12/85

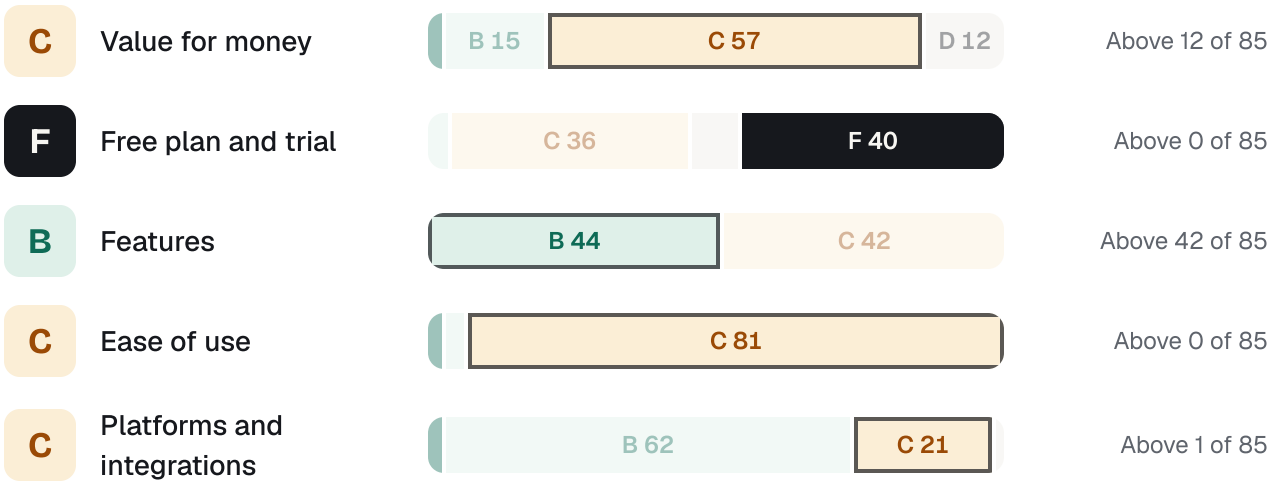

Other salon, spa and studio booking apps it is graded above

Daxko Operations's GPA of 1.8 is higher than 12 of the 85 other salon, spa and studio booking apps we grade, and level with 19.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Daxko Operations you could make: class booking, appointment booking and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 54 of the 85 other salon, spa and studio booking apps grade higher.

What you could make

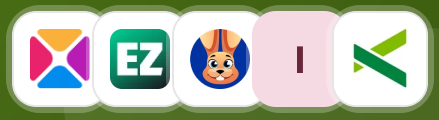

- Class booking, appointment booking and reports: an app builder makes these well.

What you could not

- It plugs into other products, GroupEx Pro, Daxko Engage and Daxko Payments among them, and has an API.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Daxko Operations's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
