Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Eleos Health's own pages, its app-store listings and our grades. Every fact in it is on Eleos Health's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 15 of the 60 other therapy and clinic software we grade

Eleos is an AI platform for community-based care organizations. An ambient scribe drafts progress notes from sessions, a compliance tool reviews notes, and revenue cycle checks flag coding and eligibility issues. It runs in the browser on top of an existing web-based EHR. Prices are not published.

To get you started, here are **7 things to know about Eleos Health**, taken from its own pages and our grades.

> **It does not replace that EHR, it is aimed at organizations rather than solo therapists, and no price is published.**
>
> From our report card of Eleos Health

1 **Best for community care teams that already have a web EHR**

Eleos drafts progress notes from sessions, checks them for compliance and flags billing issues, inside the web EHR you already use.

2 **It runs on Web**

Web, with a browser extension too.

3 **Ambient AI scribe**

Turns session audio or a short summary into a draft progress note that the provider reviews.

4 **Compliance review**

Scans every note and flags issues such as duplicated text or missing progress mentions.

5 **Clinical insights**

Session analytics and an insights agent for providers and supervisors.

6 **A 1.8 GPA, above 15 of 60**

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

The plain part of Eleos Health you could make: clinical notes. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

The report card

Best for community care teams that already have a web EHR

Eleos drafts progress notes from sessions, checks them for compliance and flags billing issues, inside the web EHR you already use. It does not replace

that EHR, it is aimed at organizations rather than solo therapists, and no price is published.

TOOLGPA REPORT CARD	Eleos Health	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published and sales go through a demo request, so it sits in the middle for want of a figure.
Free plan and trial	F	No free plan and no trial on record, only a demo.
Features	C	Ambient note drafting, compliance review and revenue cycle checks, but it needs a web-based EHR to sit on and does not replace one.
Ease of use	C	No store rating on record, and it has to be connected to your EHR and rolled out to staff.
Platforms and integrations	B	Runs in the browser with an extension, with integrations to EHRs such as Credible and CareLogic.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Eleos Health is for

- ✓ Fits if your organization already uses a web-based EHR and wants help with notes
- ✓ Works for community-based care teams that review notes for compliance

Who it is not for

- ✕ Not for you if you are a solo therapist, as it is aimed at organizations
- ✕ Skip it if you do not have a web EHR, as it does not replace one
- ✕ Skip it if you want a price first, as sales go through a demo
- ✕ Tight if you want to trial it, as none is listed

Good to know

Good for

- ✓ Community behavioral health agencies with many providers
- ✓ Substance use treatment and home health organizations

Worth knowing

- ⓘ No prices are published; sales go through a demo request.
- ⓘ It needs a web-based EHR; it does not replace one.
- ⓘ Aimed at organizations, not solo therapists.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Eleos Health's current pricing could not be confirmed from its own site.

> **No price is published and sales go through a demo request, so it sits in the middle for want of a figure.**
>
> From our grade for value for money

We could not confirm Eleos Health's current prices from its own site, so this guide lists no plans. eleos.health has them.

Where it stands

Its grades against its category, and whether to keep it or make your own

15/60

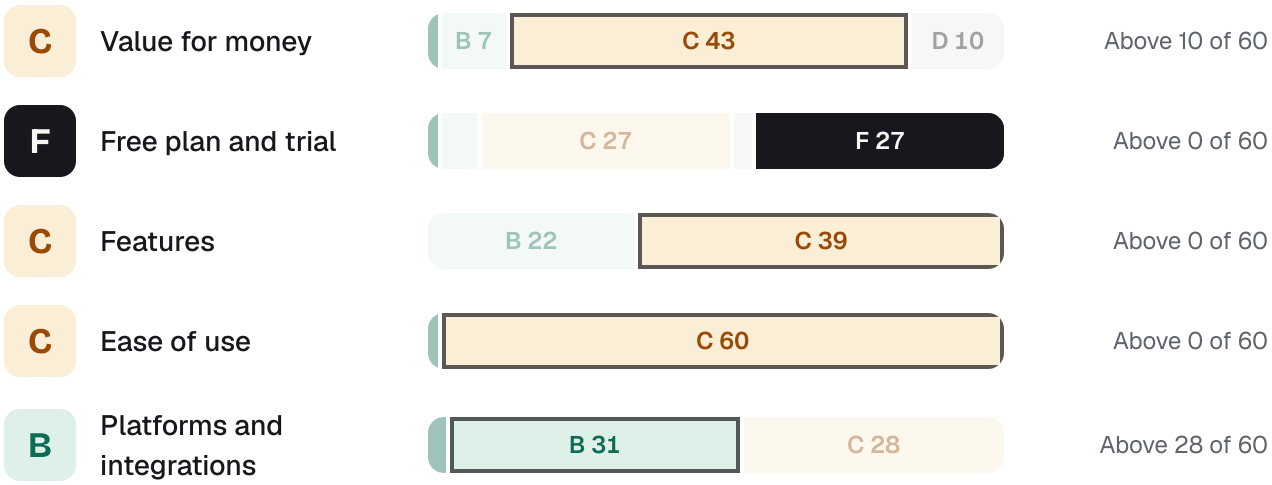

Other therapy and clinic software it is graded above

Eleos Health's GPA of 1.8 is higher than 15 of the 60 other therapy and clinic software we grade, and level with 11.

It stands best on platforms and integrations (B, above 28 of 60) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 61 therapy and clinic software we grade, cut by the letter each got. Eleos Health's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Eleos Health you could make: clinical notes. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 34 of the 60 other therapy and clinic software grade higher.

What you could make

- Clinical notes: an app builder makes this well.

What you could not

- Speech turned into text you can trust.
- It plugs into other products, Carelogic, Credible and InSync among them.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Eleos Health's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
