that works in every app.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Compose AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
