Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 7 of the 78 other e-signature and proposal tools we grade

ContractSafe is contract management software that stores agreements, tracks dates and adds AI data extraction. Higher tiers add redlining, approval workflows and eSignature, then templates, intake forms and lifecycle tracking. All plans include unlimited users, and the price follows the number of active contracts.

To get you started, here are **9 things to know about ContractSafe**, taken from its own pages and our grades.

> **No store rating on record, and you import contracts and set custom fields first.**
>
> From our grade for ease of use

1 **Best for a contract repository priced by contract count**

ContractSafe stores contracts, extracts data with AI and sends date alerts, priced by the number of active contracts.

2 **Paid plans start at $450 a month**

As its pricing page puts it: $450 per month for up to 100 contracts, billed annually ($540 monthly).

3 **You can try it first**

Free trial on request; its length is not stated on the pricing page

4 **It runs on Web**

Web.

5 Contract repository

Contracts are stored with unlimited tagging, custom fields and forms, search, user roles and audit trails.

6 AI extraction and chat

AI extracts contract data and answers questions about a contract. AI contract review to flag risks is part of the Maximize plan.

7 Date management

Unlimited date fields drive alerts, recurring reminders and a calendar of upcoming renewals, expirations and notice deadlines.

8 A 1.8 GPA, above 7 of 78

That is against the other e-signature and proposal tools we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace ContractSafe you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for a contract repository priced by contract count

ContractSafe stores contracts, extracts data with AI and sends date alerts, priced by the number of active contracts. Organize is $450 a month for up to 100 contracts billed annually, and eSignature only starts at Finalize, $660. APIs and Salesforce need Maximize.

TOOLGPA REPORT CARD — **ContractSafe** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	Organize is $450 a month for up to 100 contracts, billed annually, and it rises to $1,200 at 5,001 to 10,000. That is well above the category's $20 middle.
Free plan and trial	D	A free trial is on request, and its length is not stated on the pricing page.
Features	C	Repository, AI extraction and chat, alerts, eSignature and approvals, and templates. eSignature starts at Finalize, and templates and APIs need Maximize.
Ease of use	C	No store rating on record, and you import contracts and set custom fields first.
Platforms and integrations	B	Web only, with DocuSign, Zapier, Word, Salesforce and Okta.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who ContractSafe is for

- ✓ Fits if you track a few hundred contracts and their renewal dates
- ✓ Makes sense if your team signs through DocuSign already

Who it is not for

- ✗ Pricey if you want signing in it, as eSignature starts at Finalize, $660 a month for 100 contracts
- ✗ Watch out: the price climbs with your active contract count, from 100 up to 10,000 and beyond
- ✗ Tight if you want the API, Salesforce or templates, which need Maximize at $815 a month
- ✗ Skip it if you want an app, because only web is described

Good to know

Good for

- ✓ Small and mid-size teams that want a contract repository with signing
- ✓ Organizations that want unlimited users and onboarding included
- ✓ Teams that outgrow spreadsheets and need renewal alerts

Worth knowing

- ⓘ Price rises with the number of active contracts, in steps from 100 or fewer up to 10,000 and beyond.
- ⓘ eSignature starts at Finalize, and APIs, Salesforce and templates need Maximize.
- ⓘ Prices on the page can be shown in other currencies, but all transactions are processed in USD.
- ⓘ Only a web app is described; the vendor lists no desktop or mobile apps.

Where it stands

Its grades against its category, and whether to keep it or make your own

7 /78

Other e-signature and proposal tools it is graded above

ContractSafe's GPA of 1.8 is higher than 7 of the 78 other e-signature and proposal tools we grade, and level with 11.

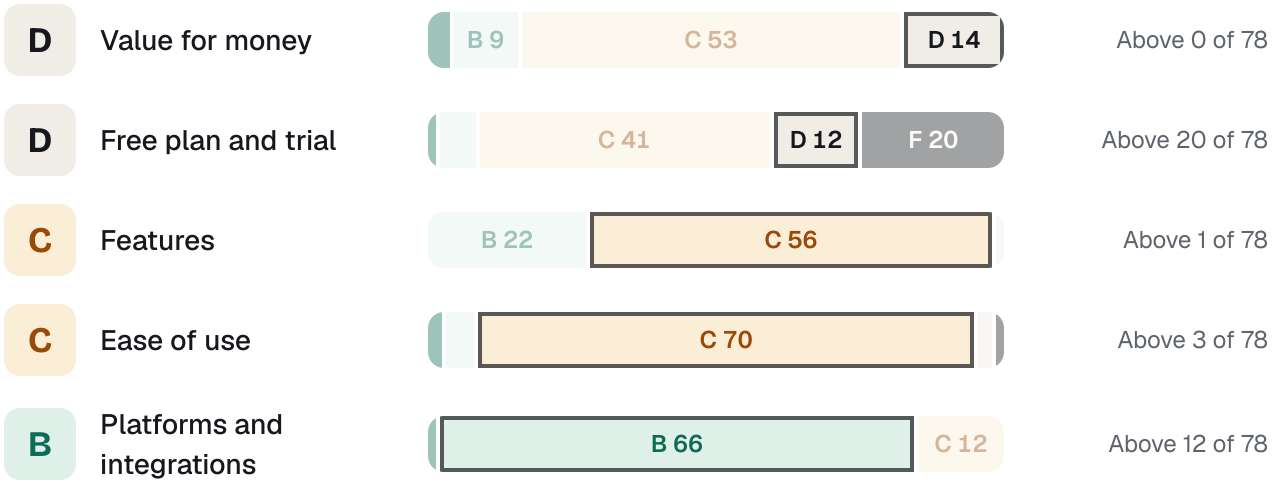

It stands best on platforms and integrations (B, above 12 of 78) and worst on value for money (D, above 0).

Its paid plans start at $450 a month, against a middle price of $19 for the category: 53 of the 54 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 16 tools score higher and cost less.

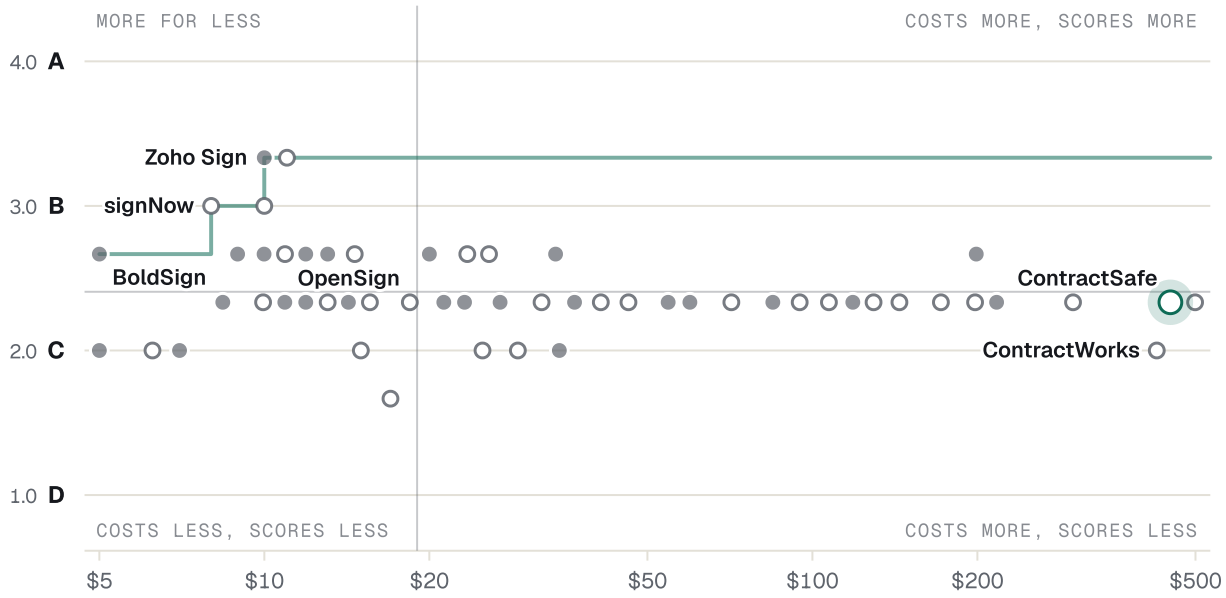

Each grade against the category

Every bar is all 79 e-signature and proposal tools we grade, cut by the letter each got. ContractSafe's own letter is outlined.

Price against what you get

Each dot is one of 55 e-signature and proposal tools. Further left costs less; higher up scores better on features, ease of use and platforms. ContractSafe is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace ContractSafe you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 60 of the 78 other e-signature and proposal tools grade higher. It costs $5,400 a year.

What you could make

- Documents, templates and reports: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. ContractSafe's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
