Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 63 of the 168 other AI image and video generators we grade

DreamFace is an app and web tool for making talking-avatar videos from text or audio, animating photos, and generating AI video and images. It also offers a photo enhancer, background remover and filters. The company says one account works across iOS, Android and the web, and it offers an API for businesses.

> "
>
> **It's an app with several creation modes to choose between.**
>
> From our grade for ease of use

To get you started, here are **8 things to know about DreamFace**, taken from its own pages and our grades.

1 **Best for talking-avatar videos and AI photo animation on your phone**

Its pricing page loads only inside the app, so no price is recorded.

2 **There is a free plan**

Offers free creation tools, and says paid credit purchases add a 10% bonus; free limits could not be confirmed.

3 **It runs on 3 platforms**

Web, iOS and Android.

4 **Avatar video**

Turns text or audio into video with a realistic avatar and voice, including lip sync and a photo-talk mode.

5 **AI video and image generation**

Creates short videos and images from prompts, with skills such as photo motion, face swap, outfit swap and HD enhance.

6 **Canvas and agent**

A Canvas workspace and an Agent mode let you combine ideas, images and references in one prompt box.

7 **A 2.2 GPA, above 63 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace DreamFace you would be making a video model, which you can rent by the second but not make. That is not a weekend's work, with an AI app builder or without one.

DreamFace

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is recorded because the pricing page loads only inside the app, so it sits in the middle.
Free plan and trial	C	Free creation tools are offered, but the limits could not be confirmed.
Features	C	Avatar video, AI video and image generation, a canvas and agent, and extra tools. Pricing and limits aren't readable, so gaps can't be named.
Ease of use	C	No rating on record. It's an app with several creation modes to choose between.
Platforms and integrations	B	Web, iPhone and Android with one account, plus an API for businesses. No desktop app.

Grade point average — Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who DreamFace is for

- ✓ Fits if you want talking-photo and avatar clips from your phone
- ✓ Works for people who'll start free and see what the credits cover

Who it is not for

- ✕ Skip it if you need prices up front, as they're only shown inside the app
- ✕ Watch out: web purchases are refundable only on request within 7 days
- ✕ Watch out: App Store and Google Play buys follow those stores' own refund rules
- ✕ Not for you if you were looking for dreamface.pro, a different product

Good to know

Good for

- ✓ Social creators making talking-photo or avatar clips on a phone
- ✓ Small advertisers producing quick product and UGC-style videos
- ✓ People who want video and image tools under one account

Worth knowing

- ⓘ Pricing could not be read: the pricing page loads only inside the app interface, so no plan or price is recorded.
- ⓘ Web purchases can be refunded only by request within 7 days, and approval is not guaranteed, per its refund policy.
- ⓘ The roster address dreamface.pro is a different product, a Japanese clinic face simulator; this entry covers dreamfaceapp.com.
- ⓘ Credits and subscriptions bought through the App Store or Google Play fall under those stores' own refund rules.

What it costs

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

63/168

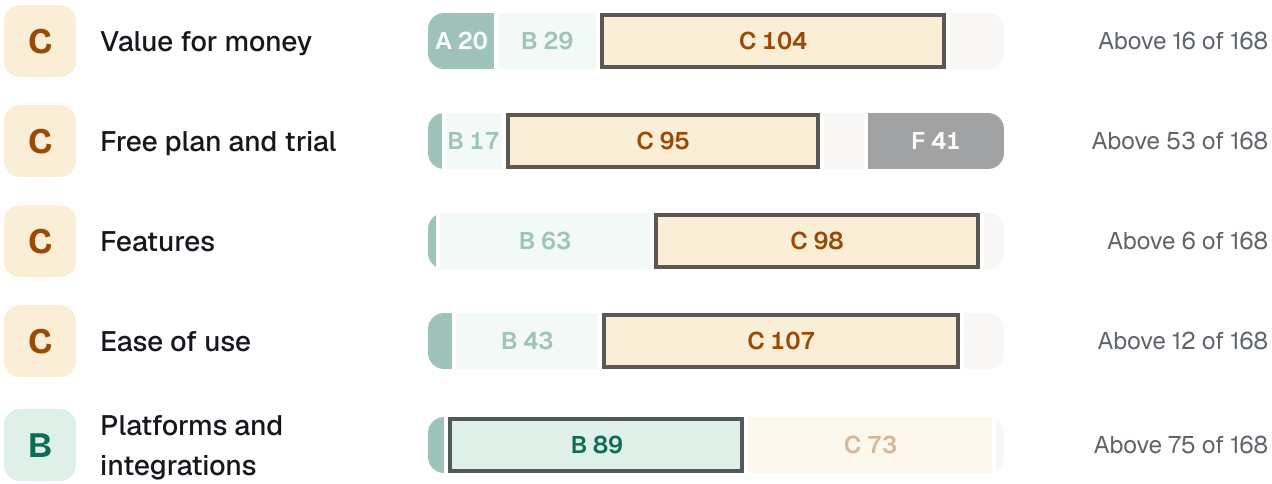

Other AI image and video generators it is graded above

DreamFace's GPA of 2.2 is higher than 63 of the 168 other AI image and video generators we grade, and level with 42.

It stands best on platforms and integrations (B, above 75 of 168) and worst on features (C, above 6).

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. DreamFace's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace DreamFace you would be making a video model, which you can rent by the second but not make. That is not a weekend's work, with an AI app builder or without one.

What you could not

- ✕ A video model, which you can rent by the second but not make.
- ✕ An image model, which you can rent by the picture but not make.
- ✕ A real app for iOS and Android. Something home-made would be a web page.
- ✕ An API that other software can build on.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. DreamFace's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
