Keep it

It costs $179.88 a year.

What you could not

- ✕ An image model, which you can rent by the picture but not make.
- ✕ An AI model, which you can rent by the request but not make.

- ✕ Apps for macOS, iOS and Android that stay in step with each other.
- ✕ It plugs into other products, WordPress and Bubble among them, and has an API.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. Decor8 AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
