Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 2 of the 80 other shipping software we grade

Delhivery is a logistics company in India that moves parcels and freight and runs warehouses. Its site lists express parcel, part and full truckload, international and local delivery services, plus tools for D2C brands. It is a courier rather than a software subscription, and no price list is published on the pages we could read.

To get you started, here are **7 things to know about Delhivery**, taken from its own pages and our grades.

> **No rates are published, and it sits beside tools like the others in this category, not in place of them.**
>
> From our report card of Delhivery

1 **Best for parcel delivery and logistics in India**

Delhivery is a logistics company with express parcels, freight, warehousing and international shipping, not shipping software.

2 **It runs on Web**

Web.

3 **Express parcel**

Parcel delivery service listed on the services menu.

4 **Truckload freight**

Part truckload and full truckload services.

5 **Warehousing**

Warehousing service listed on the services menu.

6 **A 1.6 GPA, above 2 of 80**

That is against the other shipping software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Delhivery you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for parcel delivery and logistics in India

Delhivery is a logistics company with express parcels, freight, warehousing and international shipping, not shipping software. No rates are published, and

it sits beside tools like the others in this category, not in place of them.

TOOLGPA REPORT CARD	Delhivery	Graded Nov 12, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published on the pages read. A carrier is also a different kind of thing from the software in this category, so there is no like-for-like figure.
Free plan and trial	F	No free plan and no trial on record, so you pay before you use it.
Features	C	Express parcel, truckload freight, warehousing, international and a return-risk predictor. It is a carrier, so it needs shipping software or your own system to book.
Ease of use	C	No store rating on record. You set up an account and rates with its sales team.
Platforms and integrations	C	Web only on the listing, with no integrations named.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Delhivery is for

- ✓ Fits if you ship parcels or freight in India and want a carrier with warehousing
- ✓ Works for a business that wants one logistics company for express, freight and storage

Who it is not for

- ✗ Skip it if you want a price list, as no rates are published
- ✗ Not for you if you want shipping software, as this is the carrier that does the delivery
- ✗ Watch out: its pages load with JavaScript, so little could be read, and our own check of the home page showed only a loading notice
- ✗ Too light on integrations, as none are named

Good to know

Good for

- ✓ Businesses that need a carrier in India rather than a dashboard
- ✓ Sellers comparing carriers against shipping dashboards

Worth knowing

- ⓘ No prices are published on the pages read; rates are not confirmed.
- ⓘ It is a carrier, so it sits beside shipping software rather than replacing it.
- ⓘ The site's pages load their content with JavaScript, which limited what could be read.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Delhivery's current pricing could not be confirmed from its own site.

> **No price is published on the pages read.**
>
> From our grade for value for money

We could not confirm Delhivery's current prices from its own site, so this guide lists no plans. delhivery.com has them.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

2/80

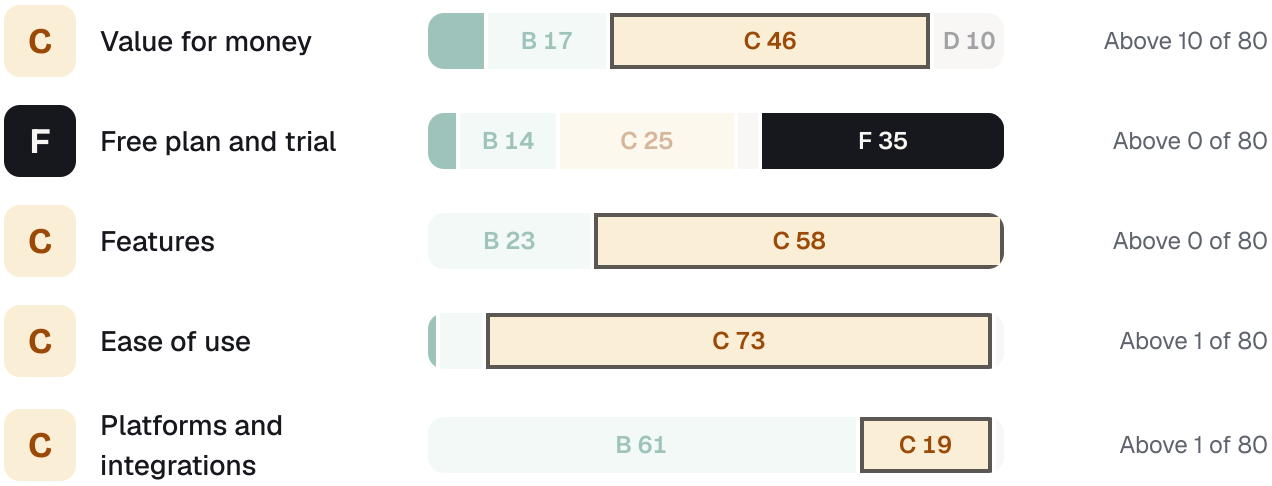

Other shipping software it is graded above

Delhivery's GPA of 1.6 is higher than 2 of the 80 other shipping software we grade, and level with 9.

It stands best on value for money (C, above 10 of 80) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 81 shipping software we grade, cut by the letter each got. Delhivery's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Delhivery you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 69 of the 80 other shipping software grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- Discounted carrier rates and labels, which take an agreement with each carrier.

What this rests on. Delhivery's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

Where this guide comes from

The prices, plans, platforms and features were read from Delhivery’s own pages on Nov 12, 2026, and the grades were given on Nov 12, 2026. Graded from this listing, whose facts were read from Delhivery's own pages on 12 November 2026. Its home page loaded with no content, only a loading notice, so this rests on the listing. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA’s own work; it is not made, paid for or approved by Delhivery. Prices change, so check delhivery.com before you buy.
