Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 6 of the 89 other AI meeting note takers we grade

Dubber records calls and meetings across phone networks, Microsoft Teams, Zoom, Cisco Webex and mobile, then adds AI notes, transcripts and sentiment alerts. It is built mainly for telecom providers and enterprises, which resell or deploy it, rather than for individuals signing up on their own.

To get you started, here are **7 things to know about Dubber**, taken from its own pages and our grades.

> **No prices are published, and it is sold through communication service providers, so a single person may not be able to sign up at all.**
>
> From our report card of Dubber

1 **Best for carrier-grade call recording with AI notes**

Dubber records calls for phone carriers and businesses and adds AI notes, alerts and sentiment analysis.

2 **It runs on Web**

Web.

3 Multi-channel call recording

Captures conversations from carrier networks, Microsoft Teams, Zoom, Cisco Webex, Broadworks and native mobile, kept in one searchable cloud store.

4 Dubber Notes

AI notes for calls and meetings that summarize a long conversation and push the result to systems such as a CRM. No bot has to join the meeting.

5 Triggers and alerts

Configurable triggers notify a named role when a topic comes up, such as a missing compliance disclosure or a large revenue opportunity.

6 A 1.8 GPA, above 6 of 89

That is against the other AI meeting note takers we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Dubber you would be making a bot that joins your calls and turns the talk into notes. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for carrier-grade call recording with AI notes

Dubber records calls for phone carriers and businesses and adds AI notes, alerts and sentiment analysis. No prices are published, and it is sold through communication service providers, so a single person may not be able to sign up at all.

TOOLGPA REPORT CARD	Dubber	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; the pages send buyers to Dubber or a reseller partner.
Free plan and trial	F	No free plan and no trial are listed, so nothing can be tried without paying.
Features	C	Recording across channels, notes, triggers, alerts, sentiment moments and a compliance posture. It does call recording fully, and it is a narrower job than meeting notes.
Ease of use	C	No store rating on record. It is rolled out through a provider and connected to phone systems.
Platforms and integrations	B	Web only, with Teams, Zoom, Webex and Amazon Connect. No desktop or mobile apps are listed.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Dubber is for

- ✓ Fits if you run a phone service or contact centre that must record calls for compliance
- ✓ Works for a business buying through its phone provider

Who it is not for

- ✕ Skip it if you want to sign up yourself, as it is sold through providers and resellers
- ✕ Not for you if you want a note-taker for team meetings, as it is built for call recording
- ✕ Watch out: no prices are published, so you only learn the cost by contacting Dubber or a reseller
- ✕ Skip it if you want phone or desktop apps, as the pages describe a cloud platform with a login
- ✕ Skip it if you want to try before you buy, as no free plan or trial is listed

Good to know

Good for

- ✓ Telecom providers that want to offer call recording and AI notes to their customers
- ✓ Regulated teams, such as financial advisers, that must keep auditable call records

Worth knowing

- ⓘ No prices are published; the pages direct buyers to contact Dubber or a reseller partner.
- ⓘ It is sold through communication service providers, so a single user may not be able to sign up directly.
- ⓘ The pages describe a cloud platform with a login; they do not list desktop or mobile apps.

What it costs

1

Place it runs: Web

Carrier-grade call recording with AI notes and alerts. Here is what it does, as its own site describes it, and what it covers: AI features, meeting notes, transcription, reports.

> **Recording across channels, notes, triggers, alerts, sentiment moments and a compliance posture.**
>
> From our grade for features

Multi-channel call recording

Captures conversations from carrier networks, Microsoft Teams, Zoom, Cisco Webex, Broadworks and native mobile, kept in one searchable cloud store.

Dubber Notes

AI notes for calls and meetings that summarize a long conversation and push the result to systems such as a CRM. No bot has to join the meeting.

Triggers and alerts

Configurable triggers notify a named role when a topic comes up, such as a missing compliance disclosure or a large revenue opportunity.

Moments and sentiment analysis

Dubber Moments tags key points in each conversation and tracks sentiment and topic trends across many conversations.

Compliance posture

Dubber says its platform is certified to ISO 27001, GDPR and HIPAA standards and keeps an auditable record of recordings.

Where it stands

Its grades against its category, and whether to keep it or make your own

6/89

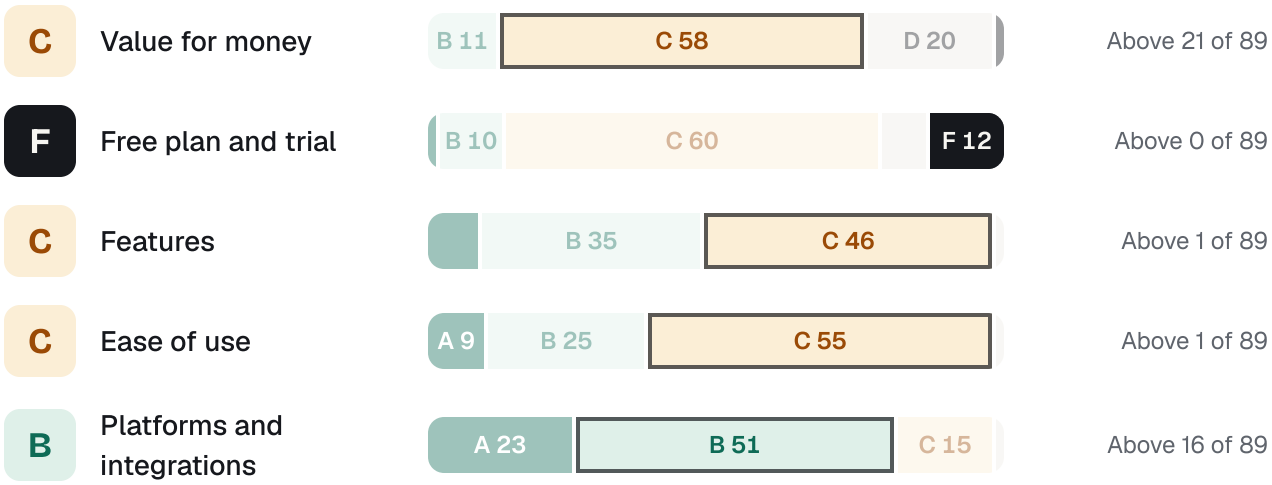

Other AI meeting note takers it is graded above

Dubber's GPA of 1.8 is higher than 6 of the 89 other AI meeting note takers we grade, and level with 4.

It stands best on platforms and integrations (B, above 16 of 89) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 90 AI meeting note takers we grade, cut by the letter each got. Dubber's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Dubber you would be making a bot that joins your calls and turns the talk into notes. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 79 of the 89 other AI meeting note takers grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- A bot that joins your calls and turns the talk into notes.
- Speech turned into text you can trust.
- AI features, unless you pay a model provider for each request yourself.
- What a company asks for before it lets staff use something: HIPAA.

What this rests on. Dubber's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
