PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

9/89

Other presentation tools it is graded above

Crowdpurr's GPA of 1.8 is higher than 9 of the 89 other presentation tools we grade, and level with 10.

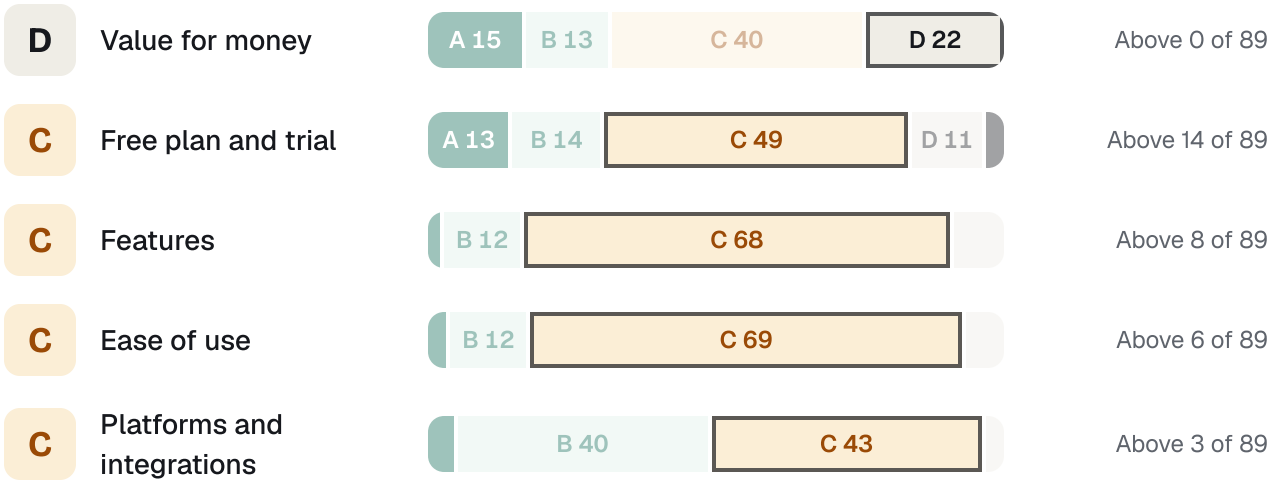

It stands best on free plan and trial (C, above 14 of 89) and worst on value for money (D, above 0).

Its paid plans start at $24.99 a month, against a middle price of $10 for the category: 57 of the 63 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 37 tools score higher and cost less.

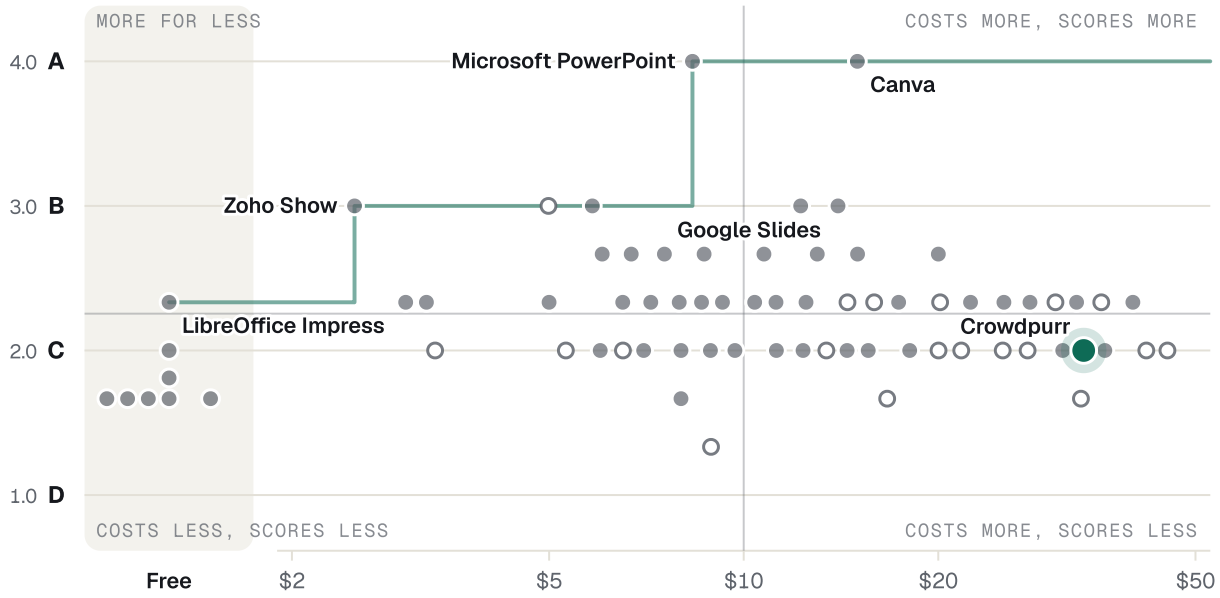

Each grade against the category

Every bar is all 90 presentation tools we grade, cut by the letter each got. Crowdpurr's own letter is outlined.

Price against what you get

Each dot is one of 72 presentation tools. Further left costs less; higher up scores better on features, ease of use and platforms. Crowdpurr is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Crowdpurr you could make: surveys and templates. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 70 of the 89 other presentation tools grade higher. It costs $299.88 a year.

What you could make

- Surveys and templates: an app builder makes these well.

What you could not

- A slide editor.

- ✕ Several people working in it at the same moment.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Crowdpurr's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
