Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Cynet's own pages, its app-store listings and our grades. Every fact in it is on Cynet's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 3 of the 56 other antivirus apps we grade

Cynet is a security platform aimed at managed service providers and small and mid-size enterprises. One agent covers endpoint protection, detection and response, network detection and user behavior analytics, and a 24x7 MDR team is included in the higher packages.

To get you started, here are **7 things to know about Cynet**, taken from its own pages and our grades.

> "
>
> **No prices or operating systems are published.**
>
> From our report card of Cynet

1 **Best for small teams that want a managed security service**

Cynet packs endpoint protection, EDR, network detection and deception into one agent, sold as Protect, Elite or All-in-One by quote.

2 **It runs on Web**

Web.

3 **One platform and agent**

Every package includes endpoint protection (EPP), EDR, network detection and response, user behavior analytics and deception technology.

4 **Protect package**

Essential endpoint protection with basic EDR for less complex environments; the package can be extended with add-ons.

5 **Elite package**

Adds full EDR, 24x7 managed detection and response and automation, aimed at compliance-driven or higher-risk environments.

6 **A 1.6 GPA, above 3 of 56**

That is against the other antivirus apps we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Cynet you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

Cynet at a glance

PRICING Paid	FREE PLAN No
FREE TRIAL None stated	RUNS ON Web
MADE BY Cynet	CATEGORY Antivirus & Malware Protection
OUR GRADE 1.6 GPA, weak	

The report card

Best for small teams that want a managed security service

Cynet packs endpoint protection, EDR, network detection and deception into one agent, sold as Protect, Elite or All-in-One by quote. The 24x7 managed detection and response starts at Elite, and Protect only has basic EDR. No prices or operating systems are published.

TOOLGPA REPORT CARD	Cynet	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so there is nothing to set against this category's $2.58 to $6.50 a month; the listing says it is by quote. Pricing depends on package, size and add-ons.
Free plan and trial	F	Nothing free on record: no free plan and no trial, and a demo request is not a trial.
Features	C	One agent covers EPP, EDR, network detection, user analytics and deception, but Protect has only basic EDR and full EDR and 24x7 response start at Elite.
Ease of use	C	Business product with a console and agents to roll out; no store rating is on record and the listing shows setup work, so it sits at the ordinary grade.
Platforms and integrations	C	Only a web console is on record. Supported operating systems, phone apps and integrations are not stated.

Grade point average Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Cynet is for

- ✓ Fits if you want one agent and a team watching alerts around the clock
- ✓ Works for MSPs that sell managed security to several customers

Who it is not for

- ✕ Not for you if you want a published price, as every package is quoted
- ✕ Skip it if you want full EDR on the cheapest package: Protect has basic EDR only
- ✕ Not for you if you are a home user, since it is built for organisations and MSPs
- ✕ Watch out: the page does not say which operating systems the agent supports
- ✕ Too light for a try-before-you-buy: no trial or free plan is on record

Good to know

Good for

- ✓ Managed service providers reselling endpoint security
- ✓ Small and mid-size teams that want a vendor-run SOC
- ✓ Regulated organizations that need compliance reporting

Worth knowing

- ⓘ No prices are published; the packages page says pricing depends on the package, the size of the environment and add-ons, and is given by quote.
- ⓘ The Protect package includes only basic EDR; full EDR and the 24x7 MDR service start at Elite.
- ⓘ Which operating systems the agent supports is not stated on the pages read.
- ⓘ It is built for organizations and MSPs, not for individual home users.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Cynet's current pricing could not be confirmed from its own site.

> **Pricing depends on package, size and add-ons.**
>
> From our grade for value for money

We could not confirm Cynet's current prices from its own site, so this guide lists no plans. cynet.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

AI-driven endpoint security with 24x7 managed response, by quote. Here is what it does, as its own site describes it, and what it covers: AI features, malware protection.

"

Supported operating systems, phone apps and integrations are not stated.

From our grade for platforms and integrations

One platform and agent

Every package includes endpoint protection (EPP), EDR, network detection and response, user behavior analytics and deception technology.

Protect package

Essential endpoint protection with basic EDR for less complex environments; the package can be extended with add-ons.

Elite package

Adds full EDR, 24x7 managed detection and response and automation, aimed at compliance-driven or higher-risk environments.

All-in-One package

Fully managed 24x7 expert protection across all managed environments, with the broadest coverage of the three.

Managed detection and response

An MDR team monitors and investigates around the clock and hunts for threats, according to the homepage.

Where it runs

Web

What it works with

Its own pages name no integrations.

Cynet is made by Cynet.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

3/56

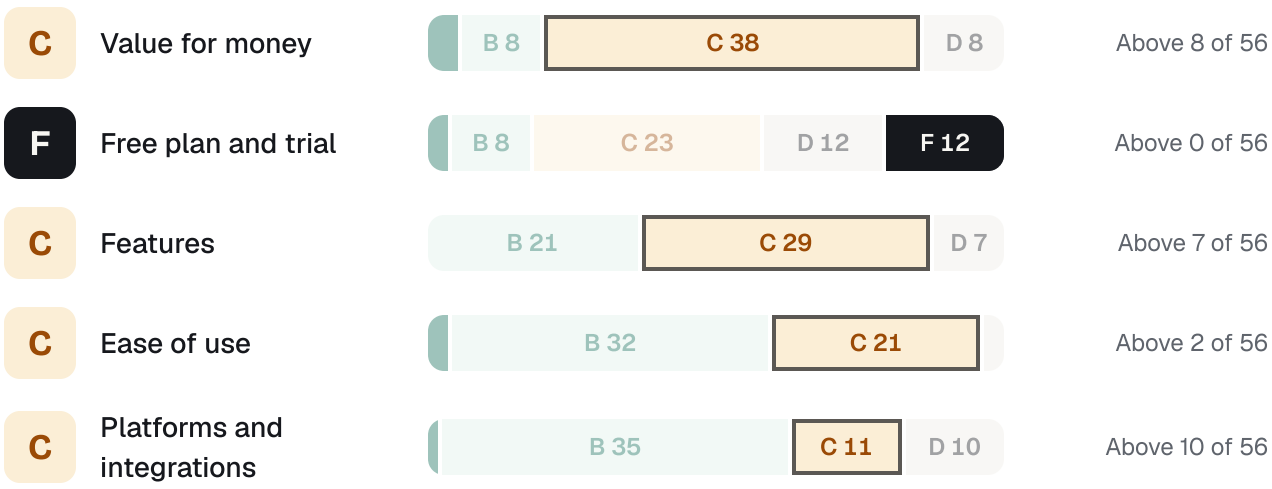

Other antivirus apps it is graded above

Cynet's GPA of 1.6 is higher than 3 of the 56 other antivirus apps we grade, and level with 2.

It stands best on platforms and integrations (C, above 10 of 56) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 57 antivirus apps we grade, cut by the letter each got. Cynet's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Cynet you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 51 of the 56 other antivirus apps grade higher.

What you could not

- ✕ An engine that recognises new malware as it appears.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Cynet's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Huntress, CrowdStrike Falcon Go and WithSecure Elements

The 3 tools Cynet is most often weighed against, with where each one differs from it.

2.0 GPA

Huntress

Free trial · from $8.99/mo

Managed endpoint detection and response with a 24/7 human SOC.

- Only Huntress lists Windows, macOS and Linux apps.
- Huntress also covers reports.

Cynet and Huntress compared in full

2.2 GPA

CrowdStrike Falcon Go

Free trial · from $59.99/yr

Small-business antivirus with USB device control and mobile protection.

- Only Cynet lists a web app.
- Only CrowdStrike Falcon Go lists Windows, macOS, Linux, iOS and Android apps.

Cynet and CrowdStrike Falcon Go compared in full

2.4
GPA

WithSecure Elements

Free trial · from €16.90/mo

Modular endpoint, exposure and MDR platform from WithSecure.

- Only WithSecure Elements lists Windows, macOS, Linux, iOS and Android apps.
- WithSecure Elements also covers reports.

Cynet and WithSecure Elements compared in full

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

9

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Cynet free?

No. Cynet is a paid product.

What platforms does Cynet work on?

Cynet is available on Web.

Does Cynet have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Cynet is listed for Web.

Does Cynet have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Cynet is listed for Web.

Is Cynet open source?

Cynet is not described as open source on its own site, as read on Nov 13, 2026.

Who makes Cynet?

Cynet is made by a company of the same name.

What are the alternatives to Cynet?

The closest alternatives to Cynet in our directory are Huntress, CrowdStrike Falcon Go and WithSecure Elements.

How does Cynet compare with other antivirus apps?

Cynet's GPA of 1.6 is higher than 3 of the 56 other antivirus apps we grade, and level with 2.

Could I make my own version of Cynet?

To replace Cynet you would be making an engine that recognises new malware as it appears.

Where this guide comes from

The prices, plans, platforms and features were read from Cynet's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Cynet's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Cynet. Prices change, so check cynet.com before you buy.
