07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Delinea Secret Server's own pages, its app-store listings and our grades. Every fact in it is on Delinea Secret Server's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 2 of the 49 other password managers we grade

Secret Server is Delinea's vault for privileged credentials, aimed at IT and security teams rather than individuals. It stores and rotates passwords for human, machine and service accounts, adds approval workflows, and records privileged sessions. Pricing is quoted by sales.

To get you started, here are **8 things to know about Delinea Secret Server**, taken from its own pages and our grades.

> **The page publishes no price and gives only a quote request, and the pages we read name no apps or browser extension.**
>
> From our report card of Delinea Secret Server

1 **Best for company vaults for admin and service accounts**

Secret Server is a vault for privileged accounts, with discovery, rotation and session monitoring aimed at IT departments.

2 **You can try it first**

Free 30-day trial

3 **It runs on Web**

Web.

4 **Encrypted vault**

Privileged account credentials are kept in an encrypted vault with password controls, role-based access and approval workflows.

5 **Account discovery**

Finds and inventories privileged accounts across the environment so they can be brought under central management.

6 **Password rotation**

Built-in automation and templates handle password creation, rotation and expiry, including check-in and check-out of credentials.

7 **A 2.0 GPA, above 2 of 49**

That is against the other password managers we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Delinea Secret Server you would be making a password vault, the last thing anyone should make for themselves. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for company vaults for admin and service accounts

Secret Server is a vault for privileged accounts, with discovery, rotation and session monitoring aimed at IT departments. The page publishes no price and gives only a quote request, and the pages we read name no apps or browser extension.

TOOLGPA REPORT CARD

Delinea Secret Server

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, only a quote request, so there is nothing to place against the $2.99 middle subscription.
Free plan and trial	C	A 30-day trial is on offer. The page does not say whether it needs a card, and there is no free plan.
Features	C	Vault, account discovery, rotation, session monitoring and resilient secrets. It is built for privileged access, and the listing says it is not for personal logins.
Ease of use	C	No store rating on record. It is an enterprise product with accounts and policies to set up before it is useful.
Platforms and integrations	C	Web access is the only access recorded. No apps, extension or integrations list were found on the pages read.

Grade point average Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Delinea Secret Server is for

- ✓ Fits if you run shared admin and service accounts for a company
- ✓ Makes sense if you need session recording and audit evidence

Who it is not for

- ✕ Not for you if you want a password manager for yourself or your family
- ✕ Watch out: no prices are published, so you cannot budget without talking to sales
- ✕ Skip it if you need phone apps or a browser extension, as none are listed on the pages read
- ✕ Watch out: a 30-day trial is the only way to try it, and its card terms are not stated

Good to know

Good for

- ✓ Enterprise IT teams managing shared admin and service accounts
- ✓ Organizations that need session recording and audit evidence
- ✓ Security teams standardizing on the wider Delinea platform

Worth knowing

- ⓘ No prices are published; the product page only offers a quote request.
- ⓘ It is built for privileged access management, not for personal logins or family use.
- ⓘ The pages read for this entry do not list apps or browser extensions, so only web access is recorded.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Delinea Secret Server's current pricing could not be confirmed from its own site.

> **The page does not say whether it needs a card, and there is no free plan.**
>
> From our grade for free plan and trial

We could not confirm Delinea Secret Server's current prices from its own site, so this guide lists no plans. delinea.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Enterprise vault for privileged accounts and secrets. Here is what it does, as its own site describes it, and what it covers: password manager, reports.

> **Vault, account discovery, rotation, session monitoring and resilient secrets.**

From our grade for features

Encrypted vault

Privileged account credentials are kept in an encrypted vault with password controls, role-based access and approval workflows.

Account discovery

Finds and inventories privileged accounts across the environment so they can be brought under central management.

Password rotation

Built-in automation and templates handle password creation, rotation and expiry, including check-in and check-out of credentials.

Session monitoring

Privileged sessions are recorded and monitored, with audit trails and customizable reports for compliance evidence.

Resilient Secrets

A resiliency feature keeps credentials replicated and available when the main system is disrupted.

Where it runs

Web

What it works with

Its own pages name no integrations.

Delinea Secret Server is made by Delinea.

Where it stands

Its grades against its category, and whether to keep it or make your own

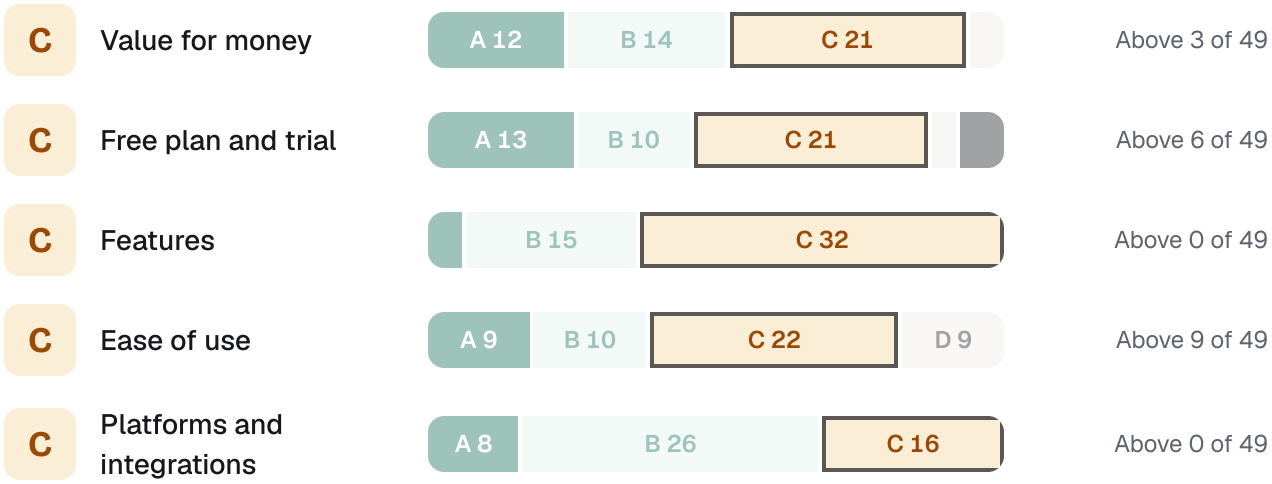

2/49

Other password managers it is graded above

Delinea Secret Server's GPA of 2.0 is higher than 2 of the 49 other password managers we grade, and level with 6.

Each grade against the category

Every bar is all 50 password managers we grade, cut by the letter each got. Delinea Secret Server's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Delinea Secret Server you would be making a password vault, the last thing anyone should make for themselves. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 41 of the 49 other password managers grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- A password vault, the last thing anyone should make for themselves.
- What a company asks for before it lets staff use something: roles and permissions.

What this rests on. Delinea Secret Server's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

Passwordstate, ManageEngine Password Manager Pro, Keeper, Zoho Vault and Passwork

The tools it is most often weighed against, side by side

The 5 tools Delinea Secret Server is most often weighed against, with where each one differs from it.
