Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Crevado you would be making a builder that other people can use without writing code. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.4 is higher than 70 of the 104 other website and landing page builders we grade. It costs $93.84 a year.

What you could not

- ✕ A builder that other people can use without writing code.
- ✕ Checkout, card payments and sales tax handled for you.

× A tracking script and a database that counts every visit.

What this rests on. Crevado's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
