Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Daywise is free, so making your own would save you nothing.

It is one of the better ones too: its GPA of 2.8 is higher than 52 of the 75 other daily planner apps we grade.

What you could make

- Tasks: an app builder makes this well.

What this rests on. Daywise's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
