Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 7 of the 78 other e-signature and proposal tools we grade

ContractWorks is a contract management system from Onit that stores agreements in a searchable repository with AI tagging, date alerts and reports. Built-in electronic signature comes with every Repository plan, and a Premium tier adds drafting, redlining and approval workflows. Pricing follows document count, not users.

To get you started, here are **9 things to know about ContractWorks**, taken from its own pages and our grades.

> From our grade for ease of use

1 **Best for storing contracts with date alerts**

ContractWorks is a contract repository with AI tagging, date alerts and built-in eSignature.

2 **Paid plans start at $425 a month**

As its pricing page puts it: $425 per month for 1,000 documents, billed annually.

3 **You can try it first**

14-day free trial of the Repository plan

4 **It runs on Web**

Web.

5 **Contract repository**

Contracts are stored in one searchable place with full-text search, OCR, custom fields and tags, annotations and permission-based roles.

6 **AI tagging**

AI picks out details such as agreement type, parties, effective dates, renewal terms and notice windows when a contract is uploaded.

7 **Date alerts and reports**

Automated alerts track renewals, expirations and notice periods, and reports can be customized and scheduled.

8 **A 1.8 GPA, above 7 of 78**

That is against the other e-signature and proposal tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace ContractWorks you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

Best for storing contracts with date alerts

ContractWorks is a contract repository with AI tagging, date alerts and built-in eSignature. It starts at $425 a month for 1,000 documents, billed annually. Drafting, redlining and approvals need Premium, from $1,195 a month through sales.

TOOLGPA REPORT CARD	ContractWorks	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	D	$425 a month for up to 1,000 documents, billed annually, against the category's $20 middle and a dearest tenth that starts at $199. It does include unlimited users, so five people pay about $85 each.
Free plan and trial	C	A 14-day free trial of the Repository plan, and the page does not say whether it needs a card. No free plan.
Features	C	Repository, AI tagging, date alerts, reports and 10 eSignature licenses. Drafting, redlining and approvals need Premium.
Ease of use	C	No store rating on record, and you load your contracts in before it does anything.
Platforms and integrations	C	Web only, with no mobile app and no integrations named.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who ContractWorks is for

- ✓ Fits if you have a pile of signed contracts and need renewal alerts
- ✓ Makes sense if you want a few people signing and everyone else just looking

Who it is not for

- ✗ Pricey if you only need signatures, as the plans start at $425 a month
- ✗ Tight if you grow past 1,000 documents, where the next capacity step is 10,000
- ✗ Skip it if you need drafting or redlining, because those are on Premium from $1,195 a month
- ✗ Not for you if you want a phone app or integrations, as neither is listed

Good to know

Good for

- ✓ Teams that mostly need to store and track signed contracts
- ✓ Companies that want to add users without per-seat fees
- ✓ Organizations moving from shared drives and spreadsheets

Worth knowing

- ⓘ The $425 starting price covers 1,000 documents; larger capacity tiers exist at 10,000 and 50,000 documents.
- ⓘ Drafting, redlining and approval workflows need Premium, which is sold through sales.
- ⓘ The Repository plan includes 10 eSignature licenses; Premium licenses are set per quote.
- ⓘ The vendor lists no mobile app, only web access.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

7 /78

Other e-signature and proposal tools it is graded above

ContractWorks's GPA of 1.8 is higher than 7 of the 78 other e-signature and proposal tools we grade, and level with 11.

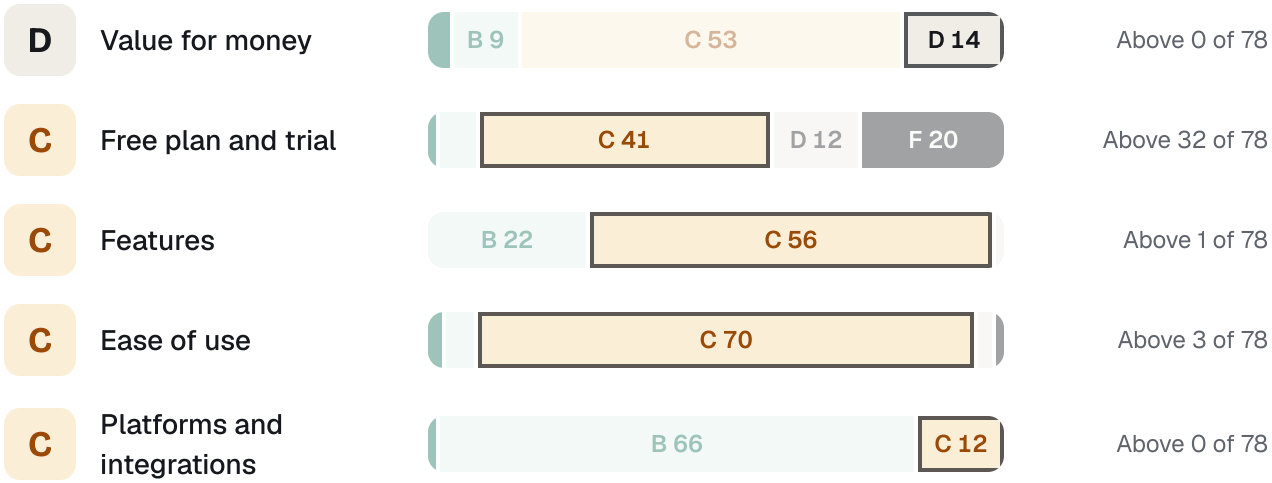

It stands best on free plan and trial (C, above 32 of 78) and worst on value for money (D, above 0).

Its paid plans start at $425 a month, against a middle price of $19 for the category: 52 of the 54 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 44 tools score higher and cost less.

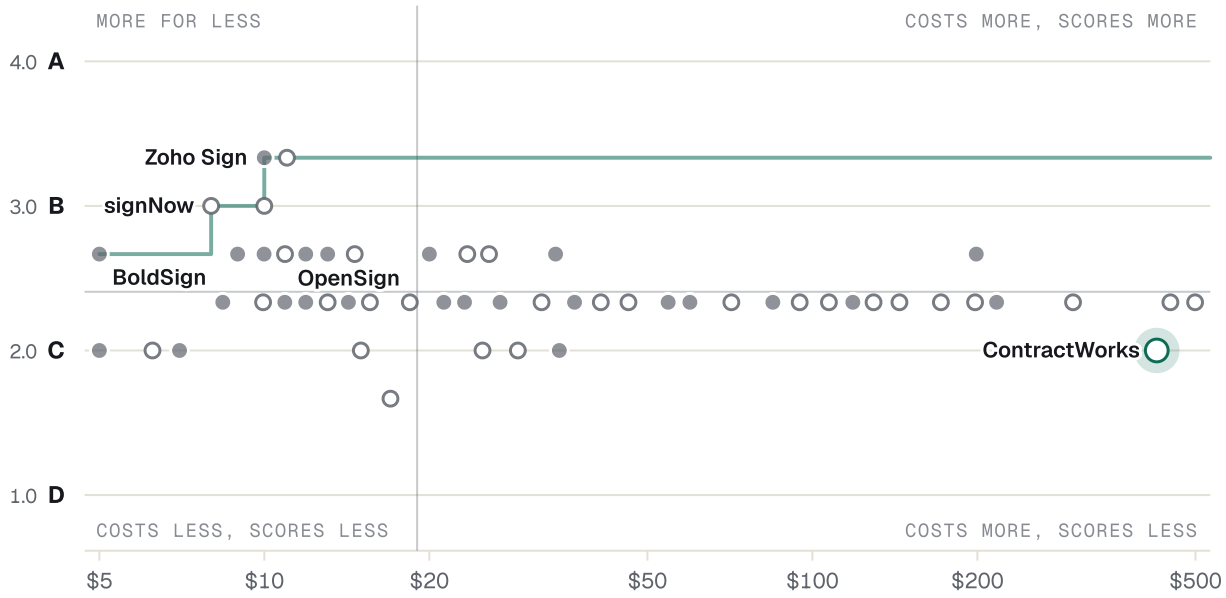

Each grade against the category

Every bar is all 79 e-signature and proposal tools we grade, cut by the letter each got. ContractWorks's own letter is outlined.

Price against what you get

Each dot is one of 55 e-signature and proposal tools. Further left costs less; higher up scores better on features, ease of use and platforms. ContractWorks is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace ContractWorks you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 60 of the 78 other e-signature and proposal tools grade higher. It costs $5,100 a year.

What you could make

- Documents, templates and reports: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- AI features, unless you pay a model provider for each request yourself.
- Sharing with other people, which means accounts and invitations.

What this rests on. ContractWorks's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
