07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Elation Health's own pages, its app-store listings and our grades. Every fact in it is on Elation Health's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 15 of the 60 other therapy and clinic software we grade

Elation Health makes an electronic health records system and a billing platform aimed at independent primary care practices. It combines charting, scheduling, a patient portal, telehealth and an AI note tool. Prices are not published; a practice requests a personalized quote.

To get you started, here are **7 things to know about Elation Health**, taken from its own pages and our grades.

1 **Best for primary care practices**

No prices are published, and a therapy or counseling practice may find its workflows a poor fit.

2 **It runs on 2 platforms**

Web and iOS.

3 **EHR and charting**

A cloud-based electronic health record for primary care, with documentation, clinical orders and referral management in the same system.

4 **Native AI documentation**

Elation's Note Assist and Scribe tools draft visit documentation inside the chart. The pricing page says native AI solutions are now included at no extra charge.

5 **Billing and claims**

Elation Billing covers real-time eligibility checks, claims submission and ERA posting, and Elation has announced AI-assisted billing built into the chart.

6 **A 1.8 GPA, above 15 of 60**

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Elation Health you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

Elation Health at a glance

PRICING Paid	FREE PLAN No

OUR GRADE 1.8 GPA, weak	

The report card

Best for primary care practices

Elation Health is an EHR and billing platform built around primary care, with AI documentation, a patient app, telehealth and a developer platform. No prices are published, and a therapy or counseling practice may find its workflows a poor fit.

TOOLGPA REPORT CARD

Elation Health

Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so we hold it at the middle of the therapy-clinics range ($39 a month). A form and a quote come first.
Free plan and trial	F	No free plan and no trial are listed on the page we read.
Features	C	EHR, AI notes, billing and claims, telehealth and an API, but it is built for primary care, not therapy.
Ease of use	C	No store rating on record. An EHR needs set-up before use.
Platforms and integrations	B	Web and iPhone, with Google Calendar and a developer platform. No Android app was confirmed.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Elation Health is for

- ✓ Fits if you run a primary care practice and want an EHR with an open developer platform
- ✓ Works for a practice that wants a mobile app on iPhone

Who it is not for

- ✕ Not for you if you run therapy or counseling, as the workflows are built around primary care
- ✕ Skip it if you want a price before a form, as a practice must wait for a personalized quote
- ✕ Not for you if you use Android, as the only app found was for iOS
- ✕ Watch out: no free plan or trial is listed

Good to know

Good for

- ✓ Independent primary care practices, including direct primary care
- ✓ Practices that want charting and billing from one vendor
- ✓ Groups that need an API to connect their own software

Worth knowing

- ⓘ No prices are published; a practice must submit a form and wait for a personalized quote.
- ⓘ It is built around primary care, so a therapy or counseling practice may find it a poor fit for its workflows.
- ⓘ The only app store link found was for iOS; no Android app was confirmed.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Elation Health's current pricing could not be confirmed from its own site.

"

No free plan and no trial are listed on the page we read.

From our grade for free plan and trial

We could not confirm Elation Health's current prices from its own site, so this guide lists no plans. elationhealth.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

2

Places it runs: Web and iOS

EHR and billing platform built for primary care practices. Here is what it does, as its own site describes it, and what it covers: public API, AI features, clinical notes, insurance billing, telehealth.

> **EHR, AI notes, billing and claims, telehealth and an API, but it is built for primary care, not therapy.**
>
> From our grade for features

EHR and charting

A cloud-based electronic health record for primary care, with documentation, clinical orders and referral management in the same system.

Native AI documentation

Elation's Note Assist and Scribe tools draft visit documentation inside the chart. The pricing page says native AI solutions are now included at no extra charge.

Billing and claims

Elation Billing covers real-time eligibility checks, claims submission and ERA posting, and Elation has announced AI-assisted billing built into the chart.

Patient Passport and telehealth

Patients get a portal for records and messages, and video visits run from inside the EHR.

Elation Go mobile app

A physician app for e-prescribing, calendar, patient messaging and starting video visits. Elation says it is free to EHR customers.

Developer platform and integrations

A public API plus HL7 and FHIR documentation, and an integrations directory with labs, imaging centers, immunization registries and health information exchanges.

Where it runs

Web

iOS

What it works with

Google Calendar

Elation Health is made by Elation Health, and has been around since 2010.

Where it stands

Its grades against its category, and whether to keep it or make your own

15/60

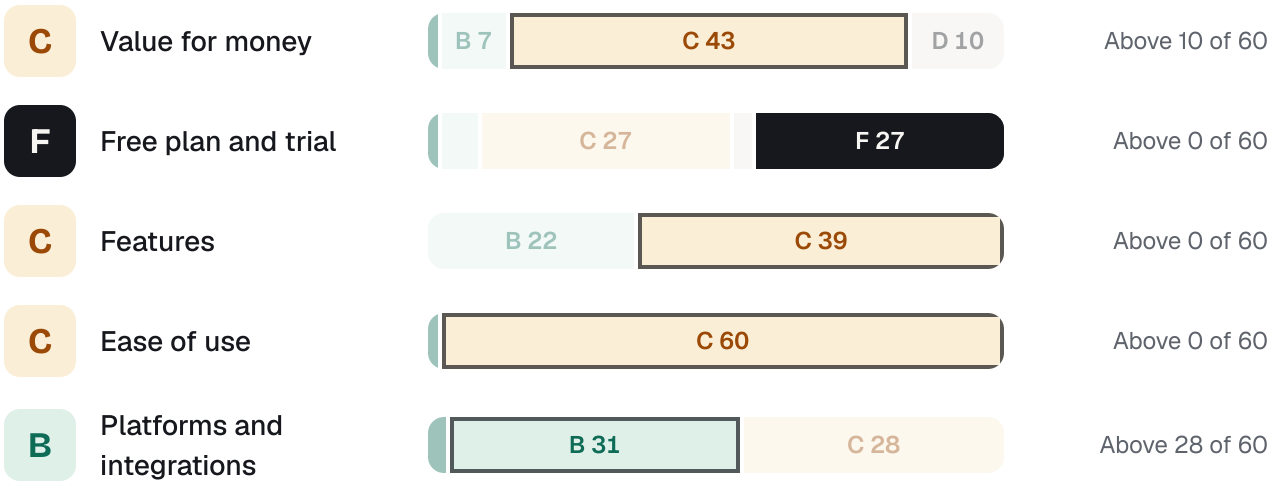

Other therapy and clinic software it is graded above

Elation Health's GPA of 1.8 is higher than 15 of the 60 other therapy and clinic software we grade, and level with 11.

It stands best on platforms and integrations (B, above 28 of 60) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 61 therapy and clinic software we grade, cut by the letter each got. Elation Health's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Elation Health you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 34 of the 60 other therapy and clinic software grade higher.

What you could make

- Clinical notes: an app builder makes this well.

What you could not

- Insurance claims sent to payers through a clearinghouse.
- Video sessions that meet health privacy rules.
- A real app for iOS. Something home-made would be a web page.
- It plugs into other products, Google Calendar among them, and has an API.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Elation Health's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

DrChrono, Tebra, Charm EHR, Healthie and Carepatron

The 5 tools Elation Health is most often weighed against, with where each one differs from it.

2.0 GPA

DrChrono

Paid

Cloud EHR, practice management and billing by EverHealth.

- Only Elation Health lists an iOS app.
- DrChrono also covers dictation and appointment booking.

Elation Health and DrChrono compared in full

2.0 GPA

Tebra

Paid

EHR, medical billing and patient marketing for independent practices.

- Tebra also covers appointment booking and review collection.

Elation Health and Tebra compared in full

2.2
GPA

Charm EHR

Free plan

Cloud EHR with an AI scribe for medical and psychiatry practices.

- Charm EHR has a free plan. Elation Health does not.
- Only Elation Health lists an iOS app.
- Charm EHR also covers templates and appointment booking.

Elation Health and Charm EHR compared in full

2.4
GPA

Healthie

Free trial · from $18/mo

EHR, telehealth and client programs for wellness and care practices.

- Only Healthie lists an Android app.
- Healthie also covers online fax and appointment booking.
