Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 29 of the 72 other lead and email finders we grade

Evaboot is a Chrome extension and web app that exports LinkedIn Sales Navigator searches and lists to a spreadsheet, cleans the data and looks up verified emails for each lead. It is priced in credits on monthly plans, with unlimited seats, and it needs an active Sales Navigator seat to work.

To get you started, here are **8 things to know about Evaboot**, taken from its own pages and our grades.

> **It is an extension that adds an export button inside Sales Navigator, so there is little to set up beyond your own account.**
>
> From our grade for ease of use

1 **Best for exporting Sales Navigator searches with emails**

It only works if you already pay for Sales Navigator, there is no free plan or trial, and phone numbers are not part of it.

2 **Paid plans start at $9 a month**

As its pricing page puts it: $9 per month for 100 credits.

3 **It runs on Web**

Web, with a browser extension too.

4 **Sales Navigator export**

A button added to Sales Navigator exports lead and account searches, lists and saved searches. One search can return up to 2,500 leads or 1,000 companies.

5 **Email finder and verifier**

Every exported lead gets an email lookup with verification. A lead with no email found still costs 1 credit, while the standalone Email Finder charges only when it finds one.

6 **LinkedIn URL enrichment**

Enriches a bulk list of LinkedIn profile URLs, so contacts do not have to come from a Sales Navigator search.

7 **A 2.2 GPA, above 29 of 72**

That is against the other lead and email finders we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Evaboot you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

SUBJECT	GRADE	COMMENT
Value for money	B	$9 a month for 100 credits is under the $33.25 the cheaper quarter of lead finders charges, but 100 credits is 100 leads, and Sales Navigator is a separate bill. $29 buys 400 and $49 buys 1,000.
Free plan and trial	F	The pricing page states no free trial and there is no free plan.
Features	C	Exports up to 2,500 leads per search, looks up and verifies emails, and enriches LinkedIn URLs. It needs a Sales Navigator seat and its FAQ says it finds no phone numbers.
Ease of use	B	No store rating on record. It is an extension that adds an export button inside Sales Navigator, so there is little to set up beyond your own account.
Platforms and integrations	B	Chrome extension and web app, with pushes to HubSpot, Pipedrive, Apollo, lemlist, Instantly and Clay, plus an API and an MCP connection. No desktop or phone app.

Grade point average Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Evaboot is for

- ✓ Fits if you already pay for Sales Navigator and want emails attached to the lists you build
- ✓ Works for teams that share one credit balance, as seats are unlimited

Who it is not for

- ✗ Skip it if you have no Sales Navigator seat, because it only exports your own searches
- ✗ Tight if you want to try before paying, as there is no free plan or trial
- ✗ Not for you if you need phone numbers, as the FAQ sends you to another product for those
- ✗ Watch out: a lead with no email found still costs 1 credit, and a yearly plan cannot be cancelled before its term ends

It costs $108 a year.

What you could not

- ✕ Checking that an address exists without writing to it.

- ✕ AI features, unless you pay a model provider for each request yourself.
