Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 23 of the 89 other AI app builders we grade

CREAO builds AI agents from plain-language instructions and runs them on schedules, webhooks or messages, connecting to tools such as Gmail, Slack and Linear. Agents can pause for approval before sending or changing anything. Plans are credit-based and priced by team size.

To get you started, here are **9 things to know about CREAO**, taken from its own pages and our grades.

> "
>
> **It is not a site or app builder, which most of its category is.**
>
> From our report card of CREAO

1 **Best for agents that run scheduled work in your tools**

CREAO builds agents from a chat and runs them on schedules against Gmail, Slack, Linear and the like.

2 **Paid plans start at $20 a month**

As its pricing page puts it: $20 per month, billed monthly.

3 **There is a free plan**

1 member, 30 one-time credits plus 5 daily credits per team, standard models and one personal connector per agent app.

4 **It runs on Web**

Web.

5 **Agents from chat**

Describe a recurring task and CREAO builds an agent for it, with a Super Agent for general requests.

6 **Schedules and triggers**

Agents run daily, weekly, on a webhook or when a Slack message arrives.

7 **Approval gates**

Write or destructive actions pause for sign-off until an agent is switched to full auto.

8 **A 2.2 GPA, above 23 of 89**

That is against the other AI app builders we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace CREAO you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for agents that run scheduled work in your tools

CREAO builds agents from a chat and runs them on schedules against Gmail, Slack, Linear and the like. It is not a site or app builder, which most of its category is. The free plan is a handful of credits, and the plans climb fast, from $20 to $50, $150 and $1,000 a month.

TOOLGPA REPORT CARD — **CREAO** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Pro is $20 a month on monthly billing, the middle of what AI app builders charge, and credits beyond the plan cost $0.15 each.
Free plan and trial	C	1 member with 30 one-time credits plus 5 a day per team, standard models and one personal connector per agent app. Enough to try it, not to run it.
Features	C	Covers agents from chat, schedules, triggers, approval gates, memory and connectors. It builds automations, not standalone apps, so it only partly overlaps its category.
Ease of use	C	No store rating on record. You describe the agent and connect your accounts, which is setup work.
Platforms and integrations	B	Web only, with a real list of connectors including Gmail, Outlook, Slack, Teams, Linear, Asana, Drive and Zoom.
Grade point average		Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who CREAO is for

- ✓ Fits if you want a recurring task, like a weekly summary from your inbox, handled by an agent
- ✓ Works for people who already live in Slack, Gmail and Linear and want those connected

Who it is not for

- ✕ Skip it if you want a website or an app, because it builds agents and automations rather than standalone apps
- ✕ Tight if you stay free: 30 one-time credits and 5 a day per team
- ✕ Pricey if you outgrow Pro, as the next steps are $50, $150 and $1,000 a month
- ✕ Watch out: in a team every member gets the owner's plan and only the owner pays, so one account carries the bill
- ✕ Watch out: the prices shown are for monthly billing, and yearly billing is advertised as 20% less

Good to know

Good for

- ✓ Marketers and operators automating recurring work
- ✓ Solo users and small teams who want agents rather than a code app

Worth knowing

- ⓘ Prices shown are for monthly billing; the page labels yearly billing as saving 20%.
- ⓘ Extra credits cost $0.15 each, or 30% less when buying 4,000 or more.
- ⓘ Inside a team, every member gets the owner's plan and only the owner pays.
- ⓘ It builds agents and automations rather than standalone apps, unlike most tools in this category.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

23/89

Other AI app builders it is graded above

CREAO's GPA of 2.2 is higher than 23 of the 89 other AI app builders we grade, and level with 27.

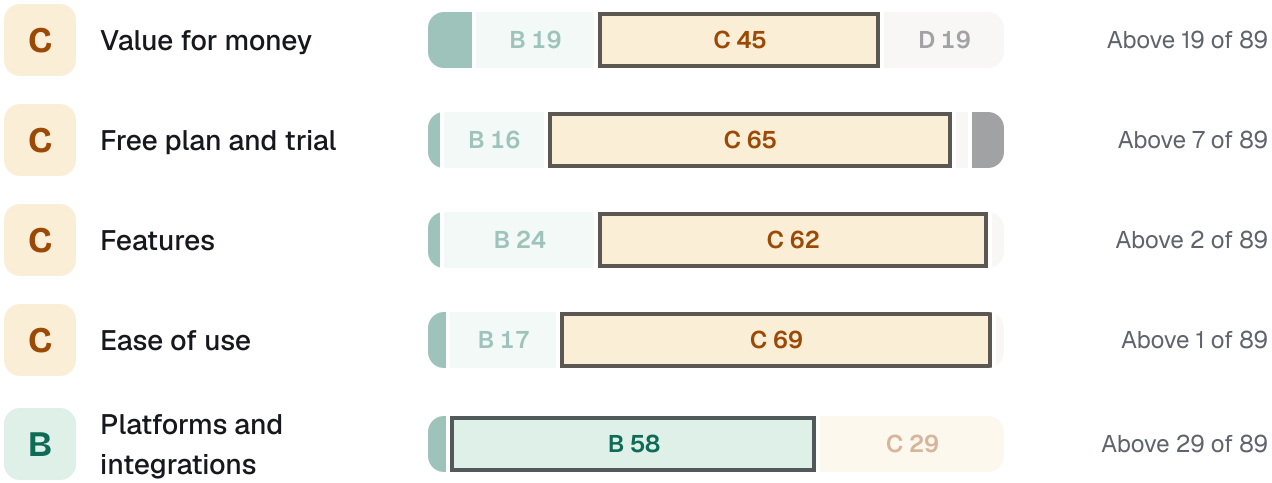

It stands best on platforms and integrations (B, above 29 of 89) and worst on ease of use (C, above 1).

Its paid plans start at $20 a month, against a middle price of $20 for the category: 38 of the 82 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 14 tools score higher and cost less.

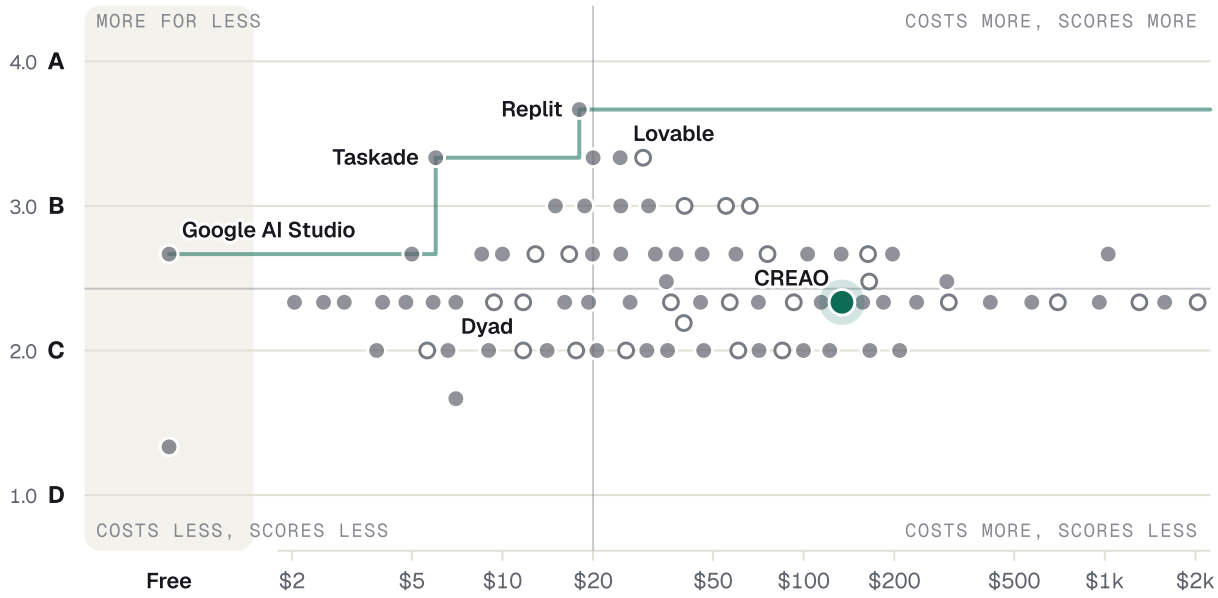

Each grade against the category

Every bar is all 90 AI app builders we grade, cut by the letter each got. CREAO's own letter is outlined.

Price against what you get

Each dot is one of 85 AI app builders. Further left costs less; higher up scores better on features, ease of use and platforms. CREAO is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace CREAO you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 39 of the 89 other AI app builders grade higher. It costs $240 a year.

What you could not

- An AI agent, with the models and the safeguards behind it.
- Connections to other products, each kept working as those products change.

- ✕ A builder that other people can use without writing code.
- ✕ An image model, which you can rent by the picture but not make.
- ✕ A video model, which you can rent by the second but not make.

What this rests on. CREAO's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
