SUBJECT	GRADE	COMMENT

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

35/186

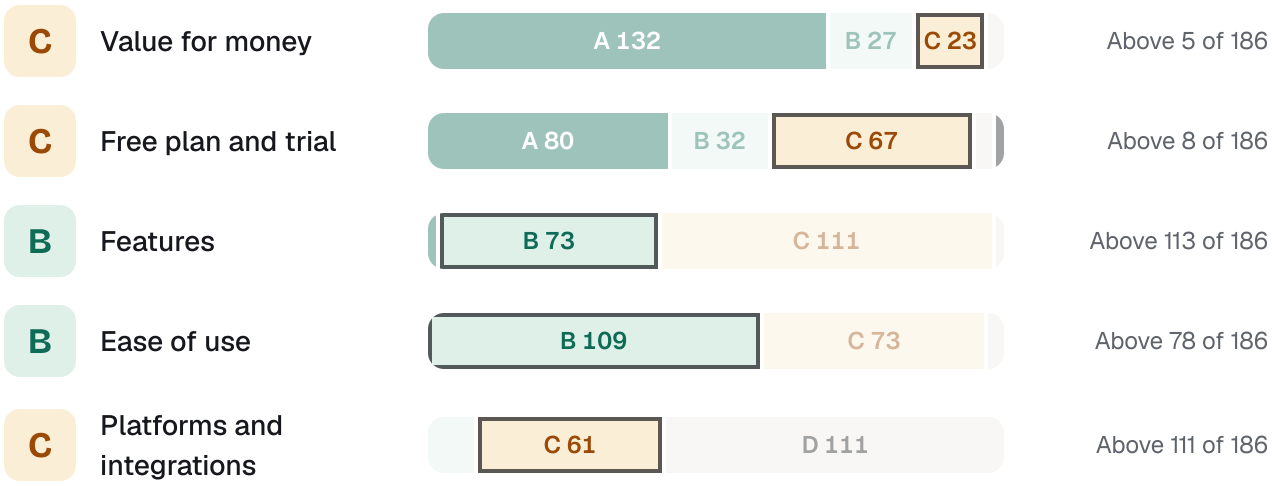

Other desktop utilities it is graded above

Easy Duplicate Finder's GPA of 2.4 is higher than 35 of the 186 other desktop utilities we grade, and level with 33.

It stands best on features (B, above 113 of 186) and worst on value for money (C, above 5).

Each grade against the category

Every bar is all 187 desktop utilities we grade, cut by the letter each got. Easy Duplicate Finder's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Nothing Easy Duplicate Finder does is plain enough to make in a weekend. The 5 things listed below take a company.

That makes this kind of software worth paying for, not this one in particular: 118 of the 186 other desktop utilities grade higher.

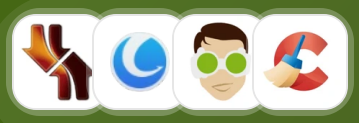

What you could not

- A file manager working directly on your disk.
- Deleting system files without breaking anything.
- A real app for macOS and Windows. Something home-made would be a web page.
- It plugs into other products, Google Drive, Dropbox and OneDrive among them.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Easy Duplicate Finder's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
