PART 04 · STANDING

83/98

Other course and community platforms it is graded above

Coursify.me's GPA of 2.6 is higher than 83 of the 98 other course and community platforms we grade, and level with 8.

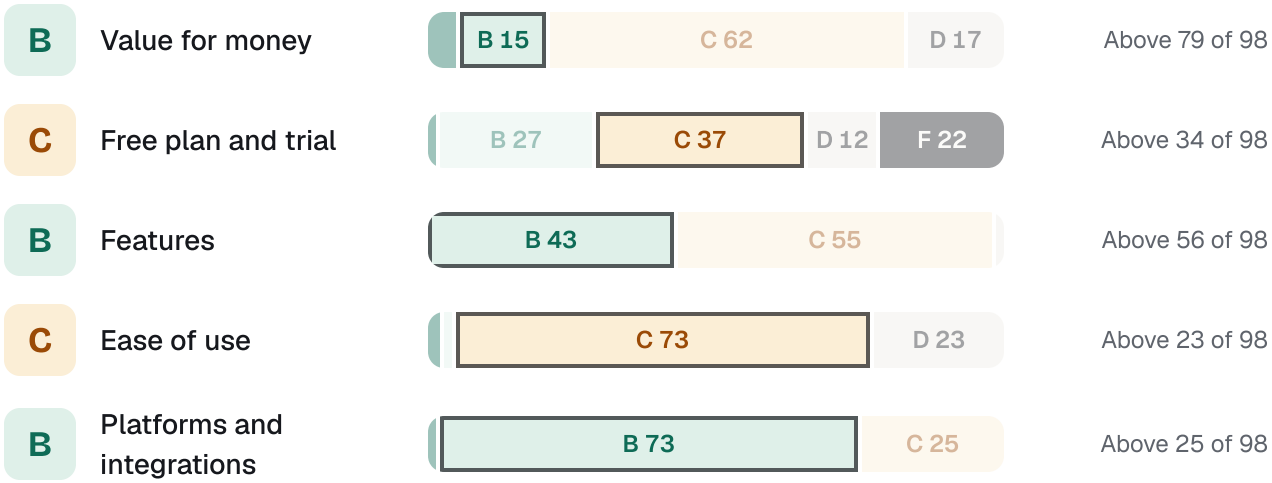

It stands best on value for money (B, above 79 of 98) and worst on ease of use (C, above 23).

Its paid plans start at $15 a month, against a middle price of $36 for the category: 8 of the 65 others that charge start lower.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Coursify.me you could make: online courses. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

It is one of the better ones too: its GPA of 2.6 is higher than 83 of the 98 other course and community platforms we grade. It costs $180 a year.

What you could make

- Online courses: an app builder makes this well.

What you could not

- A members' space with posts, chat and events that people keep coming back to.
- It plugs into other products, Stripe, PayPal and Dropbox among them.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Coursify.me's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
