07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from ElectroNeek's own pages, its app-store listings and our grades. Every fact in it is on ElectroNeek's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 26 of the 134 other automation tools we grade

ElectroNeek is an automation platform that joins a browser-based AI workflow builder, document intelligence and RPA bots for systems without an API, such as SAP GUI, AS/400, Citrix and desktop apps. It sells to IT and operations teams and to agencies that resell automation under their own brand. Pricing is by quote, built from usage volumes.

To get you started, here are **7 things to know about ElectroNeek**, taken from its own pages and our grades.

> **Bots and workflows have to be built, and which operating systems the bot runner supports was not confirmed.**
>
> From our grade for ease of use

1 **Best for RPA bots for systems with no API**

Prices are a quote built from your volumes on an annual commitment, and AI model costs go to your own provider.

2 **It runs on Web**

Web.

3 AI workflows and agents

A browser builder with triggers, human approvals and agents that use tools, including MCP servers and your own bots.

4 Document intelligence

IntelliDocs turns documents such as invoices and claims into structured data, priced by pages processed.

5 RPA bots for legacy apps

Bots drive SAP GUI, AS/400, Citrix and desktop applications on screen where no API exists; bot runners are not metered.

6 A 2.0 GPA, above 26 of 134

That is against the other automation tools we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace ElectroNeek you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

ElectroNeek at a glance

PRICING Paid	FREE PLAN No
FREE TRIAL None stated	RUNS ON Web
MADE BY ElectroNeek	CATEGORY Automation
OUR GRADE 2.0 GPA, fair	

The report card

Best for RPA bots for systems with no API

ElectroNeek combines AI workflows, document extraction and RPA bots for older systems such as SAP GUI and AS/400. Prices are a quote built from your volumes on an annual commitment, and AI model costs go to your own provider.

TOOLGPA REPORT CARD — **ElectroNeek** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; a quote comes back in one business day, built from your volumes.
Free plan and trial	F	No free plan and no trial is listed anywhere on record.
Features	B	AI workflows and agents, document intelligence, RPA bots for legacy apps, your own AI model, and hosted or on-premises options. The listing shows no gap in the core work.
Ease of use	C	No store rating on record. Bots and workflows have to be built, and which operating systems the bot runner supports was not confirmed.
Platforms and integrations	B	Web platform with listed links to SAP GUI, AS/400, Citrix, OpenAI, Anthropic and WhatsApp. No phone app on record.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who ElectroNeek is for

- ✓ Fits if you post invoices into an ERP that has no API
- ✓ Works for agencies that want to resell automation with a tenant per client

Who it is not for

- ✕ Skip it if you want a price on the page, as quotes only come after you share volumes
- ✕ Not for you if you want a month-to-month deal, since plans are on an annual commitment
- ✕ Watch out: usage is counted in runs, pages and conversations, and AI model costs are billed separately by your provider

Good to know

Good for

- ✓ IT and finance teams posting invoices into ERPs with no API
- ✓ Agencies and consultancies building a resold automation practice
- ✓ Regulated organizations that need on-premises or hosted isolation

Worth knowing

- ⓘ No prices are published; the pricing page says a quote is built from your volumes and returned in one business day.
- ⓘ Plans are sold on an annual commitment.
- ⓘ Usage is counted in workflow runs, bot runs, document pages and conversations; LLM costs go to your own provider.
- ⓘ Which operating systems the bot runner supports was not confirmed on the pages read.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

ElectroNeek's current pricing could not be confirmed from its own site.

> **No price is published; a quote comes back in one business day, built from your volumes.**
>
> From our grade for value for money

We could not confirm ElectroNeek's current prices from its own site, so this guide lists no plans. electroneek.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

AI workflows, document intelligence and RPA bots for legacy systems. Here is what it does, as its own site describes it, and what it covers: AI features, workflow automation, AI agents, no-code, chatbots.

> **AI workflows and agents, document intelligence, RPA bots for legacy apps, your own AI model, and hosted or on-premises options.**
>
> From our grade for features

AI workflows and agents

A browser builder with triggers, human approvals and agents that use tools, including MCP servers and your own bots.

Document intelligence

IntelliDocs turns documents such as invoices and claims into structured data, priced by pages processed.

RPA bots for legacy apps

Bots drive SAP GUI, AS/400, Citrix and desktop applications on screen where no API exists; bot runners are not metered.

Bring your own model

Agents and AI workflows use your own key for OpenAI, Anthropic, Google, Azure or a self-hosted model.

Partner console

A multi-tenant console with a tenant per client, white-label runner and portal, for agencies reselling automation.

Hosted and on-premises options

Plans include a hosted dedicated environment and a Sovereign option that runs the whole platform, including the LLM, on your infrastructure.

Where it runs

- Web

What it works with

- SAP GUI
- AS/400
- Citrix
- OpenAI
- Anthropic
- Google
- Azure
- WhatsApp

ElectroNeek is made by ElectroNeek.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

26/134

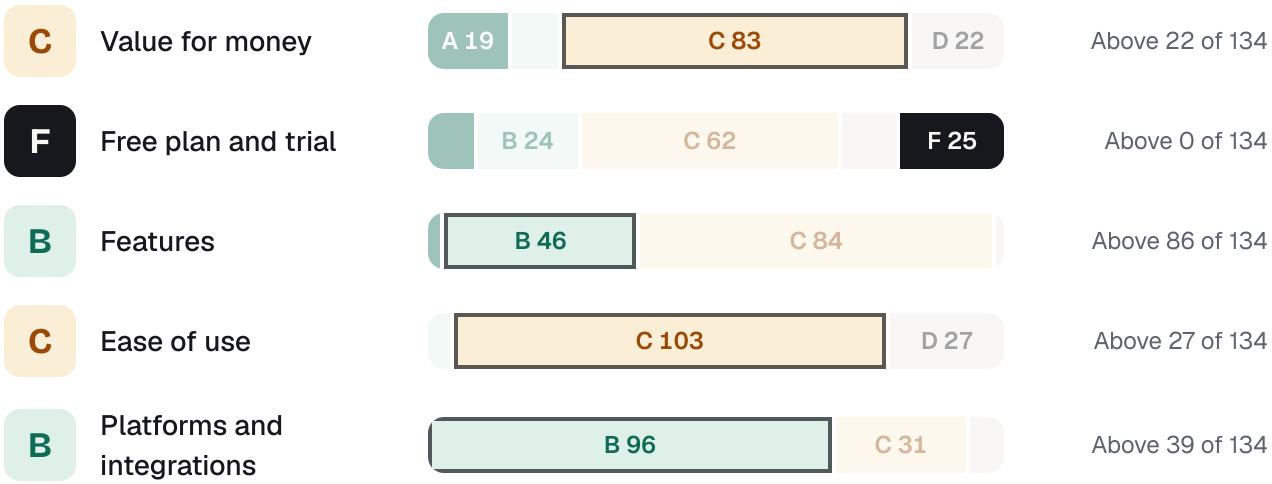

Other automation tools it is graded above

ElectroNeek's GPA of 2.0 is higher than 26 of the 134 other automation tools we grade, and level with 27.

It stands best on features (B, above 86 of 134) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 135 automation tools we grade, cut by the letter each got. ElectroNeek's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace ElectroNeek you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 81 of the 134 other automation tools grade higher.

What you could not

- ✕ Connections to other products, each kept working as those products change.
- ✕ A builder that other people can use without writing code.
- ✕ An AI agent, with the models and the safeguards behind it.
- ✕ A chatbot builder hooked into the messaging apps.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. ElectroNeek's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

UiPath, Automation Anywhere, Blue Prism, Robomotion and Microsoft Power Automate

The 5 tools ElectroNeek is most often weighed against, with where each one differs from it.

2.6 GPA

UiPath

Free plan · from $25/mo

Enterprise platform for RPA, AI agents and process orchestration.

- UiPath has a free plan. ElectroNeek does not.
- Only UiPath lists Windows, macOS and Linux apps.
- UiPath is self-hostable, according to its own site.

ElectroNeek and UiPath compared in full

2.4 GPA

Automation Anywhere

Free plan

RPA and agentic process automation for enterprises.

- Automation Anywhere has a free plan. ElectroNeek does not.
- Only ElectroNeek lists a web app.
- Only Automation Anywhere lists Windows and macOS apps.

ElectroNeek and Automation Anywhere compared in full

2.0
GPA

Blue Prism

Free trial

Enterprise robotic process automation, now SS&C Blue Prism.

- ElectroNeek also covers AI agents, no-code and chatbots.

ElectroNeek and Blue Prism compared in full

2.0
GPA

Robomotion

Free plan · from $49/mo

RPA platform for building workflows, AI agents and apps.

- Robomotion has a free plan. ElectroNeek does not.
- Only Robomotion lists Windows, macOS and Linux apps.
- Robomotion is self-hostable, according to its own site.

ElectroNeek and Robomotion compared in full

2.8
GPA

Microsoft Power Automate

Free plan · from $15/mo

Cloud workflows and desktop RPA in the Microsoft Power Platform.

- Microsoft Power Automate has a free plan. ElectroNeek does not.
- Only Microsoft Power Automate lists a Windows app.
- ElectroNeek also covers AI agents, no-code and chatbots.

ElectroNeek and Microsoft Power Automate compared in full

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is ElectroNeek free?

No. ElectroNeek is a paid product.

What platforms does ElectroNeek work on?

ElectroNeek is available on Web.

Does ElectroNeek have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. ElectroNeek is listed for Web.

Does ElectroNeek have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. ElectroNeek is listed for Web.

Is ElectroNeek open source?

ElectroNeek is not described as open source on its own site, as read on Nov 13, 2026.

What does ElectroNeek integrate with?

ElectroNeek's listing names SAP GUI, AS/400, Citrix, OpenAI, Anthropic, Google, Azure and WhatsApp.

Who makes ElectroNeek?

ElectroNeek is made by a company of the same name.

What are the alternatives to ElectroNeek?

The closest alternatives to ElectroNeek in our directory are UiPath, Automation Anywhere, Blue Prism, Robomotion and Microsoft Power Automate.

How does ElectroNeek compare with other automation tools?

ElectroNeek's GPA of 2.0 is higher than 26 of the 134 other automation tools we grade, and level with 27.

Could I make my own version of ElectroNeek?

To replace ElectroNeek you would be making connections to other products, each kept working as those products change.

Where this guide comes from

The prices, plans, platforms and features were read from ElectroNeek's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from ElectroNeek's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by ElectroNeek. Prices change, so check electroneek.com before you buy.

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at toolgpa.com.
