07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Dreamlook's own pages, its app-store listings and our grades. Every fact in it is on Dreamlook's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 63 of the 168 other AI image and video generators we grade

Dreamlook is a hosted service for fine-tuning Stable Diffusion 1.5 and SDXL models on your own images and then generating images from them. It offers a training and generation API alongside the web interface, and trained models can be downloaded or exported as LoRA files. Usage is paid for with prepaid packs rather than a subscription.

> "
>
> **Preparing training images and judging the results is on you.**
>
> From our grade for ease of use

To get you started, here are **9 things to know about Dreamlook**, taken from its own pages and our grades.

1 **Best for fine-tuning Stable Diffusion models**

The models are older Stable Diffusion ones, and the pricing page needs JavaScript to read.

2 **What it costs**

Paid plans start at $15 prepaid pack, used as you go.

3 **You can try it first**

50 free tokens on signup, no credit card required.

4 **It runs on Web**

Web.

5 **Full-model fine-tuning**

The site says it finetunes whole SDXL models rather than only LoRAs, and offers 30+ base models to train from.

6 **Image generation**

Trained models can generate images for SD1.5 and SDXL, with ControlNet pose control, Offset Noise and QR code styles listed among the options.

7 **LoRA extraction**

LoRA files can be extracted from a trained model to cut the size of the download.

8 **A 2.2 GPA, above 63 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Dreamlook you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

OUR GRADE
2.2 GPA, fair

The report card

Best for fine-tuning Stable Diffusion models

Dreamlook trains whole SD1.5 and SDXL models on your images and generates from them, on prepaid packs from $15, with an API. The models are older Stable Diffusion ones, and the pricing page needs JavaScript to read.

TOOLGPA REPORT CARD	Dreamlook	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	Prepaid packs from $15, used as you go: training from $0.75 a run on SD1.5 and $2.25 on SDXL, generation from $0.01 an image. It is a different kind of pricing from the category's subscriptions, so no price comparison is fair.
Free plan and trial	C	50 free tokens on signup with no card, and then packs. There is no ongoing free plan.
Features	C	Training, generation, LoRA extraction and an API. It does that job but only on SD1.5 and SDXL, not newer models.
Ease of use	C	No store rating is on record. Preparing training images and judging the results is on you.
Platforms and integrations	B	Web and an API, with AUTOMATIC1111, RunDiffusion and ThinkDiffusion listed.
Grade point average		Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Dreamlook is for

- ✓ Fits if you want a model trained on your own images without owning a GPU
- ✓ Works for developers who want training and generation behind an API

Who it is not for

- ✗ Skip it if you want newer models, as it covers Stable Diffusion 1.5 and SDXL only
- ✗ Watch out: costs vary by run and image, from $0.75 per SD1.5 training run up
- ✗ Tight if you want a flat price, as there is no subscription
- ✗ Watch out: the pricing page was not readable without JavaScript, so the details come from the homepage

Good to know

Good for

- ✓ Developers adding custom-trained image models to an app
- ✓ People training Stable Diffusion models on a person, pet or style without their own GPU

Worth knowing

- ⓘ Pricing is pay-as-you-go: training starts at $0.75 per run for SD1.5 and $2.25 per run for SDXL, and generation from $0.01 per image for SD1.5 and $0.02 for SDXL.
- ⓘ The homepage points to a separate pricing page for full details, which is not readable without JavaScript.
- ⓘ The models are Stable Diffusion 1.5 and SDXL, not newer image models.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$15

To start

Dreamlook is a paid product with a free trial, starting at $15 prepaid pack, used as you go.

> **It is a different kind of pricing from the category's subscriptions, so no price comparison is fair.**
>
> From our grade for value for money

$15 PACK

$15

one-time top-up, used as you go

Up to 15 SD1.5 training runs, 5 SDXL training jobs or 1.2k generated images.

$60 PACK

$60

one-time top-up, used as you go

Up to 70 SD1.5 training runs, 23 SDXL training jobs or 5.6k generated images.

$100 PACK

$100

one-time top-up, used as you go

Up to 120 SD1.5 training runs, 40 SDXL training jobs or 9.6k generated images; marked most popular.

$400 PACK

$400

one-time top-up, used as you go

Up to 500 SD1.5 training runs, 166 SDXL training runs or 40k generated images.

$750 PACK

$750

one-time top-up, used as you go

Up to 1,000 SD1.5 training runs, 333 SDXL training jobs or 80k generated images.

Trying it first

50 free tokens on signup, no credit card required.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Fine-tune and generate with Stable Diffusion models. Here is what it does, as its own site describes it, and what it covers: public API, AI features, image generation.

> "
>
> **Training, generation, LoRA extraction and an API.**
>
> From our grade for features

Full-model fine-tuning

The site says it finetunes whole SDXL models rather than only LoRAs, and offers 30+ base models to train from.

Image generation

Trained models can generate images for SD1.5 and SDXL, with ControlNet pose control, Offset Noise and QR code styles listed among the options.

LoRA extraction

LoRA files can be extracted from a trained model to cut the size of the download.

Training and generation API

An API runs training and generation so an app can call it without managing GPUs.

Dreamlook is made by Dreamlook.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

63/168

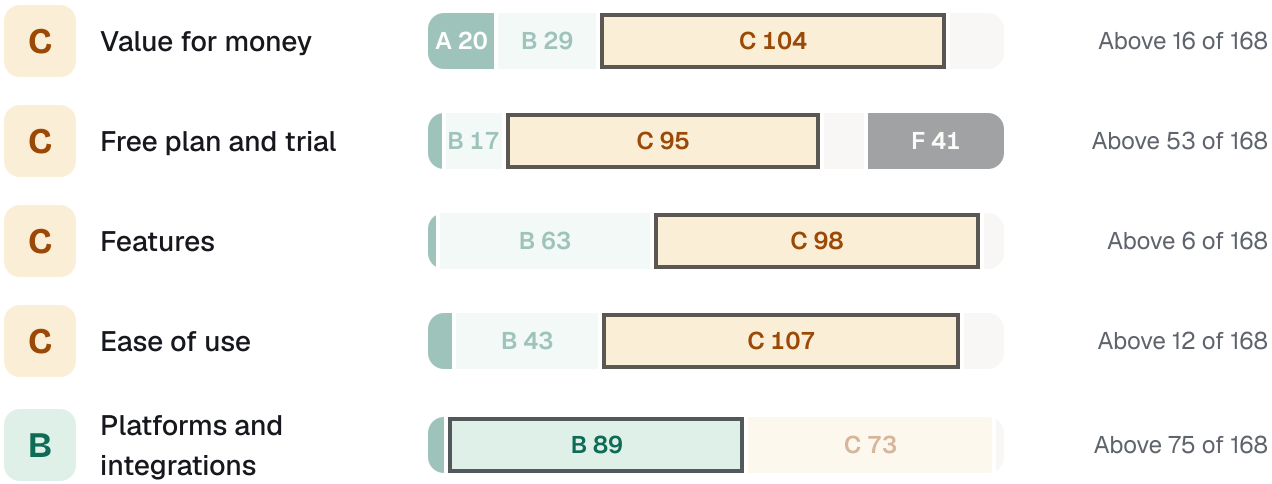

Other AI image and video generators it is graded above

Dreamlook's GPA of 2.2 is higher than 63 of the 168 other AI image and video generators we grade, and level with 42.

It stands best on platforms and integrations (B, above 75 of 168) and worst on features (C, above 6).

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Dreamlook's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Dreamlook you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

What you could not

- ✕ An image model, which you can rent by the picture but not make.
- ✕ It plugs into other products, AUTOMATIC1111, RunDiffusion and ThinkDiffusion among them, and has an API.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Dreamlook's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Astria, RunDiffusion, ThinkDiffusion, Scenario and Replicate

The 5 tools Dreamlook is most often weighed against, with where each one differs from it.

1.8 GPA

Astria

Paid

AI product photoshoots, lookbooks and headshots, with an API.

- Astria also covers templates.

Dreamlook and Astria compared in full

2.2 GPA

RunDiffusion

Free plan · from $8.79/mo

Cloud platform running ComfyUI, Auto1111 and premium AI models.

- RunDiffusion has a free plan. Dreamlook does not, though it has a free trial.
- RunDiffusion also covers video generation.

Dreamlook and RunDiffusion compared in full

1.6 GPA

ThinkDiffusion

Free trial · from $19.99/mo

Cloud GPU workspaces for Stable Diffusion, ComfyUI and Wan.

- ThinkDiffusion also covers video generation.

Dreamlook and ThinkDiffusion compared in full

2.6
GPA

Scenario

Free plan · from $15/mo

Generative AI platform for game and studio asset production.

- Scenario has a free plan. Dreamlook does not, though it has a free trial.
- Scenario also covers video generation.

Dreamlook and Scenario compared in full

1.8
GPA

Replicate

Paid

Cloud API for running open-source and hosted AI models.

- Replicate also covers video generation.

Dreamlook and Replicate compared in full

Quick answers

The questions people ask about it, each answered in a line or two

12

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Dreamlook free?

No, Dreamlook is a paid product, but you can try it first. 50 free tokens on signup, no credit card required.

How much does Dreamlook cost?

Dreamlook lists 5 plans. $15 pack: $15 one-time top-up, used as you go. $60 pack: $60 one-time top-up, used as you go. $100 pack: $100 one-time top-up, used as you go. $400 pack: $400 one-time top-up, used as you go. $750 pack: $750 one-time top-up, used as you go.

What platforms does Dreamlook work on?

Dreamlook is available on Web.

Does Dreamlook have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Dreamlook is listed for Web.

Does Dreamlook have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Dreamlook is listed for Web.

Is Dreamlook open source?

Dreamlook is not described as open source on its own site, as read on Nov 13, 2026.

Does Dreamlook have an API?

Yes. Dreamlook offers a public API, according to its own site.

What does Dreamlook integrate with?

Dreamlook's listing names AUTOMATIC1111, RunDiffusion and ThinkDiffusion.

Who makes Dreamlook?

Dreamlook is made by a company of the same name.

What are the alternatives to Dreamlook?

The closest alternatives to Dreamlook in our directory are Astria, RunDiffusion, ThinkDiffusion, Scenario and Replicate.

How does Dreamlook compare with other AI image and video generators?

Dreamlook's GPA of 2.2 is higher than 63 of the 168 other AI image and video generators we grade, and level with 42.

Could I make my own version of Dreamlook?

To replace Dreamlook you would be making an image model, which you can rent by the picture but not make.

Where this guide comes from

The prices, plans, platforms and features were read from Dreamlook's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Dreamlook's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews. Its pricing page could not be read here, so the grades rest on the listing.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Dreamlook. Prices change, so check dreamlook.ai before you buy.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
