Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 35 of the 136 other writing tools we grade

Easy-Peasy.AI bundles an AI chat agent, over 300 writing templates, brand voices and bots with image, video, text-to-speech and transcription tools under one subscription. Each paid plan sets a monthly allowance of words from the larger language models, plus image and video credits. It started as a copywriting tool and now covers many media types.

> **Many tools, credits and model choices to understand.**
>
> From our grade for ease of use

To get you started, here are **9 things to know about Easy-Peasy.AI**, taken from its own pages and our grades.

1 **Best for text, images and audio on credits**

Allowances are counted per model and in shared credits, free images are public, and the page gives two different yearly savings.

2 **Paid plans start at $8 a month**

As its pricing page puts it: $8 per month, billed yearly.

3 There is a free plan

1,000 words, 1 image credit, 1 audio transcription, 1,000 characters of text-to-speech and 1 bot, with public images.

4 It runs on 2 platforms

Web and iOS.

5 Writing templates

Over 300 one-click generators for blog posts, bios, business plans, speeches and similar documents; the free plan has 170+.

6 Chat with several models

Chat agent that can use Claude, OpenAI, Gemini and other models; monthly word limits differ by model on every plan.

7 Brand voices

Save a brand voice for generated text: 3 on Starter and unlimited on the two higher plans.

8 A 2.2 GPA, above 35 of 136

That is against the other writing tools we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Easy-Peasy.AI you would be making an AI model, which you can rent by the request but not make. That is not a weekend's work, with an AI app builder or without one.

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Easy-Peasy.AI is for

- ✓ Fits if you want text, images and audio under one subscription
- ✓ Works for people who switch between models for different jobs

Who it is not for

- ✕ Tight if you stay free: 1,000 words, 1 image credit and public images
- ✕ Watch out: heavy image and video use can run through shared credits fast
- ✕ Not for you if you want monthly-billing prices, because the page shows yearly ones
- ✕ Watch out: the page says yearly saves 50% on the toggle and 40% in the FAQ

Good to know

Good for

- ✓ Writers and marketers who want text, image and audio tools on one bill
- ✓ Small businesses building a chatbot trained on their own content
- ✓ People who want to compare several language models in one place

Worth knowing

- ⓘ Allowances are set in words per model and in shared image/video credits, so heavy media use can run through the plan quickly.
- ⓘ The free plan makes generated images public and does not allow parallel runs.
- ⓘ The pricing page shows yearly-billed prices; the monthly-billed prices sit behind a toggle and were not readable.
- ⓘ The page says yearly billing saves 50% on its toggle but 40% in its FAQ, so the exact saving is unclear.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

35/136

Other writing tools it is graded above

Easy-Peasy.AI's GPA of 2.2 is higher than 35 of the 136 other writing tools we grade, and level with 23.

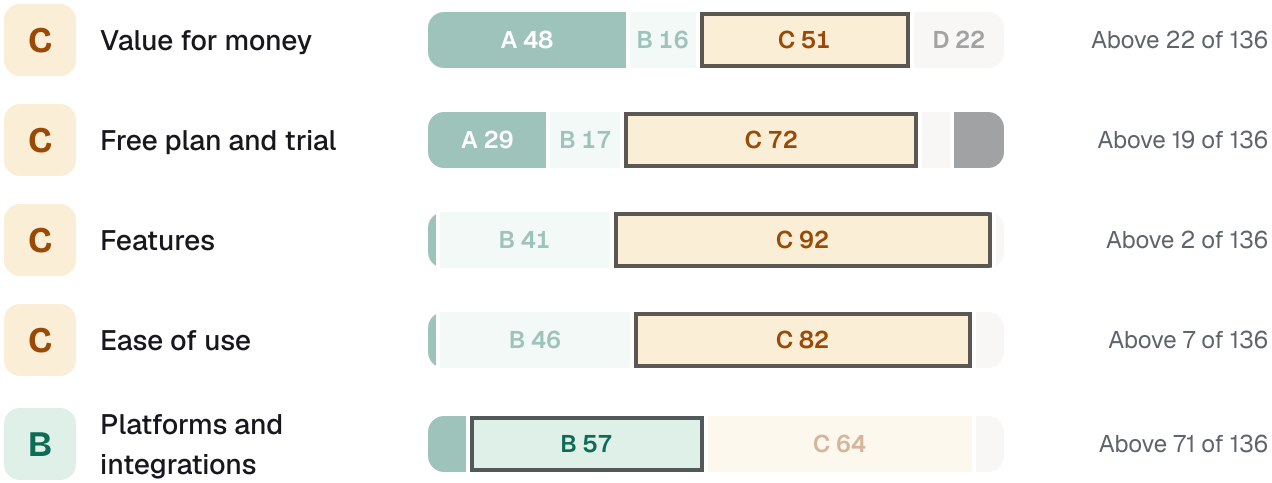

It stands best on platforms and integrations (B, above 71 of 136) and worst on features (C, above 2).

Its paid plans start at $8 a month, against a middle price of $8.66 for the category: 32 of the 81 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 23 tools score higher and cost less.

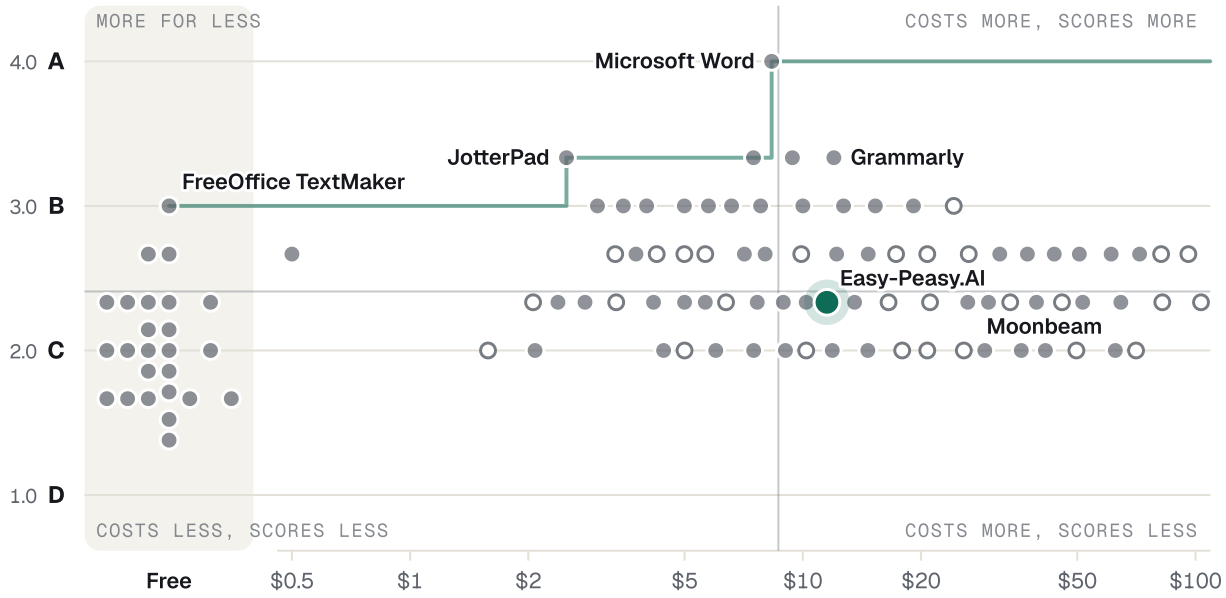

Each grade against the category

Every bar is all 137 writing tools we grade, cut by the letter each got. Easy-Peasy.AI's own letter is outlined.

Price against what you get

Each dot is one of 107 writing tools. Further left costs less; higher up scores better on features, ease of use and platforms. Easy-Peasy.AI is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Easy-Peasy.AI you would be making an AI model, which you can rent by the request but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 78 of the 136 other writing tools grade higher. It costs $96 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- An AI model, which you can rent by the request but not make.

- A voice model, which you can rent by the minute but not make.
- An image model, which you can rent by the picture but not make.
- A video model, which you can rent by the second but not make.
- Speech turned into text you can trust.
- A real app for iOS. Something home-made would be a web page.
- It plugs into other products, Zapier, Claude and OpenAI among them.

What this rests on. Easy-Peasy.AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
