To get you started, here are **7 things to know about CXC**, taken from its own pages and our grades.

> **No store rating is on record, and onboarding runs through a team rather than a sign-up.**
>
> From our grade for ease of use

1 **Best for global payroll for a mix of employees and contractors**

No price is published, and it is a service, not software you log into and run yourself.

2 **It runs on Web**

Web.

3 **Global payroll**

Payroll calculation, multi-currency payments, tax withholding, payslips and reporting across countries.

4 **Employee and contractor models**

Payroll can cover employees, contractors and suppliers under one process and one invoice.

5 **Timesheets and approvals**

Approvals run through a single platform.

That is against the other payroll services we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace CXC you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

TOOLGPA REPORT CARD	CXC	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, and buyers are asked to speak to the team, so it sits at C.
Free plan and trial	F	Nothing is free: no free plan and no trial are listed, so the way in is paying.
Features	C	Global payroll for employees and contractors, timesheets and approvals, payroll specialists, and EOR and AOR. It is delivered as a service, and the page itself says no provider can remove compliance risk.
Ease of use	C	No store rating is on record, and onboarding runs through a team rather than a sign-up.
Platforms and integrations	C	Web only, with no apps and no integrations on the listing.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Where it stands

Its grades against its category, and whether to keep it or make your own

0/61

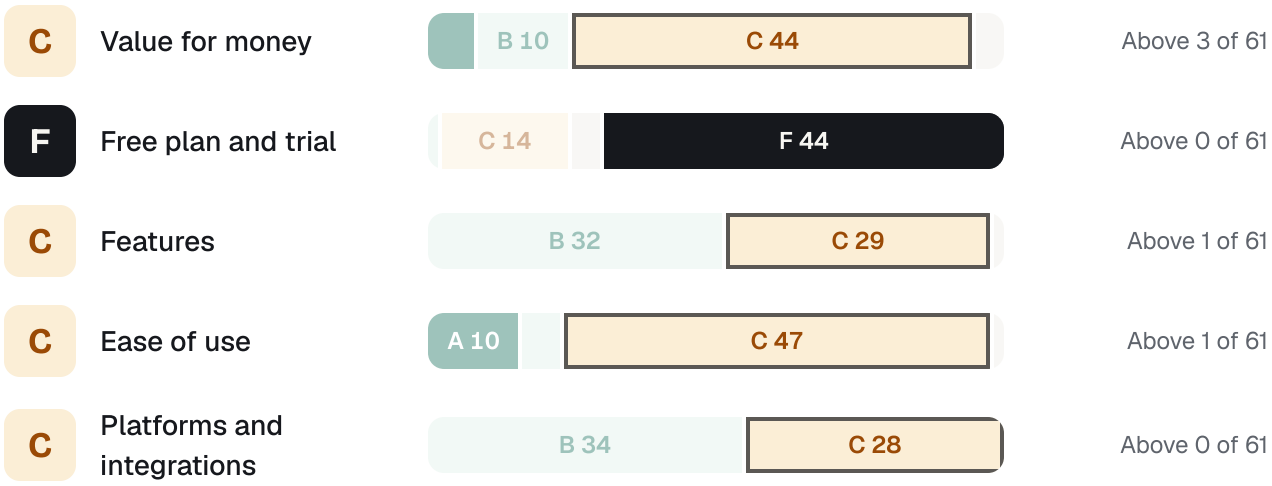

Other payroll services it is graded above

CXC's GPA of 1.6 is higher than 0 of the 61 other payroll services we grade, and level with 9.

It stands best on value for money (C, above 3 of 61) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 62 payroll services we grade, cut by the letter each got. CXC's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace CXC you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 52 of the 61 other payroll services grade higher.

What you could make

- Employee records: an app builder makes this well.

What you could not

- Payroll taxes worked out and filed with the government for you.

What this rests on. CXC's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
