Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 22 of the 127 other accounting and invoicing tools we grade

Dancing Numbers is an add-on for QuickBooks Online and QuickBooks Desktop that imports, exports and deletes transactions and lists in bulk from Excel or CSV files. Plans are priced by the number of company files and users. The company also sells QuickBooks bookkeeping, migration and integration services.

To get you started, here are **9 things to know about Dancing Numbers**, taken from its own pages and our grades.

4 **It runs on 2 platforms**

Web and Windows.

5 **Bulk import**

Loads transactions and lists from Excel or CSV files into QuickBooks, including invoices, bills, journal entries, deposits and bank statements.

6 **Bulk export**

Exports company file data for analysis, audits or reporting, covering customer, vendor, banking and employee transactions and lists.

7 **Bulk delete**

Deletes many entries at once, such as test or duplicate records. The vendor says an Undo feature can revert a bulk operation.

8 **A 2.0 GPA, above 22 of 127**

That is against the other accounting and invoicing tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Dancing Numbers you would be making live feeds from your bank, which take an agreement with each bank or a service that has them. That is not a weekend's work, with an AI app builder or without one.

Best for bulk QuickBooks imports from spreadsheets

Dancing Numbers is an add-on that imports, exports and deletes QuickBooks transactions and lists in bulk from Excel or CSV. But it does only that, only for QuickBooks, and plans are capped by company files.

TOOLGPA REPORT CARD — **Dancing Numbers** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$10 a month for 1 company file and 2 users on QuickBooks Online, just above the category's cheapest quarter. Desktop plans are yearly, from $199.
Free plan and trial	C	A free trial with no card, but its length isn't stated. There is no free plan.
Features	D	One narrow job, bulk moves of data in and out of QuickBooks, and it needs QuickBooks to be useful at all.
Ease of use	C	No store rating on record, and you map spreadsheet columns to QuickBooks fields.
Platforms and integrations	B	Web and a Windows program, with QuickBooks Online, QuickBooks Desktop and Salesforce.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Dancing Numbers is for

- ✓ Fits if you move many transactions into QuickBooks from spreadsheets
- ✓ Works for accountants who handle several QuickBooks company files

Who it is not for

- ✕ Not for you if you don't use QuickBooks, because it works only with QuickBooks
- ✕ Tight if you have more than 1 company file on the entry plan, which allows 1
- ✕ Watch out: Online plans are monthly while Desktop plans are yearly, with different file limits
- ✕ Watch out: the free trial's length isn't stated

Good to know

Good for

- ✓ Bookkeepers who load clients' transactions into QuickBooks from files
- ✓ Businesses importing sales data from several channels
- ✓ Teams cleaning up duplicate or test entries in bulk

Worth knowing

- ⓘ It works only with QuickBooks; the Desktop edition lists Windows 10 and 11.
- ⓘ Online plans are monthly (or yearly from 25 company files) while Desktop plans are yearly, with different company file limits.
- ⓘ Plans are capped by company files: 1 on Individual, 3 on Basic, 5 on Intermediate and 10 on Pro.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

22/127

Other accounting and invoicing tools it is graded above

Dancing Numbers's GPA of 2.0 is higher than 22 of the 127 other accounting and invoicing tools we grade, and level with 20.

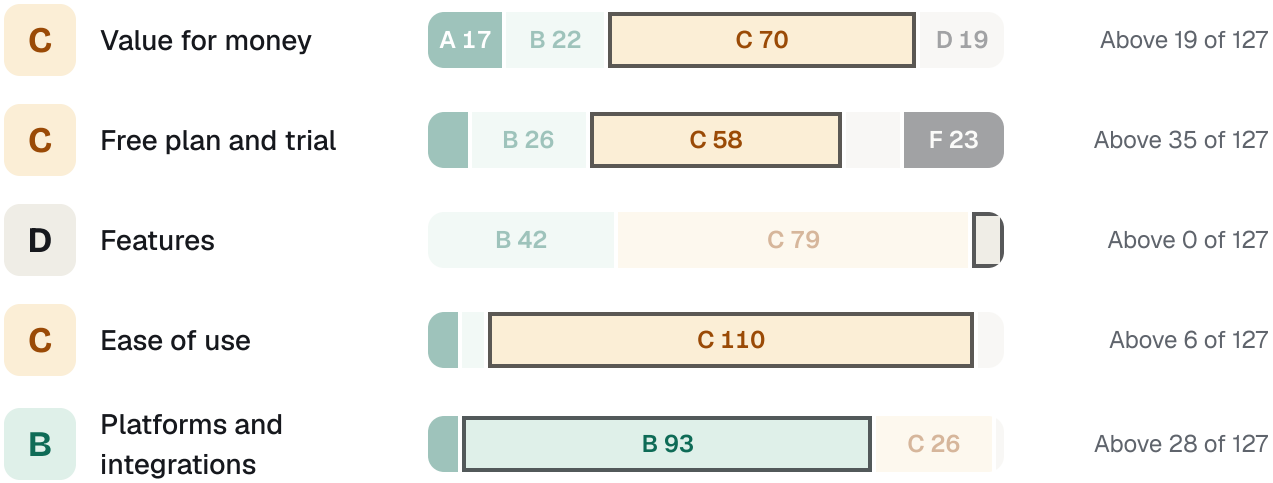

It stands best on platforms and integrations (B, above 28 of 127) and worst on features (D, above 0).

Its paid plans start at $10 a month, against a middle price of $18.09 for the category: 31 of the 90 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 32 tools score higher and cost less.

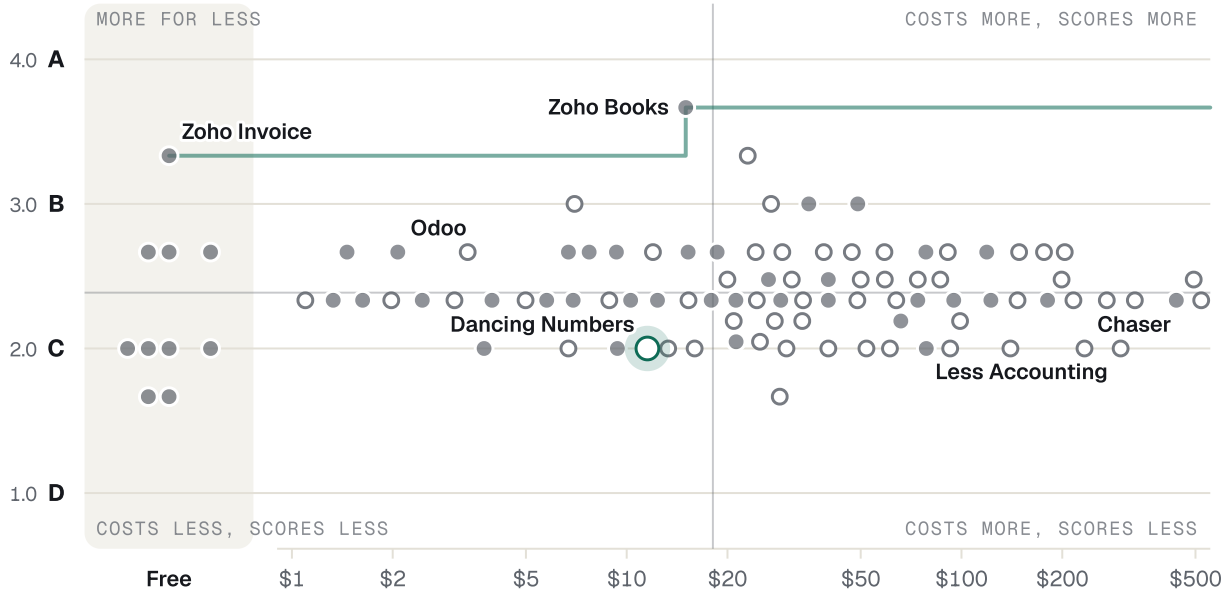

Each grade against the category

Every bar is all 128 accounting and invoicing tools we grade, cut by the letter each got. Dancing Numbers's own letter is outlined.

Price against what you get

Each dot is one of 101 accounting and invoicing tools. Further left costs less; higher up scores better on features, ease of use and platforms. Dancing Numbers is the marked dot.

What paid plans start at, a month (each step along is roughly double) ⍰

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Dancing Numbers you would be making live feeds from your bank, which take an agreement with each bank or a service that has them. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 85 of the 127 other accounting and invoicing tools grade higher. It costs $120 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- Live feeds from your bank, which take an agreement with each bank or a service that has them.
- Connections to other products, each kept working as those products change.
- A real app for Windows. Something home-made would be a web page.

What this rests on. Dancing Numbers's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
